

Hialeah High Record

MIKE RANKIN appears to be working hard at cleaning the school seal as he takes part in the NARTU project. See story in center column.

Mysterious Nartu Invades Hialeah

Thursday morning a boatswain's whistle sounded clearly through the P. A. system (converted to a squawk box by NARTU): "Now hear this! Now hear this! All personnel connected with NARTU report to room 303 for special detail M. O. P."

Operation M. O. P. was executed by the mysterious members of NARTU holding up hall traffic and pumping comments from the students.

The seal of the school was swabbed to a high shine by the NARTU bunch.

For NARTU details, see sponsor P. L. Plotts or contact your local NARTU recruiter. Act promptly, or SSA may become your nemesis.

Prom Plans Prosper; Prices, Places Picked

By Marcia Ann Newton
RECORD Society Editor

Junior-Senior prom plans were near completion during a meeting held not too long ago between the junior class officers and home-room representatives. Virginia Bopp, the junior class president, hasn't let a single thing escape her, so it seems, and has everything set to a "T".

The Coral Gables Country Club is the place; the date—June 6, and the time—from 8 P.M. to midnight. From there all the students will go to the Park Lane Cafeteria in Hialeah for a buffet dinner, from 12:30 till 2:00 o'clock. The Essex Theatre will be held open all evening so that those who want to may attend a show after the dinner.

Tickets for the prom will be on sale from April 1 to May 5, and will cost \$1.00 per person, (only couples will be allowed). All seniors are admitted free but must pay for their dates if they are juniors or less. No one will be admitted unless he is accompanied by a junior or senior. June 7 is the last day of school and all juniors must return even if it is only a half of a day.

In order to attend the buffet dinner, all students must buy their tickets somewhere between the dates of April 1 to May 1. Ticket sales will be closed May 1. The price for this dinner is \$2.50 per person. The menu is: roast beef, or turkey and yams, mashed potatoes, your choice of string beans or peas, hot rolls and butter, apple pie, and coffee, tea, or punch.

The prices on the movie will be the same as night prices. The show scheduled for that night is unknown as yet.

All juniors must pay their class fee to their home-room representatives or they will not be allowed to attend the prom or any of the junior class sponsored activities. Their name will be placed on a notice in one of the school show cases. The fee is only \$1.00.

Another item on the agenda for the junior class is the order of their pins. These pins are 10 karat gold plated with the letters "H. H. S." and a chain that is attached with the number '58' at the end to represent the year they will graduate. They are also selling for a dollar. If class dues aren't paid, the privilege of buying a pin is relinquished.

Note: The junior class officers and representatives are still trying to raise a little money. One of their projects is the paper drive. If you would like to join in and contribute, you may bring your papers to room 416, or tell your representative that you want to help.

Special Trips Arranged for First Field Day

In case you noticed that the Halls of Hialeah High were quite empty a few days ago, it was probably because March 22 was Field Trip Day.

There were many trips taken. Mr. Albert Haft and the DCT students visited the Burdine's Administration and Service building. The DCT group hoped to view and learn about the operations of one of Dade County's larger businesses, different occupations, and processing of the items of this business.

Mr. Charles Adair and Mr. Richard Cook had their Effective Living classes plan their trips together. This group was studying Human Relations in different phases such as religion, big business, education, military, parent-adolescent understanding. Each committee went to different places.

They visited Eastern Airlines, Miami Chamber of Commerce, Opa-Locka Marine Base, Family Service Agency, Jewish Family Service, Mental Health Society, Youth Hall, Hialeah-Miami Springs Jewish Center, Gesu Catholic Church, Ministerial Association, and University of Miami.

Mr. Skinner took his classes to the Florida Power and Light plant to examine the electrical generation and repair facilities in relation to their study of electricity.

Some of the business students under Miss Marie O'Neil visited Lindsay Hopkins, Florida National Bank, Merrill Lynch, Pierce, Fenner and Beane, Burdine's. They wanted to observe working conditions and to find different types of jobs women fill.

Several clubs also went on field trips.

Mrs. McKenna, the school nurse and sponsor of the Future Nurses Club, took the club to the Variety Children's Hospital.

