HIALEAH, FLORIDA

TUESDAY, JANUARY 29, 1957

AUDITORIUM NEARS COMPLETION

S. Council Plans Ahead; Calendar Set

What's going on in the Student Council? What plans are being made to improve Hialeah's school spirit? These are good questions and can only receive good answers.

TAG DAY SET

The largest project planned by the Student Council is the coming Tag Day sale, from which money will be raised for future activities. Also, funds for the sign board are still being added to, so that in time, Hialeah will have an immense changeable sign board to tell of future athletic games and other school activities.

The Student Council is honored by being the presiding officer of seven meetings of the district Council meetings. Also, Student Council officers will represent Hialeah in the future State Convention.

AWARDS PLANNED

Seeing the need for awards for more than athletic participants, the Student Council is establishing an award plan for students who have been outstanding in the more academic subjects, as well as the artistic subjects, such as chorus and orchestra. Even the outstanding Student Council member of the year, the one who has contributed the most of his time and effort to the advancement of the Student Council, will receive an award.

WORK WITH P.T.A.

Working with the P.T.A. will continue to be one of the most vital activities of the Student Council, because in this manner, the Student Council and the parents can combine to aid the students more. Together, the two associations will designate the club that has been most outstanding throughout the year.

GOOD REPRESENTATION

The Student Council president, John Cavalier, assures the students that the Student Council will continue to maintain a balanced government for the school, so that all students will be represented.

COFFEE FOR FACULTY

However, the teachers are not being forgotten with all this attention on the students. The Student Council is planning a coffee for the faculty during the semester break period. According to Mr. Thomas Heaps, the Student Council sponsor, the coffee will have a definite psychological effect on the teachers, so that more students will get more "benefits-of-the-doubt."

JOHN CAVALIER, president of the Student Council, puts the finishing touches on the new Hialeah High Auditorium.

War Against Polio Not Over; Stay Safe With Salk 'Shots'

By MIKE DAVIS
Record Staff Writer

Dade County Health officials stressed the need for high school students to "make use of the Salk Polio Vaccine" in a recent letter to Mr. Everett Pease, Principal of Hialeah High School.

The letter, written by George M. Erickson, M.D., stated, "To have our children negligently accept the avoidable risk of a handicapped life is against all rules of common reason."

The Health Department would like to have all students immunized against paralytic polio before the height of the next polio season, although this will be a very difficult thing to do as four weeks to six weeks must elapse between the first and second inoculations and seven to ten months between the second and third inoculations.

Mr. Erickson says in his letter, "Any child who is not immunized now is no more protected than were our children before the discovery of the polio vaccine." A vaccine has been found to immunize people against polio and not wipe the disease out completely.

Several people have taken either the first or the first and second shots and have failed to return for the remainder of the treatment. The reports of the Health Department show that as yet, "no one who has completed all three shots has contracted paralytic polio."

The following points were emphasized as a means to possibly get the student to take advantage of the inoculations being offered:

- (1) Complete polio immunizations are safe protection against paralytic polio.
- (2) The present supply of Salk Vaccine is more than abundant.
- (3) Any physician is fully prepared to administer these immunizations in his own office.
- (4) Students without private physicians may be immunized at the nearest Dade County Health Clinic without cost.
- (5) All students using clinic facilities should have a note from their parent granting permission for immunization, or they may be accompanied by a parent.
- (6) All students who have had one or more shots should complete their immunizations at the proper time: The first two shots are four to six weeks apart. The third following the second by an interval of seven to ten months.

Mr. Erickson went on to say, (Please turn to page 5)

Builders are hurrying this week to put the finishing touches on Hialeah High's new quarter-million dollar auditorium, but all expectations point to a delay of "four or five" days of the scheduled February 8th dedication ceremony. Construction foreman John Kelley said last week that the auditorium probably wouldn't be finished by February 8th, but "shouldn't" run more than a week late.

King, Queen To Hold Court For Basketball

By Marilyn Martin and Leonard Pardue

When the air is crisp and the gymnasiums all across the United States ring with shouts and the pounding of balls against hardwood, basketball reigns supreme. That's true at Hialeah even more so where King and Queen Basketball will be selected to rule for the remainder of the basketball season.

Following the February 1st tilt with Edison's Red Raiders, the crowning of the royalty will occur at a regal ball presented by the cheerleaders. Alas, all dancing will be restricted to the bold and the brave in stocking feet.

The King? Why a basketball player, of course! A hale and hearty lad who wears the Red and Blue for Hialeah. The Queen? A fair young maiden who resides in Senior castle.

All are cordially invited to this festive occasion, the first in many an annual affair. An excellent basketball encounter will precede the event, and from ten 'til twelve the subjects of King and Queen Basketball will pay homage to their majesties.

The selection of the sovereigns will take place this week with a preliminary and a run-off being held. However, the identity of the royal twosome will be a jealously guarded secret until the night of the first. So rings the jester's cry, "Come one, come all!"

Bus Companies Offer \$3,000 in Scholarships

The Miami Transit Company and The Miami Beach Railway Company are working in joint-sponsorship of an essay contest in which they offer a \$2,000 scholarship to the writer of the winning essay to either the University of Miami or Florida A. and M.

The contest opened officially on January 14 and will close at midnight March 31. Entries post-marked after midnight will be disqualified.

Entrants must complete in 1,000 words or less: "Traffic congestion in Greater Miami's crowded shopping areas could be relieved by . . ."

Prizes will be awarded on the basis of originality of thought, awareness of public traffic problems, and clarity and conciseness of expression.

A second prize of a \$1,000 scholarship. (Please turn to page 5)

The structure itself is completed. The only work left is on the inside, but that will take two weeks. Work was begun on the auditorium only last November. The original dedication date was set before work began. Kelley blames the delay on shortage of manpower and other minor events.

Seats 1,000

The auditorium will have 1,043 seats, 835 on the main floor and 208 in the balcony. In addition to many other new features included in the building is an orchestra pit.

The stage is 100 feet wide and can be seen easily from any seat. Backstage are two large dressing rooms and four storage rooms. Above the dressing rooms is a four-ton fan which will easily cool the entire theater.

Nearly 10,000 concrete blocks were used in construction of the auditorium. These are fastened together by 1,500,000 pounds of concrete. This "shell" was covered with stucco (300 bags of it) and painted with 887 gallons of paint.

The electrical system in the huge theater required four miles of conduit, ranging in size from one-half to one-and-a-quarter inches, and 17 miles of wire.

Also on the recipe for the auditorium were 150 cans of tar. The tar was used on the roof.

Plagued by Vandals

One worker complained that vandals caused considerable damage during the night. "Sometimes they'd come and just have a ball tearing this place apart," he commented with anger.

Part of the damage was visible on the west wall. The vandals had thrown stones at the stucco, and when it hardened it left a mark.

Dedication Ceremony

The dedication ceremonies, delayed by construction for a few days, will feature the first mass performance of the Hialeah High music department. The orchestra, band, and chorus have been practicing music for the dedication for several months.

How About Having A Coke?

Your Home Room is eligible for a free coke party. The only requirement is that you have the largest number of parents present at the regular P.T.A. meeting Tuesday, February 5, at 8 p.m. in the Cafetorium.

The program will be presented by the Dramatic Department under the direction of Mr. Joe White.

How I Do It

By David Frazier

Music is one of the most important things in my life. To a person who does not play a musical instrument, it is difficult to understand this feeling for something as intangible and changing as music. Many of my friends play musical instruments, but there are few of them who understand or even possess this feeling.

One of the advantages I have had in my study of music is in attending Hialeah High. By accompanying the chorus for a number of years, I have gained valuable experience unobtainable in any other manner. By playing violincello in the orchestra for three years, I have come to know instrumental music as well as choral and solo compositions.

This year I am taking up the clarinet, not for serious study, but as a hobby; it will be something to do when a piano is not available.

After graduation, I plan to enter Florida State University and major in foreign language education. I would like to return to Hialeah High as a teacher if it could possibly be arranged.

Anonymous Gets the Blame

By Anonymous

Think of the many, many things this fellow Anonymous has written. He has penned poems, ballads, notes, and witty or philosophical sayings. And that's not all, he is also famous the world over for these works. Almost everyone, who has read, knows his name. (Confidentially, this is because they sometimes sign his name to a piece of work, when they don't even know for sure who really wrote it.)