Band Ranks High Superior

Hialeah's Advanced Band, under the supervision of Alan Pat Sullivan, received a superior rating from their participation in the Florida District Contest Wednesday, March 27th in the school cafeteria.

Three judges: Manley Whitcome, F.S.N. Bandmaster; Robert T. Scott, Florida High School Bandmaster, and ... Poole, University of Florida Co-Bandmaster, evaluated the performance of the band judging on intonation, musical interpretation, and general conduct of the band as a whole.

This superior rating, which came from all three judges and not just an average of comments of all judges, enables the band to take part in the Florida State Contest in May. This contest is competition among all senior high

Four Attend Council

Edward Harvey, Leona Higgins, Judith Tittle, and Rayetta Allard represented Hialeah's Student Council in the Annual Student Council Convention held in Orlando on March 22nd to the 24th. These representatives said that they learned much while there that would benefit greatly the Hialeah Student Council, and had a grand time while learning.

schools that received a superior rating from various areas.

Compositions on which the band received such high praise included three numbers: "The Pied Piper" by Ralph Hermann; "The Westerners" by Harold L. Walters; and "Aces of the Air" by Karl King.

Along with being able to attend the state contest, band students will receive contest medals and enjoy a party especially planned for them by the parent-band organization.

155 Juniors Will Take Basic English

After the completion of the Standard English Examination given the Junior class, 155 juniors out of a total number of 469 will be required to take Basic English in their senior year. Along with this number, 85 more persons will be recommended for the class.

Of the 229 remaining juniors, many will be taking either English 12 or College Preparatory English.

As the results of the tests were computed it was discovered that the Hialeah High English Department is doing a fine job, for the juniors rate average when compared with the National Standard.

FLORIDA POWER AND LIGHT GOOD TO THESE VISITORS

Year End Packed with Events

The rest of this school year is packed with important happenings. To give you a chance to prepare yourself for these coming events, the "Record" has compiled a condensed calendar of events, taken from the calendar, created by Mr. Thomas Heaps, activities director.

April 8-12—This week will feature the Parent, Teachers Association workshop, directed by Dr. Hartz, famous sociologist, for education of parents and their children, for better harmony in the families.

April 12-13—On these two days, the Music Department will present the "Evolution of Sound."

April 19-22—These two days are those set aside for this year's Easter holidays.

April 26—Navy blues will be the order for this day, for that's when the Navy Club Ball is to be held.

April 27—At this time, the Dramatics Department will present the play, "Jane Eyre."

May 3—Football season, already? Yes, it's the annual Red and Blue game.

May 8—This is the day that every deserving person had his day. For this is the date of the Special Award Assembly.

May 10-11—With widened eyes and singing hearts, spectators will see the Coral Operation on these two days.

May 15—For those boys, whose hard work has put Hialeah's athletic teams in the spotlight, there is this day, the Varsity Athletic Awards.

May 16—A good, ole-fashioned, hoe-down is on the agenda here. The Future Farmers of America has this day of the year for their dance.

May 23-24—The "Family Circle" will be the senior class play, taking place this date.

May 29—Seniors and their dates won't be able to eat for days, after the day of the senior dinner.

June 3—This is the day, that the whole senior class will mysteriously disappear. (Psssst! Skip day!)

June 5—On this day, the seniors will tread a path never trod before, and shall never be trod again, by them.

June 6—Soft lights, laughing couples, exquisitely dressed, and beautiful music will all share in making the date of the senior class prom long remembered in the hearts of Thorobreds.

HIALEAH IS FOURTH IN U. OF M. RELAYS

Ray Morris once again took first place in the mile team race as Hialeah placed a well-earned fourth in the University of Miami relays last Saturday. Morris set a new meet record with 4:46.6.

Hialeah's high hurdle shuttle relay (Birdsall, Yandell, Pewett, and Whitter) took first place for Hialeah's first U. of M. relays trophy. There was a mixup in the times Hialeah was supposed to have had a second place. The boys felt good with that possession, but when they were told later on that had taken first place they jumped with enthusiasm.

In the two mile relay the combination of Baker, Adams, Bencher and Ralph Morris took third. While Ray Morris, Crawford, Knight and Lapicola came in second in the distance medley.