This custom of blaming different things on Anonymous began a long, long time ago, when Anonymous was the only man who was learned enough to be able to write. So, when he wrote, he never bothered to sign his name, since everyone knew who wrote it anyhow. Well, to make a long story short, when other people began to learn to write, they had to sign their names to their penmanship so that they could tell the writings apart. That is, all except Anonymous. He still refused to sign his name to anything he wrote, saying that since he was smarter than the rest, he had the reserved right not to sign his name. (He was very conceited, but still likeable). Because of this, whenever something was written without the author's name being signed, they simply said, "It's Anonymous".

Crown or Be Crowned

Each king must have his crown, or so the fairy books tell us. But the fairy books leave off where nations have bled for crowns, where palace intrigues have spun webs like spiders to catch the gilded crown.

In fact, Queen Victoria's crown had 227 pearls, 147 table diamonds, 1,273 rose diamonds, and 1,363 brilliant diamonds. But it was soon to be dismantled. The crown of Germany was of massive gold, smothered in precious diamonds and rubies. But the Nazis melted it before World War II.

Russia had its crown jewels, too. An immense tiered crown so heavy with rubies and sapphires that it gave the Czar a headache to wear it for more than an hour.

The imperial crown of ancient Persia grew so heavy with diamonds that it subsequently gave him a brain tumor. Thereafter it was held over his head by a courtier.

But headaches and brain tumors are mild compared to some of the ways the royalty have literally lost their heads over a crown. At the French Revolution, baskets of heads were carted off, all because of wearing crowns. And again, in the Bolshevik Revolution, the imperial family were gently transformed from their gilded crowns to halos, even with a neat gray bullet in each head to boot.

Canines, Here We Come

Hialeah's open hallways are a haven for roaming canines of all breeds and descriptions.

Some of these animals are so big that we could hitch them to wagons and provide transportation to classes.

These overgrown pups could offer a possible solution to the parking problem. We could ride or drive them to school. They might be a little noisy but think of all the extra space.

Just the opposite of the big economy-sized pooches are the little convenient pocket-sized. These little dogs prance into class and walk from student to student looking at them with sad, hungry eyes, until the pressure is too much for the students to bear and the whole class erupts at one time in a mad dash for the cafeteria. They bring the pup enough milk to sink a battleship and he does it justice. The dog then proceeds into another class.

Tomorrow May Be Too Late

Millions of American High school students are facing 1957 unprotected against polio, despite the fact that about one of every seven cases of the disease occurs among teenagers and serious crippling occurs more frequently among young people and adults.

Polio continues to disable and kill. Thousands of Americans have been stricken so far this year. But now—for the first time in history—we have a weapon to combat the disease. The Salk vaccine is today in plentiful supply. With widespread use, it can virtually eliminate polio.

This past summer in Chicago over a thousand people were stricken with polio. Actually, thousands of other residents of the city were probably "ill" with the disease at the time and weren't even aware of it. This is one of the strange facts about polio. Almost all of us are affected by the polio virus at one time. Generally we don't even know we have the infection. We may feel perfectly well, or we may have a sore throat or an upset stomach. Sometimes, however, the polio virus does serious damage. It attacks the central nervous system destroying nerve cells and causing paralysis.

Many teenagers think of polio as a disease that attacks only the very young. Actually this is untrue. About 25% of all polio patients are adults of 20 and over, another 15% are teenagers. Each year thousands of young people of high school age are stricken with this dread disease.

Polio will continue to cripple and kill teenagers as long as there are unvaccinated teenagers for the virus to attack. Today, plenty of Salk vaccine is available, but vaccine on a druggist's shelf does not prevent polio. It must be injected to do any good.

That injection, which is nearly painless, takes only a few seconds. Those few seconds may save you from a life in a wheel chair or an iron lung. You cannot count on waiting until an epidemic begins to get your vaccine shot. By then it may be too late. The vaccine takes over a week to have any effect at all. What's more one shot is not enough. You are not fully protected against paralytic polio until you have had three shots of Salk vaccine spaced over a seven-month period.

Over 1,000 adults, teen agers and young children were hit by polio in the Chicago epidemic this past summer. Of that number not a single paralyzed person had received three shots of Salk vaccine.

Protect yourself. IF you have not already had all three shots of vaccine call your family doctor, or local clinic today. Tomorrow may be too late.

Signs, Signs, Everywhere And Not A Space to Park

Parking and traffic problems around the school are becoming so festered that students are encouraged not to drive their cars to school so that teachers may have room to park in the surroundings of the school.

On January 3, the first school day after Christmas vacation, these signs appeared: "Parking for Teachers Only"; at first this solved the parking problem by giving assigned areas to teachers, students, and residents. By January 4 the city of Hialeah had consulted Daniel Webster as to the correct spelling of "parking" and "teachers" and the signs read: "Parking for Teachers Only." The problem was thought to be solved completely; it was—but not for long. The teachers' problems were solved with reownership of their lawns, and the students' problems were solved with cramped parking or a quarter-of-a-mile walk from the Municipal Auditorium to the front entrance of the school.

Student complaints died down—until January 10—when another sign took away about eight precious spaces. On that same day another sign was noticed: "NO ANGLE PARKING", this removed about 14 more spaces which were not used by the teachers! Again the problems of the teachers and residents were solved. The students still had their problems of cramped spaces or long walks, while the teachers had even more room they didn't need in which to park. Most teacher-parked cars have enough room left between them that the driver of a semi or good sized dump truck could parallel in easy.

There must be some compromised agreement to this problem, it is still a problem that is by no means solved at the present time. Perhaps a measured and designated area for the teachers, leaving just enough space for them by number, the rest of the school parking facilities would be left for the students, as there are more student than teacher vehicles. This would probably be one side of the school for teachers and the other side for students.

Curfew Not Fair, Claim Teenagers

"Me? Be in by midnight? And just because I'm only 16?"

The new curfew ordinance, passed only a few weeks ago, by Dade County, has the boys and girls under 17 in a real turmoil. All those who are included in this new law must be in by midnight. It was put into effect because of the 3% of Dade's juvenile delinquent.

The question at hand is, "Is the new curfew law fair not only to the boys and girls, but their parents and even the police force?"

Any boy or girl found out after midnight on a date or otherwise, will be hauled down to the police station where his or her parents will be called to come and pay a fine of five hundred dollars or 90 days in jail. Is this considered fair to parents? The minor taken in will have his name put on record. Is this just to the 97% of these not considered delinquents?

And also, does Dade County really believe that its police force is physically able to do such a job? Is it really fair to everyone?

The Editor Speaks

By WAYNE ARNOLD

Service Speaks Louder Than Words

During my two years at Hialeah High I have found many true friends who were really interested in the welfare and advancement of their school and community. I have been fortunate in having many of these students on my staff during my completed first semester service as your Editor. Some of these students are as follows: Marcia Newton, Jack Starkey, Virginia Coleman, Bonnie Clark, Jerry Coleman, Calvin Pearce, Deanne Fincher, Jim Richland, Ed Barber, John Burlage, Tish Groover, Marlene Petratus, David Rayfield, John Marshall, and many others whom I am very proud to have associated with in my first semester as Editor.

Parking Situation Is Unfair

The present parking situation is very unfair to the students of Hialeah, but I would consider it to be a fair one if the school would attempt to set up a parking area for the students. After all they have cars too.

Make New Semester The Best

We as young people all have a future ahead—whether it be great or failure I think that the work we do in this next semester will be a step further to success if it is done well. May I commend each of you for the interest you have taken in your school. Keep it up!

The RECORD Needs Your Help and Ideas

It is my sincere desire that any ideas of which you feel would be for the betterment of this paper that you would drop me a line and tell me so. You may do this in the Journalism Department, Room 311.

Girls Versus Car Problem Still Unsolved at Present

Girls, it is time for a very important fact to be brought to the public's attention. Particularly the portion of the public consisting of high school boys!

The issue is the topic of conversation that flows steadily from the boys, morning, noon, and night. These topics being cars, sports, cars, other girls, and cars.

Even when out on a date it seems that they just can't refrain from expressing their fondness for these things. Just let the male partner of the couple you are with mention how he lowered his car and you girls might as well drag out your knitting needles and finish those argyles.

What can be done about this? You could try gagging them, but that would be a little abrupt, besides they might not like it. Or maybe you could try to out-talk them, but then everyone knows that when a couple of boys get going on their favorite subjects even girls can't out-talk them.

Getting right down to bare facts, girls, there really isn't much that can be done about this grave problem except keep our chins up and thank our lucky stars that they don't own airplanes.

Look Beyond the Surface

There is something in everything that cannot be seen, cannot be heard, or touched. It is only there; it cannot respond to entreaty; it cannot be analyzed mathematically or given the soil test to see whether it is alkaline or acid.

Take a song from a bird in a forest. You can follow it on a scale, but there is something like perhaps the tonality of just the time of day. Look at a painting; the colors can be reduced to the simple lines from a prison, but there is something more, something that can only be hinted at, something that flees apprehension like a feather of smoke flees from your hand.

However, when that something is touched, that pulse is felt, that gold weighed, somehow the life is drained for a thing cannot be dissected and live again.

From the Horse's Mouth

By BONNIE CLARK

Rayetta Allard reported to gym a few weeks ago in a so-called size sixteen gym suit. Little Rayetta takes a twelve at the most and this suit must have been a size eighteen or twenty. It took six of us to hold her down when a strong wind blew. All she could do as she sailed down the field was scream with six girls running after her to bring her back. Any heavy bricks or weights would be greatly appreciated.

BONNIE CLARK

How do you eat chicken? Is it that polite way with the knife and fork or the trusty method of hand-pick-up-chew-wipe? If the cafeteria ever serves chicken again, keep a watchful eye out for Martha Meyer. Not only is she hilarious to watch but I would advise you to stand back. Martha has an average range of five feet with her squirts.

Rosie Lee Vail was commenting on the play "Fog On the Valley", which was put on last Thursday, a week ago, and she piped up with, "during the scene involving the coffee pot, why put your hand on the top of it? Isn't it too hot?" One of the cast replied, "the thing cools fast." P. S. This coffee pot was off stage two minutes. What will they think of next; a cool coffee pot making hot water. Great if it can be done.

Here we go again with Charles Chastain and his tires. Poor Charles has the worst luck. It seems he is forever having blow-outs. To the rescue, though, is his girl Virginia Coleman. Every Saturday afternoon the two sit in her living room chewing bubble gum and storing it away for when they have another flat tire.

When they are mad, however, Charles always has a few extra stored away in his glove compartment. But then, they are seldom angry at each other and Virginia will always start to chew when she hears a tire going down. Isn't that nice?

Library Has Many Assistants

Has it ever occurred to you how many students, like yourself, it takes to help the librarians keep the library running smoothly?

The Hialeah High library has 46 student assistants and 10 students that work before and after school.

During the day these students give up their study hall to help out. Al Pariseau and his sister Sharlene, David Claggett, Earlette Van Looven, Sandra Rossmore, Jeana Kissling, Donnell and Hazel Pomeroy are the early birds that somehow manage to get up (some time in the middle of the night) in order to get to school by 7:30 so Mrs. Ruth Bradley can open the library with help.

Some of the same people, namely Sandra Rossmore, Hazel and Donnell Pomeroy, also stay until closing time. Elaine Lucardi and Danny Samol also help after school.

Most of these people enjoy working with both books and people, but the librarians and student helpers can't do it all, everyone can help by taking care of his books and by putting things back where you get them.

Marlene Hopes To Be Journalist

Marleen Bowen, school winner of the Herald Essay Contest, has always been very active in Journalism affairs.

She says that she plans to elaborate further with her career. Some of Marleen's activities are: member of Anchor, school reporter for Home News, Band Secretary and a member of the Annual staff.

Last year and the year before Marleen was a member of the Journalism Class, thus broadening her experience. During that time she helped write club news, girls' sports and many other items for the RECORD.

Even though Marlene has had all of this activity she has consistently made a "B" average.

When Marleen graduates from high school at Hialeah she plans to enter the Journalism Department of the University of Miami and perhaps go into the Journalism field. Marleen has had three years experience in journalism thus far.

Marleen Bowen has one particular "pet peeve" which is "ordinary people!" She has one suppressed desire in life and that is to walk the Court House steps.

The RECORD hopes Marleen a successful career in her exploits in the journalism endeavors.

Ray Plans Career in Radio & T-V

Raymond Charles is a Miami boy since 1939, although he has lived in California, New Jersey, and Connecticut, before making his home town his permanent residence.

Ray, as he is known by to all his friends, was elected vice-president of the Senior Class, president of the National Thespians of Hialeah High, and still finds time to remain an active member of "Trim" and Student Council. He was also a Master Counselor of the Oleeta Chapter Order of DeMolay.

Modern jazz hits the beat with Ray, although he appears to be a quiet, serious type person. Ray has been in five plays during the past year including "Fog On The Valley," "You Can't Take It With You", and Black Valise." Ray was also runner-up for Best Actor's Award in the past play contest put on by the dramatics classes.

In reference to how Ray feels toward the school in connection with dramatics, he states, "It is felt that dramatics in this school is not recognized by the students. They must realize that the Dramatics Department is one of about three departments in school that are recognized outside of school. We feel that this department offers to the student body a worthwhile extra curricular activity."

Ray sincerely hopes his feet will soon be tramping on the campus of Florida State University where he plans to study Radio and TV production and direction.

"Good-Luck" Says Porter

"I wish the graduating classes in the future the best of luck, and I hope Hialeah whips the tar out of Edison next year," says William Porter, a senior at Hialeah High.

William, five feet six inches with brown hair and eyes, has been an active member of the Future Farmers of America for three years, and held the office of secretary of that organization in 1954-55, and the office of reporter in 1956-57. He also is a member of the Florida National Guard. He has traveled to Fort McClellan, Alabama. He is in the Inter-Club Council, and Alumni Club which is for seniors only.

William was active in helping to raise money for the Moore Fund in donating blood and by helping out in the benefit dance.

When asked what he thought of H.H.S., he quickly replied, "A wonderful school, with an excellent staff of teachers, and I have enjoyed every moment I have been here."

When William graduates this year he plans to be a construction worker and later, when he has enough money he wants to own a ranch in the Middle Western States and raise cattle.

On the lighter side of Bill, we find he likes fried chicken as his favorite food, enjoys listening to records on the phonograph, and his hobby is working with electricity in his spare time.

That's My Friend

Do you have a friend with an upsetting personality, some unlucky people do. These friends seem to disturb almost everything they come into contact with and also can be very disturbing to you.

Take for instance a normal evening when one of these girls (there are boys who are guilty of this but we'll use the girls for a horrible example) comes over to study.

Study wasn't the word for it; when she came in the front door she fell over the door step and dropped her books and messy notebook papers which went every-

where. After ten minutes of picking up her papers (some from two years before) you proceed to your study room which incidentally is the bedroom.

When you get started your friend is sprawled over 9/10ths of the bed while you try to find room to sit. Your dog finds his way in and she's at it again.

At 9:30 P.M. when you discover it is impossible to study, you decide to serve your friend some refreshment. This was your final mistake.

After having Pepsi spilled on your bed and potato chips crumbled on the floor, you decide to call it a night. Of course you're polite and absolutely insist on cleaning up the mess which your guest has caused.

Finally you drag yourself to bed with the memories of her giggling at the spilled Pepsi. Oh well, she is your friend and friends are nice to have (SOMETIMES).

Sandra Pierce, head majorette, has really shown her stuff at baton twirling during the past football season, and also during the recent Orange Bowl Parade.

When asked to state the honors bestowed upon her she replied quite proudly, "I defeated Miss Majorette of Florida last May. I have also won other contests of no value except for the trophies. This summer, I finished fourth in a national contest in Memphis, Tenn. I was also, along with other girls from around the U.S., named Major Prep All American."

Sandy plans to attend the University of Florida on a Majorette scholarship.

Sixteen Boys Are Accepted By Key Club

Sixteen boys know what it means to be tapped into Key Club. These sixteen recruits, who filed their applications for membership into the Key Club, were checked on and passed by a committee of teachers, and voted into the club by the members. Tapped during home room period one morning, the tappees were required to wear a golden key (the symbol of Key Club). These boys were directed to wear the ribbons to school every day until told otherwise. One day a tappee forgot his "necklace" and had to wear a sign instead, stating "I forgot my key".

As soon as the boys were tapped they became pledges and were obligated to obey the every wish of a member, as long as it did not interfere with the pledges' school time. Many were "politely" asked to "please" carry an old members' books, whether to his homeroom, or next period class. Of course, the pledges were only "too glad" to cooperate to the fullest extent!

Many members showed their creative spirit, by dreaming up things for the "victims" to do. One pledge had to count all the hall lights in the school building, while another had to number all the cracks in the hallways. The results were as follows: 150 hall lights, 2,854 cracks. Several others had to write essays on various topics.

At the end of this ordeal they had one consultation, it was decided by vote, that they could have one day to reverse the tables on Butch Harvey, president, and let him see how it felt to obey orders.

The installation, held in a joint meeting of Anchor and Key Clubs, was at Crandon Park last January 23. Those taking oath of Key Club as new members were as follows:

Joe Godfrey, James A. Corrigan, Richard Brice, Richard Kilmer, Dan Kowanough, William Palow, Sadler Yandell, Glen Saucier, Ray Martinez, Ed Midgett, David Goodwin, James Smith, Richard Puerifoy, Fred Grimes, Roger Dewhurst, and Robert Newman.