Ralph and Ray Morris were again confused. One of the North Miami coaches was trying to get Ralph disqualified because he supposedly ran the mile and the two mile relay; but as usual the error was finally corrected.

STATISTICS

High Hurdle Shuttle Relay; 1st Hialeah (Birdsall, Yandell, Pewett and Whitter); 2nd, Coral Gables; 3rd, Ft. Lauderdale; 4th, Edison; 5th, Miami Beach; Time 1:06.6.

100 Yard Dash: 1st, Wright (S.B.); 2nd, Cook (Ed.); 3rd, Carhile (J); 4th, Shaffer (J); 5th, Knight (H). Time 10:2.

Distance Medley Relay: Miami High (Phelps, Greum, Hunter); 2nd, Hialeah; 3rd, Miami Beach; 4th, West Palm Beach; 5th, Edison. Time 3:45.

440 Yard Relay: Jackson (Ashly, Carlie, Myers, Louis); 2nd, Edison; 3rd, Miami High; 4th, Fort Lauderdale; 5th, Coral Gables. Time 52.8.

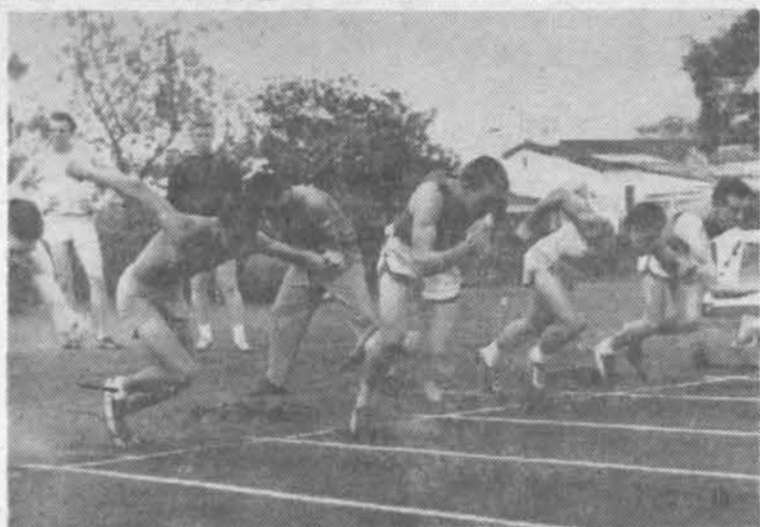

Mile Team Race: Fort Lauderdale (Dolg, Overmoyer, Colquitt, Schuler); 2nd, Miami High; 3rd, Hialeah; 4th, Coral Gables and 5th, North Miami. (Ray Morris was an individual winner). Time 4:46.6.

Sprint Medley Relay: Miami High (Mosley, Lamb, Price, Pardo); 2nd, North Miami; 3rd, Fort Lauderdale; 4th, Edison; 5th, R. E. Lee of Jacksonville. Time 2:44.

Two Mile Relay: Coral Gables (Aumak, Landry, Till, Mann); 2nd, Edison; 3rd, Hialeah; 4th, North Miami and 5th, Miami Beach. Time 8:42.2.

880 Yard Relay: R. E. Lee, Jacksonville (Wright, Fufur, Kelly, Brooks); 2nd, Jackson; 3rd, Hialeah; 4th, Edison and 5th, Coral Gables. Time 1:52.4.

Mile Relay: Edison (Hogan, Armstrong, Leduc, Serrano); 2nd, West Palm Beach; 3rd, North Miami; 4th, Coral Gables; 5th, Fort Lauderdale. Time 3:44.

JOHN KNIGHT gets off to a fast start against North Miami in the 100 yard dash. However, Knight finished second as Harold Seigal of North Miami won in record time of 10.0.

Thorobreds Place Fourth In Florida Relays

By Gary Birdsall

GAINESVILLE—The track team consisting of James Whitten, Jim Thornton, Hubert Daniels, John Knight, Ralph Morris, Ray Morris, Larry Worley, Capt. Andy Lapicola, Jerry Chester, Otis Pewitt, Gary Birdsall) went to Gainesville, Florida, to participate in the Florida Relays.

The 880 relay team placed fourth in the event. Those on the team were Jim Whitten, Andy Lapicola, John Knight, and Hubert Daniels. Jim Whitten placed sixth in the high hurdles, Gary Birdsall, sixth in the broad jump, Jim Thornton, seventh in the shot put, and John Knight sixth in the 100 yard dash.

At the Tom Sawyer motel, where the team stayed, some played shuffleboard, and the others swam in the pool. In the opinion of the team, the most exciting moment

Hialeah Drops First Game

Hialeah lost their first baseball game last week as Edison rallied in a long third inning. Ace Hialeah pitcher Jim Dixon hurled three complete innings before southpaw Dan Kavanaugh came on to relieve him. All six Edison runs were charged to Dixon.

Second-baseman Billy Smith had three for three for Hialeah with two doubles and a single. Shortstop Marv Williams scored Hialeah's first run in the top of the third. John Cavalier and Charley Maples also scored for Hialeah.

was when Dave Sime ran a 9.6 one hundred yard dash, and the worst thing to happen was when Duke dropped the baton in the 440 yard dash.

Tennis Team Finishes Year

The Hialeah High tennis team, coached by Jack Kaspar, has taken new positions, for the following part of the year.

Lyle Charles, a junior at Hialeah High, holds first position on the boys squad. Bob Reynolds, a senior, reserves the place of second. And Wayne Garrick, a senior, is third. Terry Jackson, also a senior, takes fourth place, and Alan Stone is now holder of fifth position.

New holder of first position on the girls' squad is Susan Charles, a sophomore. Linda Lott is second; Marcia Ann Newton, third; Marilyn Stone, fourth; and Beverly Jones, is fifth.

They played their last game in the latter part of March. The boys played Curley and the girls went along. In all the tennis team is shaping up and by next year, with a little practice, the team should be a really good team.

Tennis is considered to be a minor sport, but taken in a bigger way.

Key Clubbers Snatch Title

Intramural football started Monday, February 18th. There were over a hundred boys out for six teams. The teams were divided into the American and National leagues. In the American League were the Key Club, Spanish Club and Barbell Club. In the National League there were the "H" Club, Wheel Club, and Thesplans.

The top team was the Key Club who won in the American League and beat the Wheel Club, 6 to 0, in the playoffs. The Wheel Club was the National League champions.

In the American and National League the Spanish Club and "H" Club were runnerups.

The All Star Game was held Friday, March 22. It was the last of football playing. The game was tied, 12-12.

The football players will all get to go on a picnic. The Key Club will get everything paid for by the others because they were the Champs.

Canes Interning

Three University of Miami football stars are serving their internship at the Hialeah High Physical Education department under the supervision of Salvino Susi.

If the girls haven't already recognized them by name, they are: Center Vester Newcomb, Center Mike Hudock, and Halfback John (Rebel) Bookman.

When asked what they thought of Hialeah students, they replied, "We have received nothing but cooperation and help from the boys in Physical Education. We know we will enjoy serving in this profession if the students of other schools are like those of Hialeah."

It Ain't Hay

By Jim Richland

GIRLS' GYM TEAM!

Word has been drifting around that there is a girls' gymnastic team being formed at Hialeah, and then it could be a girls' team to chase the boy gymnasts.

Mr. Salek is ribbing Jerry Askowitz about his mathematics. He compliments Jerry on his ability to count to three twice in the baseball game between Edison and Hialeah. Ha! Ha!

CAN YOU IMAGINE?

Art Baker without a chest full of ribbons or Jerry Askowitz not taking vitamins pills 6 times a day or possibly Bruce Walton looking down at the basket or Coach Salek without a smile for everyone, or maybe even Wayne Arnold without a bow tie or Wayne Garrick with hair like Gorgeous George or Renae Le Gaudiet with a crew cut or a haircut like Yul Brynner?

TARZAN AND MARCIA

Jerry Chester is playing Tarzan in the latest movie hit and Marcia Newton is going to be the world's tennis singles champion some day!

IT'S A FACT

Edgar Allan Poe was quarterback on the first all-American football team. He played for Princeton University in 1829.