This year's officers of Key Club are: Butch Harvey, president; Bill Dunstill, vice-president; Lou Pease, secretary; and Bob Page, treasurer.

The founder and advisor of Hialeah High's Key Club is Mr. Floyd Boice, English teacher and long time member of Kiwanis International, which sponsors Key Club.

Hi-Notes From Hialeah

By Marcia Ann Newton

Did you know that, for the first time in history, a cold has become a useful thing? Well not exactly. Virginia Beasley, a junior taking biology this year, coughed into a Petri dish on request with hot agar in it for an experiment to show the students some different colonies of bacteria. Other things used were a finger touch exposing to air and a drop of hay infusion. All these experiments proved to be very interesting. This particular class is taught by Mr. Biskup. What a time everyone had. Every Thursday is reserved for laboratory work with microscopes and experiments.

"I SPY"
Have you seen Mr. Nederveld's home room display window? If you haven't you certainly should take a second to stop and look at it. There are about 10 different pictures drawn by the typing teacher's wife, and all of the are done by the typewriter. It's really very clever. Figures such as seals, ducks, men, and even Pinocchio are there.

Did you ever wonder why Ray Malskick was growing that beard he was sporting for a while during the early part of January? Well, even though he may have explained it to all of his friends seemingly a million times, this one is sort of helping him out. It was because of the play "Jane Eyre" in which the character that Ray played called for someone with a beard. So Ray cooperated and grew a beard.

FASHION FAD
The newest fad lately seems to either get engaged or married. If a girl isn't engaged by the time she's 17, she just hasn't got it and will be an old maid. Seriously, these new engagements are numerous and I would like to congratulate everyone of you.

Parties, parties, parties and even more parties. Billie Jean Causey, senior at H. H. S. gave a party on January 19, 1957 at the P. B. A. Building on Palm Avenue. A formal dance and birthday party combined. Everyone had a marvelous time. Billie Jean turned 18 on that night and turned out to be a lovely hostess. Close to 50 couples showed up. Billie Jean really went all out for this party, getting up the entertainment and all. On January 24, 1957, Quill and

Anchor Jubilee Held on Jan. 15 H. H. S. Present

A dinner and entertainment was the treat held in store for not only the Anchor Club of Hialeah, but the other Dade County schools with an Anchor organization. Yes, the annual Anchor Jubilee was held January 15, with seventeen Anchor members representing Hialeah in a city-wide affair. This jubilee was sponsored by Pilot International, the mother club of all Anchors, at the Miami Woman's Club.

Entertainment was provided by all the schools present. Loretta Rampot represented Hialeah with a jazz toe dance which gave much recognition to Hialeah. Another participant in the jubilee which gave special attraction to Hialeah was Beverly Larson, President of Hialeah Anchor, and Chairman of the Anchor Jubilee.

The program was opened by Kathryn Metzger, President of Pilot Club. Beverly was the Master of Ceremonies. Jeannette Patterson of Miami High Press gave the Invocation. After the dinner, the Talent Program made its way into the crowded dining room. Miss Patterson was also the Moderator of the Symposium, in which the presidents of all clubs present took part. For the closing, Miami Beach Club led the group in the Anchor Club song.

Those members from Hialeah High attending the Anchor Jubilee were: Fay Rotella, Virginia Coleman, Mary Lee Sapp, Jean Smith, Mildred Helmes, Carol Albury, Loretta Williams, Hazel Pomeroy, Carol Johnson, Erlene Crosby, Gayle Fetterman, Carol Romanick, Barbara Pierce, Beverly Larson, Loretta Rampot, Bonnie Clark, and Mrs. Jean Lugo, sponsor of Hialeah Anchors.

Scroll had its official initiation at Mrs. A. R. Miller's home, the advisor. Those initiated were (charter members).

Two bridal showers were held for Nancy Chester (maiden name is Smith).

On January 25, picnic headed by the Miami Springs Teen Council proved to be a lot of fun. It was for members only. But in case anyone would like to become a member all you have to do is sign up. The best time to do this is to attend one of their Friday night dances at the new youth center and speak to a director or teen council member. Membership is open to anyone who wishes to join.

NEW RECRUITS TAKEN
The tennis club of Hialeah High is still taking in new recruits for membership. Anyone desiring to belong should talk to Mr. Kasper or see him after school on any Monday or Thursday, behind the gym, where the team meets.

NEW HAIRCUTS
Joyce George and Penny Stanley are only a few of those girls who have had permanents. How nice they look. Francis Fraleigh had her hair cut also and it is cute.

DCT Club to Present One-Act Play

Members of the DCT Club are busy rehearsing and preparing a one-act play which will be presented to DCT students from Dade County at the annual meeting of the State Federation of DCT Clubs,

District X, on February 14 in the Miami Woman's Club Building on North Bayshore Drive. This will be one of Hialeah HI DCT Club's contribution to the all-day affair.

The one-act play is entitled, "A Night in Camp." It is a hilarious comedy story which tells of the frights, surprises, dismays, concerns and the like which two prim maidenish elderly ladies encounter while spending a night in a camp with a snobbish supposedly wealthy lady.

The cast is comprised of Dannie Jo Cagle and Dinah Lou Hicks, who play the parts of the two elderly maids; Louise Thompson, the wealthy lady; Madeleine Janelle, the camp hostess; and Darryl Snawerdt as the camp handyman. Elaine Conger is directing the play.

The club hopes the play will turn out well and that they will be permitted to present it to the Hialeah student body sometime next spring.

Y-Teens And Hi-Y Busy With Dance, Visitors

By Dee Fincher

Gaile Fetterman and Ann Harshbarger were appointed as co-chairmen of the Inner-Club Council of the Y.W.C.A. Serving with them are Tammy Thrall, Linda Herold, and Jo Ann McCranie.

The girls from the Hialeah Chapter of Y-Teens are playing host to a group of Y-Teens from St. Petersburg, Florida. The girls will stay at the homes of the Hialeah members attending meetings and activities planned.

The Hialeah club assisted in the addressing on envelopes for the Cerebral Palsy drive held in Dade County.

Y-Teens and Hi-Y are sponsoring the Sweetheart Dance to be held on February 16.

Roberta "Bobbie" Calvert and Junior Virginia Bopp.

John Judice, Jackson Hi-Y president and dance committee chairman, hopes that this will become an annual affair. He adds that nearly 400 people are expected to attend the dance.

Schools represented on the council are Hialeah, Jackson, Miami High, Miami Edison, and Coral Gables.

Anchor Plays Hostess to Busy Faculty

While other lucky students were home in bed, Anchors served coffee, cakes and cookies to the teachers while they were busily grading exams. Maybe this is why some people got high grades. These girls served Thursday, Friday and Monday mornings.

Anchor girls also went to Saint Joseph's Villas to help with the orphans. Bath Anchors and children enjoy these weekly visits.

To the sorrow of all club members it was discovered that rules made it impossible for them to help with the Cerebral Palsy Telethon as the insurance on the auditorium includes only those who are 18 years or older. With this disappointment they soon learned that they could help stuff envelopes at the headquarters. This they did and found their help greatly appreciated.

The tired aching feet came Saturday, January 19 when they joined forces with other Anchors in Miami to help collect funds in the "Teens-Against-Polio Blue Crutch Day". It was a tiring job, and it took much time although well spent.

Anchors are proud of their activities and are looking forward to their convention in April.

County Hi-Y's To Hold Dance At Eden Roc Hotel

The Metropolitan Miami Hi-Y Council is planning to hold a formal dance at the Eden Roc Hotel in March.

The dance is being held in connection with a contest to select "Miss Greater Miami Hi-Y of '57". Each of the five schools represented on the council will enter two candidates for the crown.

Hialeah's contestants are Senior

New Courses to Be Offered

By JAMES CRUTCHFIELD
Curriculum Assistant

(This is the second in a series of articles dealing with the selection of high school courses to meet your needs. The first article suggested steps you might follow to prepare yourself to make intelligent choices for next year on permanent registration day. This article will acquaint you with courses being offered for the first time at Hialeah High School next fall.)

Among the new courses will be Electrical Shop I and Electrical Shop II. The former, open to all boys, will deal with basic electrical theory, practical wiring experiments, simple radio work, study of batteries, testing and repairing of appliances, etc. Electrical Shop II offers boys now taking General Shop I and those who have taken a year of Electrical Shop in another school the opportunity to study telephone, public address and hi-fi systems, servicing of electrical gear, and construction of a radio.