Congratulations to the track team on the fine showing they made at Gainesville over the weekend. Out of the 60 schools that attended they did a terrific job.

Ancients Give Advice

"What is the best advice that you, as a senior, can give to the juniors of H.H.S. as future seniors?"

Ed Barber, 12-7: "I'm in no position to give advice, but I can tell of one of the mistakes I made, and hope that other won't make the same. This mistake was to indulge in too many school activities. Because of this, I now find that I have no practical experience, and that, when I graduate, I will find it hard to find suitable work, unless they start paying people to belong to service clubs."

Mike Davis, 12-6: "My advice is directed to the Freshmen, not the juniors. Before you plan your high school curriculum, know EXACTLY what YOU want after your graduation. Then by knowing this you will be able to plan your course of study to coincide with your future plans, thus giving you a background on which to complete your plans."

Hazel Pomeroy, 12-9: "Being a senior doesn't make me an expert, but I do think that juniors should be serious when they choose subjects for their senior year. Don't plan on too many social activities because being a senior is your last chance to better your education in high school. 'Snap classes' won't help you in your life work or in going to college. There is plenty of time for social activities after graduation. 'A little work and a little play will be much more helpful.'"

F. Jerry Coleman, 12-3: "All that I can say to the future seniors of Hialeah is all that I can say to anyone: Think, work, and then think some more."

Inventions Spark Life

It all began when Galileo was playing marbles on the top floor of the tower of pizza (in those days it hadn't yet begun to lean). Poor Galileo fudged a shot and his playmate (Nero of home) pushed him out the window. It was in Nero's character to fiddle around like this.

Anyhow it was a good thing for the world because on his way down Galileo made a very significant discovery. Galileo saw that both he and the marbles were both falling at the same speed.

This important scientific discovery made a big splash as soon as Galileo hit town. While this was going on Nero escaped back to Rome and Galileo lost his marbles. Thanks to Galileo we now know something new. When you jump out of a tower don't forget your marbles.

Another of our great inventors was Lewey Pasteur who saved our entire population from hoof-and-mouth disease. Pasteur took the germs and hops out of cow's milk to make it pure.

The demand for his pasteurized milk wasn't very great, but he made a million on the hops, the finest of which were sold Aristotle, who later developed moonshine in the still of the night.

And we can't leave out the Wright brothers, who were always thought to be wrong. They're the boys who really took it serious when someone said they were for the birds. They went to the home of a great bird, Kitty-Hawk, and proved that they were right.

A scatter of students and a mighty "Hi-Ho Hanover," the newest addition to the Hialeah K-9 corps comes thundering down the hall.

Sir Hanover (at least that's what we'll call him) is the origin of many jects and is considered an entertaining diversion from class. It has been rumored that he is a great Dane but that arouses some doubt. He has the physique of a pony, the stripes of a zebra, and the appetite of a teenager.

This surprised pup seemed to delight in harassing some students and frightening others. One furious homemaker, whose duty was to dispose of the garbage, opened the door and found herself gazing into the soft, craving eyes of small mammoth (oops! we mean Sir Hanover).

She beat a hasty retreat and bribed a fellow classmate to do the chore. On another occasion feeling rather lazy he gazed around for something from which to make a bed. His glance fell upon some unsuspecting girls gymsuit. Well, Sir Hanover just upped and helped himself.

There is no end to the pranks this uncanny canine does pull. But despite all of this he still is a loveable (?) and playful pup! "Hanover, get down!"

This Thing Called Love

By Marlene Petratas

What makes the flowers bloom in Spring?
What makes the birds decide to sing?
What makes the stars shine from above?
It's this thing we all call love.

What makes the sky turn to blue?
What makes my eyes turn to you?
What makes the moon glow from above?
It's this thing we all call love.

EDITORIALS

Rebel Against Adults

A young teenage girl emerged from the doorway of her home one morning on her way to school. One glance was all that was needed to see her eyes were red from crying. She, like so many girls today, had just exchanged words with her mother. It was becoming a regular routine. Every morning the same subject arose and both jumped on each other.