Additional offerings in the foreign language department include a second year of German, a third year of French, and a fourth year of Latin and Spanish.

Eleventh and twelfth graders interested in debating with other schools in the county and perhaps in other sections of the state may elect Debate I.

General Musicianship G is designed for students specializing in music and also for those whose chief interests lie elsewhere but who would like to understand themselves musically. Featured will be popular music and light classics, analyzing tastes in music, and some singing. Most colleges require a similar course of their students under the theory that a person cannot call himself educated unless he knows something of good music.

General Musicianship C.P. (college prep.) will help those who are taking or intend to take additional music courses to enlarge their knowledge of the technical side of music as preparation for more advanced study.

String Ensemble should appeal to those interested in performing in small groups—quartets, sextets, and octets—and in becoming proficient in playing classical music.

In addition to the present Girls' Chorus and Mixed Chorus, the music department will offer Boys' Chorus in the 1957-'58 school year.

In the business education field, a semester course in office ma-

POLIO VACCINE: How It Gets to You

ALL 3 TYPES OF POLIO VIRUS ARE GROWN IN MONKEY KIDNEY TISSUE.

TREATMENT WITH STRONG CHEMICAL DESTROYS ABILITY OF VIRUS TO CAUSE POLIO.

LABORATORY AND ANIMAL TESTS DURING 120 DAYS OF MANUFACTURING ASSURE VACCINE IS EFFECTIVE AND SAFE.

VACCINE IS RELEASED ONLY AFTER ADDITIONAL TESTING AND APPROVAL BY GOVERNMENT AND REVIEW BY COMMITTEE OF EXPERTS.

MARCH OF DIMES, WHICH DEVELOPED THE VACCINE, CONTINUES RESEARCH TO PERFECT IT.

LET'S FINISH THE JOB! Join the MARCH OF DIMES IN JANUARY

chines will be paired with clerical office practice, and the present semester course in sales will be supplemented by a half-year course in retailing.

Those of you familiar with our present D.C.T. (Diversified Cooperative Training) program, in which participants spend a half day at school and a half day at work, will be interested in knowing that a related plan entitled B.C.T. (Business Cooperative Training) may be available to Hialeah High School seniors for the first time next year. The same procedure of dismissing students from school at 12:30 for job training is contemplated, but the jobs in B.C.T. will be office jobs, chosen to advance the knowledge and skills of the business education major.

All of the courses mentioned above should be thought of as tentative courses only, pending the results of permanent registration, since it is feasible to offer a given course only if a certain number of students register for it. For further details about these new courses see your counselor, and talk to teachers in the appropriate subject areas. Counselors are now meeting with small groups to help students plan selections for next year. If you would like a list of all courses to be offered, make this request to your counselor at the conclusion of the group meeting.

Assistant Becomes Ill

Donnell Pomeroy, library assistant has discovered a way of missing his midterm exams.

His method, simply to come down with appendicitis. During exam week while all other students are working like mad for and on their exams he will be taking it easy, watching TV and being waited on.

This is sure some racket, it may be a good one but it seems to me like more fun to take exams on time and not have to worry later after having someone cutting on you.

Lynn Merrill Wins Contest

Lynne Merrill, a senior from 12-4, was awarded the school prize for winning in the Betty Crocker Search for the Homemaker of Tomorrow.

The school prize was a pin by Trifari of New York. It was awarded to Lynne at the Senior Assembly, and her happy reaction was, "I just don't believe it."

On entering the contest the entrants had to take a test, answer a questionnaire and write an essay on "What Do You Think The Homemaker of Tomorrow Will Be Like?"

Lynne is now eligible for State competition with the prizes being a \$1,500 scholarship and a trip to

Future Nurses To Visit Jackson Memorial Hosp.

The Future Nurses Club have chosen Barbara Wilewski, president, and Pat Sams delegates to visit Jackson Memorial Hospital's Open House January 23rd. The girls will spend the night at the Nurses' Residence and spend all day Thursday going to their classes to get the real feeling of nurses' training.

Directories Almost Ready for Issue

The 1956-1957 copy of the Hialeah High School Student Directory is in near-readiness for sale. It will be completed a few days after publication of this Record.

The book, which contains names, addresses, telephone numbers and homeroom of H.H.S. students, with names and classes of teachers will be sold this year by "Hi-Ways" staff members and will cost 50c per copy.

Names will be listed alphabetically and seniors for this year will be starred.

BUS COMPANY

(Continued from Page 1) arship to either the University of Miami or Florida A. and M. will be awarded the runner-up.

Students from all Greater Miami high schools are eligible. All contestants must type their entries on standard 8½x11 inch paper, either ruled or plain. Students without the use of a typewriter may write their essays in ink.

All entries are to be addressed to: Scholarship Contest, Miami Transit Company, 310 Roper Building, Miami, Florida.

Polio War Not Over Yet

(Continued from Page 1) "Great apathy has been shown by high school students in securing proper immunization against paralytic poliomyelitis. Anything we can do now to prevent this disease can save untold misery and expense that may be later incurred by various corrective treatments."

A non-paralytic form of polio struck a two-months-old girl last January 15. The girl was ad-

mitted to Variety Childrens Hospital as plans were being made for an All-Out All-Ages polio inoculation drive which began last Friday, January 18.

As far as is known, this is the youngest person ever to have contracted polio in Dade County; however a four-day-old baby was flown here last year from South America for treatment.

Statistics show that teenagers are just as likely to contract polio as is the younger group.

Anyone wishing to be inoculated may do so by going to the Dade County Clinic on 62nd Street off 27th Avenue between the hours of 1:30 P.M. to 4:00 P.M. every Friday afternoon. No shots will be administered without parents' permission.

Speech Class Gives Debate

The WGBS Public Relations program will broadcast a debate from Floyd Boice's third period speech class.

The purpose in this debate was that it was discussing a very current problem in the state of Florida. The subject: "Resolved, that teenagers should be licensed to drive at 16."

On the affirmative team was Barbara Beck and Pat Lott. Some of the issues they brought up were that licenses should be issued to teenagers, sixteen especially in the rural areas where there are not enough methods of transportation. There are a lot of sixteen year-olds out of school because of certain conditions and need cars for work.

On the negative side were Mike Powell and Richard Jarrett. They brought up the fact that the written tests should be harder. Mike Powell had a book called "Experts" which contained 23 different ques-

tions pertaining to driving. Powell asked around among his teachers and asked them some of the questions in the book and found the percentage to be 19 out of 23. With the students the percentage turned out to be 6 out of 23.

You will be able to listen to this program January 26 at 10:05 on 710 on the dial. Chairman of this debate is Tommy Rolph.

LeRoy Collins Takes Oath Second Time

By Wayne Arnold

Jack Starkey, reporter of the RECORD and I arrived in Tallahassee to witness a great event in Florida's milestones of history on January 8.

The event was the Inauguration of the only man in Florida's history to be elected for two consecutive terms and the only candidate for Governor who has won in a first primary victory.

The graying and handsome man who was born 47 years ago in Tallahassee was Le Roy Collins. He had started off as a young fellow practicing law in Tallahassee not realizing that some day he would lead one of the fastest growing states in the United States, one that is continually growing in industry, one that is rising in status all over America and finally one that has been and will continue to be fortunate in having leaders with a firm conviction to serve the people of the Great Sovereign State of Florida.

Over the many active years that Governor Collins has contributed to the public welfare he has given strong leadership in morality in government, good law enforcement, improved health, labor and welfare programs, removal of politics from highway construction, completion of the "bobtail" turnpike, beginning of the state-long turnpike and urban expressways, expanded agricultural and industrial research, and modernization of the state judicial system. All of these things have been the aim of Florida's proud native son, Le Roy Collins.

The Inaugural Program was a unique one for it has changed from the regular procedure of an Inaugural in some cases. Early on Tuesday morning Le Roy Collins and his family, attended prayer service at the St. Johns Episcopal Church and then the Governor and his family were escorted to the Capitol with military forces. While the bands were playing America we saw the leaders of Florida such as Secretary of State, R. A. Gray; Attorney General, Richard Ervin; Comptroller, Ray E. Green; Treasurer, J. Edwin Larson; Superintendent of Public Instruction, Thomas D. Bailey; Commissioner of Agriculture, Nathan Mayo; and finally the Honorable Governor Le Roy Collins.

Chief Justice E. Harris Drew of the Supreme Court administered the oath to the Cabinet Officers and then Governor LeRoy Collins was called to the speakers stand to be administered the oath of Office.