The reason for problems in the majority of homes with teenagers is the fact that the adults do not sit down and talk to their children. Today's youth requires more knowledge on a variety of subjects. They are not content to be left in darkness or even semi-darkness.

In this fast moving world things have speeded up to a break-neck pace. Students are not content to sit at home and do nothing. They want to be 'out, have fun, participate in something constructive. A teenager wants independence.

The early childhood years are the most important, for it is that training the child carries with him the rest of his life and it is that training that decides what road they will follow when they reach maturity. A teenager needs only guidance when he reaches his teens if he has had the proper training while he was young. If he has received good basic training, no temptation, no matter how great, will not cause him to waver.

It is important for parents to build up a good relationship between themselves and their sons and daughters for a confused and mixed-up juvenile may commit an act on impulse which he will regret later.

How does a parent determine when to slacken and when to strengthen his hold on his child? It is true that if the parent is too austere with his child, the child is likely to rebel.

All today's teenagers require is a little companionship and understanding. If a parent will strive to build the tie that is needed and educate his son or daughter by a mature and intelligent discussion, then a greater number of young people will follow the right path and there will be a decrease in juvenile crimes today.

Murderer Found

Apathy Kills School Spirit

Apathy can be the death of a nation . . . can be the death of any group where interest is vital for its survival.

In a high school apathy is a sight which solemnizes. It is indeed a sad thing to see such a negative force at work in an institution where support of activities (school spirit) should be spontaneous and overwhelming.

Apathy now is rearing its ugly head in our Thorobred high school. Once proud students no longer bother to attend school functions into which much time and money have been put. Efforts of club members and faculty alike go for naught simply because their schoolmates and students do not care to support them. School teams give their all before near empty stands.

Many students do not stop to think of how their actions today will affect the activities of tomorrow. Perhaps they do not realize that if present activities go unattended, administration figures may feel that these activities should be discontinued in the future. School spirit is not an intangible; it can be measured. Hialeah High's portion now seems to be much more meager than it should be.

Want to Be A Magician? Here's How

By Dick Chambers

Magic is the most interesting and exciting hobby or profession that I know of. It is also profitable if you plan to make a career of it.

To get started in magic is quite easy. All you have to do is go up to our library and check out any of the books on magic and set to learning some of the tricks. Don't get me wrong and think that overnight you will become the "Great So and So", because you won't! Don't let that stop you from at least trying. Our greatest magicians have been doing magic for more years than most of us have been around and they are constantly improving.

The most unusual type of magic that you will try is either coin or card tricks. There are many fine tricks in this field that are not in the least difficult. Another reason for choosing this type of magic is that most everyone has some coins and finding a deck of cards is usually not difficult. I doubt if anyone reading this article is unable to perform at least one magic trick.

A fairly good magician can usually be sure of being invited to parties and can usually help a party from being a flop if it seems to be heading in that direction.

It isn't absolutely necessary for you to have very long or limber fingers in order to do good magic, I won't say that long fingers aren't an asset because they are. Some of the greatest sleight-of-hand workers are Chinese and they as a rule have quite small and stubby hands, so the size of the hand isn't too important.

As you progress in magic you will probably turn to "apparatus magic". Don't let that phrase throw you. All it means is that it is special made equipment used in a trick. This runs into big money quick and I wouldn't recommend it unless you plan to get serious about magic.

A gift of gab is one of the most welcome things that you could wish for. Magic is one of the prettiest forms of entertainment but it can be the dulllest type if the person doing it has no idea what to say along with the trick to make it interesting. There are many books dealing with nothing but "patter". Patter is the talk that goes along with a trick. It can be humorous or serious but it should be interesting and reasonable. By reasonable I mean that a person will know that that painted up can didn't really come from China or India or you couldn't have learned all of your tricks from an Indian fakir so there is little sense in insulting their intelligence by trying to make your audience believe that bunk.

Just for the Record

By MIKE DAVIS

LATE, BUT FINALLY FINISHED

The auditorium everyone has been so anxiously waiting for the completion of, has finally been finished. Hialeah students can feel very proud of their auditorium, as engineers have proclaimed it the best one in the Dade County School system. The structure has been furnished with a new type of acoustical ceiling which builders hope will allow "all around" hearing".