The Honorable Campbell Thornal, Justice of the Supreme Court of Florida did the administering.

After the Oath of Office had been completed Governor Collins delivered his Inaugural address. Collins with his relaxed and easy voice with all the color and glamour he possesses as a speaker and finally with his sincerity spoke to the people of Florida about issues which will effect them in the next

"Rimleaders" Lead in Intra-Murals

As intra-mural basketball goes on, the teams are getting better and better and, of course, there is always one team that leads the others in their ability to play. This year the leading team is the "Rimleaders". These girls lead the other teams with the most wins and unusually high spirit.

The girls comprising this team are: Sherry Dunn, captain; Margaret Diehl, Carol Todd, Margaret Pantuso, Diane Lingard, Frances Rushing, Leanne Lofland, Pat Hazelwood, and Dot Hood.

No doubt that these girls will

apparently try out for the varsity. The tournament will be coming up on February 8 and there is never too much practice.

Hialeah will come into competition with such schools as Miami Edison, Miami Beach, South Dade, Coral Gables, Southwest High and Miami Jackson High School which will prove a real challenge in senior high fashion.

We would like to say congratulations to the "Rimleaders" and we hope to see all these girls on Hialeah's basketball varsity in February, say G.A.A. leaders.

A Girl Has Her Many Views

Basketball seems to be and is a very exciting game for boys as well as girls. However, there is one little thing that is different for boys from girls. That is what kind of excitement both feel for the game.

Through a boy's eyes basketball is fast moving and very engrossing. He usually sits there and watches, cheers, just a little and thoroughly enjoys the game. When the game is over he can tell you the exact score and the name of the boy who made the most points for his side.

On the other hand a girl looks at the game in this way. First, before she even watches, she stands in her room deciding what to wear. This takes between thirty minutes to an hour and thirty minutes. She must first consider the style being worn and the style most likely to catch the special player's eyes.

After selecting the outfit, she is off to a night of pure excitement. She sits at the game and cheers constantly, gossips with her girl friend and enjoys sizing up the other girls' dates.

When the game is over, she can tell the score (about 10 or 15 points wrong one way or the other). She knows what player has nice legs, and other important information concerning the game.

However, if you ask her who the team was playing, you might get, "Oh, let me see, their colors were gray and—oh, gosh, I just can't remember."

four years.

He remarked that there are many things which should be done along the lines of developing Florida's Educational potentialities by raising teachers salaries and building more school buildings as well as the other needed educational facilities.

Along the lines of the most vital issue to the people of Florida at the present time is the "Segregation Issue". LeRoy Collins did not leave this stone unturned. He made one statement which cleared any doubt in the minds of Florida's Citizens about his stand on segregation—Collins said that the Supreme Court is the law of the land. This was a courageous

M. Hi Stingarees Sting Thorobreds With 19 Pts.

Hialeah made a fast start against Miami High but to no avail as the Stingarees matched Hialeah's 12 points with 20 in the first period of the game. The Stingarees built a 25 point lead in the third period but were able to hold it to 19 points as they gave Hialeah their seventh loss of the season.

Miami High received the ball on the jump only to lose it to Hialeah's fast defense, when Garrick snatched it away and carried down court for Krtausch to score the first basket for the Thorobreds. This seemed to anger the Stingarees and they reached over the Thorobreds' with shot after shot to end the first period with an eight point lead, 20-12.

In the second period Miami High carried an almost doubled score of Hialeah for almost the whole period, and when the half-time buzzer rang they were holding the Thorobreds by the tail with a 15 point lead, 38-23.

The third period passed fast with a hot vengeful battle with Miami High scoring twice as many points as Hialeah. Miami High scored 20 and Hialeah 10 points for the buzzer to announce Miami High with a 58-33 lead.

With two minutes left in the last period Hialeah got hot and dragged their hoofs into the scoreboard dropping Miami High's lead to 19 points and a 74-55 win.

Bobby Blach paced the winners with 25 points, 3 foul shots. Charles and Wood carried the Thorobreds with 15 points apiece.

MHS	Hialeah
Balch, f 11 3 25	Charles, f 4 7 15
DelRusso, f 5 2 12	Krtausch, f 0 0 0
Hornaby, f 2 0 4	Wood, c 5 5 15
Reed, f 7 1 15	Ellis, c 2 0 4
Moorman, c 1 0 2	Garrick, g 4 1 9
Perdermo, c 2 1 5	Askowitz, g 3 4 10
Klinger, g 0 1 1	Walton, g 0 2 3
Kav'n'gh, g 5 0 10	
Totals 33 8 74	Totals 18 19 55

Referee Mehalis. Umpire Schwartz.

The little Thorobreds also lost to the Stingarees but not without a fight. At the end of the fourth period Miami High was leading by one point so the officials called an overtime and the Little T-Breds were stung by a five point lead at the final buzzer, 53-48.

statement, one which brought comment from leaders all over the state, some favorably, others disagreeing.

What Leadership Offers You

Recreational Leadership is one of the new courses being offered this year to senior girls. The purpose of this course is to prepare the students when they might have to take over in church, clubs, and other social activities. The only requirement to join is that you must have permission from your physical education teachers and you must be a senior.

Some of the sports being taught are bowling, tennis, golf. Also, they are teaching how to officiate team sports. Social and square-dancing is also being offered.

When asked why this course was called Recreational Leadership, Miss Alleine Swain replied, "This course is too big and reaches out into many fields. We were going to call it Individual Sports Leadership, but as it is, individual sports are not all that is offered. We try mainly to prepare students to be able to take over in sports if anything comes up. Right now the class is in tennis."

Thorobreds Sock Gables

By Leonard Pardue

The rock and sock Thorobreds who hail from Hialeah have done it again. The Hialeah cagers kept Coral Gables' nine-game losing streak alive by slipping the Cavaliers a mickey, 52-48 in the losers' gym. Gables, highly favored, never was in the game until the last quarter when the put together three straight baskets to tie the score 46 all. Lyle Charles, high scorer with 20 points, hit for a jump shot from about 20 feet out, to make it 48-46.

Gables countered with a quick basket to knot the score and then Charles stole the ball, dribbled the length of the court, and dropped in an easy layup to salt away the victory. Jerry Askowitz scored the Thorobred's last two on a layup about 10 seconds before the buzzer.

Hialeah, now 3-7 for the season, led throughout the game, at times by as much as 13 points. Larry Wood, Thorobred center, did a good job of cleaning the boards (rebounding) against the taller opponents. Wayne Garrick was Hialeah's second high scorer with 11 markers while Rufus Ashworth, son of Hialeah Dean of Boys Charles Ashworth, was high for the Cavaliers with 16.

The Thorobreds owned a 14-10 first quarter edge, extended it to 27-22 at half time and led going into the final quarter 44-36. It was a sweet victory for Hialeah and the first by any Thorobred team over a "Big Four" school.

B. B. Statistics to Date

Center Larry Wood and forward Lyle Charles continued to pace Thorobred scoring efforts this week. As of the West Palm Beach game, Wood was the team's leading scorer with 112 points in eight games for a 14 point average, while Charles had 107 points in the same number of games for a hefty 13.4 average. Wood is Dade county's ninth highest scorer and Charles is number eleven on the list.

Third highest scorer for Hialeah is Wayne Garrick, guard and captain of the Thorobreds. In the first eight games of play, Hialeah has compiled a record of two wins and eight losses. In those games, Garrick has hit for a constant 12.3 average or a total of 98 points. Garrick is 13th in the county.

ADVERTISE IN THE Hialeah High Record

GAA Plans Circus

Hey! All you fun-loving citizens of Hialeah High, do you want to see a circus? This may cause quite a bit of controversy over which circus it is and when it's going to be.

Well, the circus is Hialeah's Circus and it's going to be held in Hialeah's gym.

The G.A.A. (Girls Athletic Association) have been planning this circus for about a month or so. The girls will dress-up like clowns and other characters to help "liven" things up a little bit more.

Several different clubs in the school were asked by the G.A.A. if they would like to have booths at the circus. Many clubs said yes, and are now planning to sell cookies and cakes or have a game of skill. These games will consist of throwing darts at balloons or throwing a baseball through a clown's mouth (not human, of course).

Annette Pritchard, president of the G.A.A., said "It certainly will be different for Hialeah and it will be lots of fun."

This circus which will be more in the form of a show will be given sometime in March.

Posters will be distributed by the G.A.A. to advertise the circus and to inform the student body of the proceedings.

Modern Dancers Aim Toward Workshop

Members of the Modern Dance Club are preparing dances for the annual workshop which is held in April. The workshop is the name given to a program which is strictly modern dancing and features all the different high schools in the area.