The seats are as you know, light in color, and therefore will dirty easily if proper care is not taken to insure that they don't. The paint is also light in color, and will also dirty easily. Because of this, all the students in Hialeah High School ought to start a drive to see who can keep his share of the auditorium the cleanest. Since all the auditorium belongs to every single student, that means a very big job for everyone.

That auditorium will last a long time with proper care.

A SMALL SUGGESTION

The sophomores and juniors of this school will be making the smartest moves of their life when they decide what they will do after their graduation.

Time has a way of slipping past. It won't be but a few short months before you will walk up on the stage of the auditorium and take your diploma.

Before this day arrives, be prepared to take your place in the world. Know exactly what you want out of life. Know whether you want to continue your education, or start work right away. Most important, if you want to go on to college, know what you want to study.

So many seniors have put off their decisions until the last minute. Now these seniors are rushing around making these decisions in a hasty manner, and many are going to find that their plans were wrong. Don't let that happen to you.

Plan ahead.

Ads, Blood of Newspaper

There comes a time in the life of every school newspaper when it is found lacking a sufficient amount of capital to continue distribution. In other words it's broke.

This usually comes about when the advertising manager alone is unable to meet the financial demands of the paper. It is then that the life of the reporter deviates from paper-work to footwork, and he becomes an assistant-ad man.

Each reporter is assigned the district nearest his home. Some find this rather difficult, however, because their homes are located in the middle of the glades. So they approach the only creatures in the area.

The following are authentic cases of these courageous souls who gave their life for journalism.

One do-or-die reporter (and he did) approached an intelligent looking gator (not the U. of F. type) and asked if he would like to place an ad in the paper. The gator replied by asking the young man to stay and discuss the problem over dinner. The reporter never showed up with a contract for that ad. In fact, the reporter didn't show up period.

One ad man visited a family of skunks and even succeeded in securing an ad. But when he tried to turn it in he couldn't get within 50 feet of the office.

The life that revolves around a newspaper may be exciting as it appears to, but, it also requires courage for you to report "at your own risk."

Linda 'N Lyle Star In Tennis

By Leonard Pardue

Hialeah's tennis talent, after lying dormant for two seasons of sunshine, has finally come to life under the tutorship of Coach Jack Kasper.

Thus far, the tennis team has battled to a creditable three wins, four losses, record against schools with established tennis programs. Addition of three basketball players, Lyle Charles, Wayne Garrick, and Terry Jackson, has strengthened the boys' side of the ledger while the girls have done a good job with the initial participants.

Mighty Miami Jackson, a Big Four member, has fallen twice before the lobs and volleys of the Thorobred netters. Hialeah's other victim was South Dade. South Broward's racketeers have turned back the T-Breds twice.

Hialeah's racket squad is currently riding the crest of a two meet win streak. They were scheduled to put the streak on the line against South Dade on March 22 but rain forced cancellation.

Number one man for Hialeah is Charles, who is quite a netty guy. Lyle divides his time between basketball and tennis. Number one gal is Linda Lott, who in her spare time last year was Student Council Secretary.

Basketball Off To Early Start

Preparations for the 1958 basketball season got off to an early start last week as some fifteen varsity candidates reported to practice. The practices, held on Tuesday nights and Saturday mornings, feature fundamentals and basic portions of the Thorobred offense.

Participating are last year's Junior Varsity, any new candidates, and any Varsity returnees not out for other sports. Coach Roy Brawner said, "It is the aim of the Athletic Department that basketball players will take part in only that or, perhaps, one other sport. This would be true of all varsity athletes and should be possible in a school of this size."

The Thorobreds, who finished the year with a 6-14 record, will face basically the same schedule next season. Four lettermen, including the team's leading scorer, Lyle Charles, will return.

Chester Sets Vault Record

Jerry Chester established a new school pole vaulting record last Friday as Hialeah's lightning-fast track team smothered Southwest High, 112 to 11, in their second track meet of the year.

Chester vaulted an even ten feet to easily crack the old mark of 9' 6". The old record was set in 1956 by Ed Gray.