Working toward this workshop might sound strange to a few people since it is January and April does seem a long way off. Only the girls in Modern Dancing could tell you that to really prepare a good dance and to have it performed in good fashion takes a while.

So far this club composed of forty girls have been using these records for a background in their dancing: Canadian Sunset, tango music and Les Baxter's Jungle music. More records will probably be added as the time goes on.

Sports

By Jim Richland, Sports Editor

Gymnastics Meet Postponed

The Gymnastics meet that was scheduled between Hialeah and Coral Gables has been cancelled by Gables. They claim that they are cancelling all the sports events possible during the week of Exams. The meet that was scheduled for January 19 will probably be played on February 4th.

It Was Mighty Hot!

The game between the Pioneers and the Thorobreds, that is. The score was tied 62-62 at the end of the fourth period. The Pioneers and the Thorobreds went into an overtime with the Pioneers coming out the victor by 5 points, 71-66.

Small Stall Roundup

The little T-Bred cagers show promise of a good season with 3 wins and 5 losses. They beat Jackson, Curley and the South Dade Rebels in the second game. They have lost to and are scheduled to play again, Miami Beach, Edison, North Miami, and Palm Beach.

JV Receives New Coach

The JV basketball squad is now being coached by Clarence Parsons. Coach Eskew has been relieved by Mr. Parsons so that he may devote his full time to coaching football. The team seems to be doing well under Coach Par-

sons, who coached the last five games.

Swim Team Swimming

The newly organized swim team, under the supervision of Mr. Reynolds, is off and swimming every afternoon at Benny Babcock swimming pool. They plan meets with some of the major schools in Dade County. They already have some practice in by working out with the North Miami swim team. This was not planned ahead of time.

Hialeah Gets Second Chance

Hialeah will have its chance to get even when they are matched against Miami Beach February 5, and Edison High, February 1. Beach and Edison have topped the T-breds once already this season and the games should be some battle.

Tennis Readies For Meets

The tennis teams are now planning a meet with South Dade possibly next week. They are also planning meets in the near future with North Miami, Edison, and Jackson. Mr. Kasper says most of his experienced boys are out for basketball at the present time and this makes it hard to schedule meets. Mr. Kasper also has high hopes for his girls' team which is composed of Marcia Newton, Linda Lott, Susan Charles, Francis Sellian, Barbara Del Prett.

South Dade Nets Second Win Over Hialeah

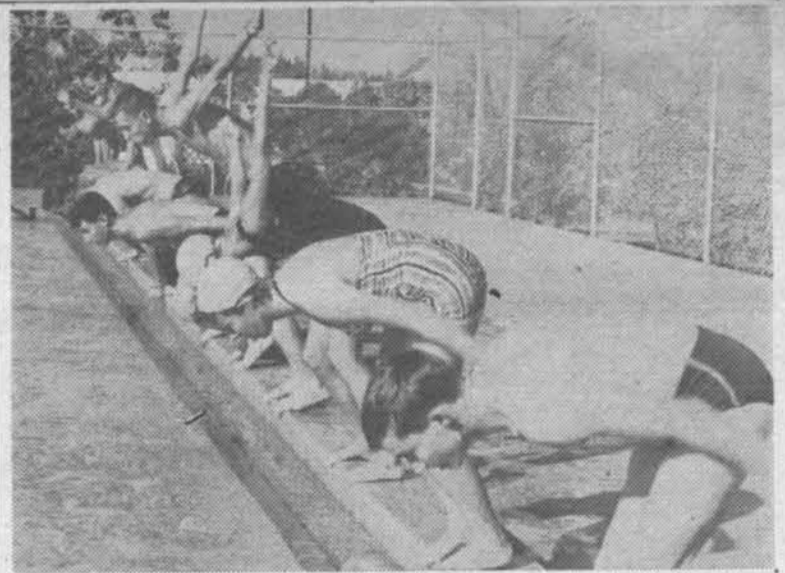

January 11 Hialeah was defeated the second time by the Rebels, this time in their own gym, 66-49. The Thorobreds were leading by 7 points at the end of the first period, but the Rebels bit back in one of the hottest fights that Hialeah has ever seen to step ahead by 17 points at the end of the game.

The opening half of the game was fast and venegful with the Thorobreds intent on taking a revengeful victory over the "Rebels". The first period ended with the Thorobreds ahead by 7 points, 21-14. It got hotter in the second period to be marked by the Rebels' 4 point lead at the end of the half.

The end of the third period showed Hialeah a 6 point underdog but losing no spirit. The end of the game showed Hialeah beaten for the second time by the Rebels, 66-49.

Woods was high point man for Hialeah with 7 field goals and 2 foul shots, he was followed by Garrick who made 4 baskets and one free throw. South Dade was led by Jimmy Simpson who scored 13 field goals and one foul shot.

Hialeah's baby T-Breds did better, however, fighting a hot battle the last few seconds of the game to come out on top by 3 points, 39-36.

HIALEAH'S FIRST SWIMMING TEAM dives for the drink. From left to right: Richard Miller, Don Powell, Tommy Johnson, Ronald Smith, Cecil Woods, Jimmy Taylor, Bodo Pyko, Elizabeth Bass, Judie Killough, and Ronnie Carlson.

N. Miami Squeezes Past Hialeah 71-66

by L. Pardue

Larry Wood and Richie Maureau hooked up in a blazing scoring duel when Hialeah met North Miami on January 8. The duel ended in a 32 point tie, but Hialeah lost the game, 71-66 in overtime. Woods' scoring spree included 8 field goals and 16 foul shots, and set a new school record for points scored in one game. Wayne Garrick, captain and guard, added 16 points for the Thorobreds.

After a slow first quarter, the Thorobreds got rolling in the second quarter when they scored 19 points. The half ended with North Miami leading 37-33. North Miami outscored Hialeah 22 points to 17 in the third quarter and seemed to have the game salted away, owning a nine point bulge at the 4th period's outset.

However, Hialeah resorted to defensive tactics in the final period, limiting the Pioneers to one field goal and one foul shot. Wood scored all twelve of the Thorobreds' markers, the tying two points coming with only five seconds left in the game.

All tied up at 62-62 going into overtime, Hialeah had two baskets nullified by rules infractions and surrendered nine points to North Miami. As the game ended Bruce Walton threw a block into Maureau in a desperate attempt to get the ball but it was to no avail. A foul was called and Maureau added a foul shot after time was out.

be the nation's number one team?

Answer—The Sooners will be one of the best, but I look for them to lose a game in '57. Oklahoma will be among the top three.

Question—Do you think the Miami Hurricanes will have an even better season than their 8-1-1 record of last year?

Answer—The Hurricanes lost a lot of good men. I believe that the Hurricanes will have a season just as good as that of '56.

Swim Meets Planned

Hialeah High has a new varsity sport, it is swimming. The first varsity swim team has been organized under the direction of Mr. Reynolds.

The team is practicing afternoons at Benny Babcock, and plan meets in the near future, four with Coral Gables B and C squads and one with Miami High's Varsity and North Miami's B team.

Mr. Reynolds confirmed, "I feel that it's going to be a great program and that Hialeah will eventually be an outstanding swim team."

The swim team is made up of eleven boys: John Forrest, Roy Hundley, Ronald Smith, Tommy Johnson, Bodo Pyko, Don Powell, Jimmy Taylor, J. C. Woods, Turville Havill, Ronald Carlson, and Bill Landers.

There are four girls on the team: Elizabeth Bass, Judie Killough, Judy Herold, and Nancy McAllister.

"The team is still new and promising," says Mr. Reynolds, "and we welcome anyone who would like to try out for it."

Golf Team Tees Off

The 1957 Golf Team is busy at work. Since their first meeting on January 7, 1957 they have been practicing Tuesday, Wednesday, Thursday and Friday afternoons at the Miami Springs Golf Course.

Harry Gessinger, captain of the golf team this year, is the one Coach Dolan hopes to have as number one high school player in the city.

Steve Cohen and Ken Roberts have shown a lot of improvement since last year. Another greatly improved player is Ricky Dressel.

A new addition to the team will be John Turan who has played a great deal of his golf in Scotland.

This year there will be a lot of competition for the positions on the team as only the number one position is filled. Coach George Dolan expects to have a good golf season. At the present he has scheduled matches with the following teams:

Riverside Military Academy, North Miami High, Coral Gables High, Miami High, Miami Beach High, and South Dade.

M. Parsons Sees Future of 1957 Sports

By Marshall Parsons, Jr.

Marshall Parsons, Jr. interviewed his famous sports-caster father on his outlook of the 1957 world of sports, adding a few summary statistics for 1956).

In the year 1956 the horse racing spotlight was captured by Needles, the winner of the Kentucky Derby and the Belmont. In baseball the New York Yankees went on again to be World Champions by defeating the Brooklyn Dodgers in the World Series, four games to three. Football again saw Okla-

homa as the nation's number one team. Oklahoma also compiled modern football's longest winning streak of forty games.

The big questions in the minds of sports fans at this time of year are—Who will win the Kentucky Derby?—Who will capture the World Series?—Will Oklahoma again be the nation's best football team? To answer these and other questions we have interviewed one of Miami's noted sportscasters, Marshall Parsons.

Question—In your opinion what

three-year-old will win the Kentucky Derby.

Answer—Barblizon, winner of the Garden State Stakes.

Question—Do you think any horse will win the coveted Triple Crown of racing?

Answer—It's doubtful. There are several closely matched three-year-olds.

Question—Which two teams will play in the World Series? Which team will emerge the World Champions?

Answer—It will probably be the New York Yankees against the Milwaukee Braves with the Yankees successfully defending their world title.

Question—Are the Miami Marlins going to finish better than the very good third place finish last season?

Answer—According to my knowledge of the player situation, I do not believe that the Marlins will finish any better than third place this year.

Question—Will Oklahoma again

here's the story of your ARMY RESERVE

Finish High School

Ahead In Income

You get a full day's pay for each meeting you attend. Remember, too, your Army Reserve gives you periodic automatic pay increases.

Ahead In Promotion

Your Army Reserve is quick to recognize a man with ability. You can be recommended for promotion after just four months in the Reserve. Each time you are promoted, your pay increases, too.

Ahead In Training

You get practical training in the Army Reserve. Top notch instructors keep you informed of the latest methods and techniques. You get to handle weapons and other types of equipment. You'll learn many things that will help you in civilian life as well.

Act Now

The Army Reserve has a place for you. You can be way ahead in income, promotion, and training.

Follow Me! BECOME AN ARMY RESERVIST!

Get the complete facts about the Reserve Forces Act of 1955 from:

ARMY RESERVE TRAINING CENTER

5600 San Amaro Dr., Miami

Tel. MO 1-1641

Serve 6 months active duty

Young men between the ages of 17-18½ may enlist directly into the Army Reserve and go on active duty for six-months. You take your active duty for training after graduation or when you reach the age of 20, whichever comes first. After completion of active duty you return to a hometown Reserve Unit and complete your military obligation by training with your hometown unit.

T-Breds Play 'Under-Horse' to P.B.

January 15, 1957 — Hialeah's Thoroughbreds lost the battle but won the war. The war, a basketball game with West Palm Beach, ended up with Hialeah on the large end of a 62-52 score. The battle, Thoroughbreds vs. officials, ended with Hialeah on the short end of numerous fouls and three technical infractions for such offenses as accidentally throwing the ball over an official's head, mildly protesting a decision, and yelling "NO!" to a team mate which the referee took to be a slight against him.

Three Thoroughbreds hit for double

figures, Jerry Askowitz and Lyle Charles with 12 points each, and Wayne Garrick with 11. Billy Kulp was the Wildcats' leading scorer with 18 points.

Hialeah jumped to a first quarter advantage of 15-11, extended it to 32-20 at half-time, and led 48-23 with 2 minutes left in the third period when Coach Roy Brawner threw in the substitutes so that they could gain valuable game experience. The first team re-entered with about five minutes remaining in the game, the lead having been narrowed to eight points, and played out the game while maintaining the advantage.

11 Clubs Sponsor Intra-Mural Teams

Intra-murals football practice will begin on February 18. All days before this will be set aside for recruiting players, by both the coaches and the club sponsors.

Every club in school is eligible to sponsor a team, including all girls teams since the players do not necessarily have to be members of the club.

The teams will be coached by boys who have either lettered or received numerals in football.

No boys who have received either letters or numerals in this school or any other will be eligible for participation. No senior is eligible, thereby eliminating anyone who have had experience from taking part.

So far, eleven clubs have agreed to sponsor teams. They have been assigned coaches and are now recruiting team members.

Wheel Club, which is being coached by Bill Salyer, already has 17 boys on their rosters.

The Gym Club team is coached by Bob Palladino. They so far have five boys on their teams.

The Thespian's team has 16 players and is being coached by Douglas Plummley.

The Rifle and Pistol Club has 18 members and is being coached by Leon Brooks.

Allen Stone is coaching the Navy Club team which has recruited 10 boys.

Boys' phys. ed. class is being coached by Paul Donaldson and has five members.

H-Club is coached by Mike Powell, and already has 35 members on his team.

Tri-M is coached by James Strickland and has recruited four boys to date.

Key Club is being coached by Dwight Barnes and has 12 members.

Head Coach Hal Lannom says that so far these are the only clubs that have indicated interest in sponsoring a team.

**In 1000 words or less, complete the following statement:
"Traffic congestion in Greater Miami's crowded shopping
areas could be relieved by ..."**

The purpose of the contest is to stimulate the thinking of the younger generation of Greater Miami in the traffic problems of the future with which it will be confronted.

SCHOLARSHIP CONTEST RULES

- In 1000 words or less, complete the following statement: "Traffic congestion in Greater Miami's crowded shopping areas could be relieved by ..."
- Every boy or girl officially enrolled in a Senior High School of Greater Miami is eligible; except the children of families employed by the companies sponsoring this contest.
- Entries must not exceed 1000 words in length.
- Entries may be typed or written in ink on 8 1/2 x 11" sheets of ruled or blank paper, on one side of the sheet only.
- Contest will be open officially January 14, 1957 and all entries must be post-marked not later than midnight, Sunday, March 31, 1957. Entries should be addressed to Scholarship Contest, Miami Transit Company, 310 Roper Building, Miami, Florida.
- Each entry must be signed on the final sheet by the contestant with his or her full name; the name of the Senior High School in which he or she is enrolled and complete home address.
- Only one entry will be accepted from each student.
- Prizes will be awarded on the basis of originality of thought, awareness of public traffic problems and clarity and conciseness of expression. The decision of the contest judges will be final. All entries and the contents thereof, become the property of the Miami Transit Company and The Miami Beach Railway Company.
- A complete list of all winners will be announced in the daily newspapers on Sunday, May 19 and will be posted on the Senior High School bulletin boards.

PANEL OF JUDGES FOR SCHOLARSHIP CONTEST

George H. Kunde
Traffic Engineer, City of Miami

Adm. Charles D. Leffler
Vice Chairman, Dade Co-ordinating Commission

Morris N. Lipp
City Engineer, City of Miami Beach

R. Warner Ring
Pres. Citizens Safety Council of Dade County

SCHOLARSHIP CONTEST

The Miami Transit Company is offering a \$2,000 Scholarship and The Miami Beach Railway Company is offering a \$1,000 Scholarship to the University of Miami or to the Florida A and M University at Tallahassee, Florida, to the two students registered in a Senior High School of Greater Miami, who in the opinion of the contest judges, write the first and second most logical and clearly outlined plan for the relief of traffic congestion.

PARTICIPATION CONTEST

A prize of \$300. will be awarded to the student organization of the Senior High School which records the greatest percentage of participation in relation to its total enrollment.

A prize of \$150. will be awarded the student organization of the Senior High School which records the second greatest percentage of participation in relation to its total enrollment.

EDITORIAL CONTEST

A prize of \$300. will be awarded to the Senior High School newspaper which in the opinion of the editorial judges, gives the best editorial leadership in discussing the subject of the contest and stimulating student participation.

A prize of \$150. will be awarded to the Senior High School newspaper which in the opinion of the editorial judges, gives the second best news and editorial coverage during the contest period.

EDITORIAL CONTEST RULES

The award for news and editorial coverage will be based upon the effectiveness with which the editorial staff of the Senior High School newspaper follows and reports the progress of the contest and upon the excellence of such editorial expressions as may be made by the Senior High School newspaper regarding the value of relieving traffic congestion to the community.

Each Senior High School newspaper which wishes to participate in the contest must file intention of participation in writing with the Editorial Contest judges at the Miami Transit Company, 310 Roper Building, Miami, Florida, not later than the first issue following the opening of the scholarship contest on January 14, 1957. Thereafter, each participating Senior High School newspaper must file with the Editorial Judges, four marked copies of each pertinent issue of the newspaper immediately following publication, these copies to be addressed to the Editorial Contest, Miami Transit Company, 310 Roper Building, Miami, Florida.

The decision of the judges shall be final.

THE EDITORIAL CONTEST JUDGES ARE:

George Beebe