Sports Section

HIALEAH'S TENNIS TEAM evened their season's record last week as they defeated Stranahan of Fort Lauderdale. The netters are (l. to r.) Beverly Jones, Marilyn Stone, Marcia Newton, Linda Lott, Susan Charles, Lyle Charles, Bob Reynolds, Wayne Garrick, Alan Stone, and Terry Jackson.

Key Wins Intramural Crown; A. L., N. L. All Stars Tie

Key Club's intramural football team powered its way to a 6-0 victory over their arch-rival, the Wheel Club, in the first annual intramural championship game.

Richard Lozana, who scored the game's only touchdown, and Gary Larock stood out like diamonds on velvet as they accounted for most of Key's yardage from their half-back posts. Larock raced 50 yards to an apparent score early in the first quarter. However, a Key lineman was detected clipping and the marker was nullified.

Key Club's game winning touchdown came midway in the second quarter when Larock, Lozana, and fullback Bill Palow combined efforts to spark the drive. Lozana carried for the score on a 25 yard shoot play. Lineman Fred Krasco, Bob Mount, and Larry Hinken paved the way for the marker.

Bill Procter and Max Woods, guard and half-back respectively, were Wheel Club standouts.

Coffey Training; Becomes Father

Coach Charles Coffey, line coach, turned infantryman, is scheduled to return to Hialeah next August to resume his coaching duties.

Coffey, who went into the service last December, is currently in training at Fort Benning, Georgia. After completing his basic drilling, he will serve six months active duty as a 2nd Lieutenant in the Army.

Come July, Coffey will be relegated to reserve duty for seven years and will be attached to a Miami unit for that time.

Incidentally, Coach Coffey and his wife are the recent proud parents of an 8 lb. 14 ounce girl, Karan Susan Ann. She was born March 14 of this year.

Hialeah's first intramural All-Star game was played March 22 at Hialeah field as the game ended in a 12-12 standoff.

American League Coach was Dwight Barnes whose team sponsored by Key Club won the A. L. championships. Benjie Lebow, Wheel Club mentor, was National League coach.

The first touchdown of the game came late in the first period when Lanie Ross, N. L. quarterback, went for two yards to a T. D. Tommy Scalise went two yards on a handoff for the National stars second marker to make the score 12-0.

The American League countered as Richard Lazano broke away for a spectacular 65 yard touchdown dash. The half ended with the score 12-6.

The American League's Bobby Bell picked off an errant N. L. pass early in the second half, and raced 50 yards for the score. A later National League score was nullified by a clipping penalty. The game ended at 12-12.

T-Breds Win Meet As Six Marks Fall

Hialeah's Thorobreds breezed through a Florida Relays warmup March 28 as they defeated North Miami 71 1/3 to 51 2/3. Six school records were smashed as Jim Whitten and John Knight led the cindermen to victory at Moore Park.

Whitten and Knight both set two standards as Jim raced to 15.5 and 21.5 wins in the high and low hurdles and John nabbed second in the 100 (10.4) and first in the 220 (22.9).

Andy Lopicola set a new mark in the 440 (54.0) and Jim Thornton hurled the 12 pound shot to a new record of 45' 10 1/2".

Kavanaugh, Smith Star in Win, Loss

Lefty Danny Kavanaugh turned in the sterling performance of his career against South Dade two weeks ago when he went eleven innings, struck out fifteen, and gave up only four hits to defeat the Rebels, 4-3, in a game played at South Dade.

His teammates backed him up with solid hitting (four extra base hits) and shoddy fielding as the Thorobreds smacked out seven hits and committed four errors in their first victory of the young season.

Bill Smith, second baseman; John Grimes, first sacker, and Bruce Walton led the assault on South Dade's Charles Stewart as they got four hits, all for extra bases, and drove in three runs.

Stewart didn't do so badly himself as he whiffed eighteen and went all the way for the Rebels. Two Jerry's, Ashley and Askowitz, combined to strike out eleven times. Askowitz went down swinging five times and Ashley six.

Johnny Cavalier got one hit, walked four times, and scored twice. Hialeah tallied one run in the first inning, two in the fourth, and the game ending marker in the eleventh.

As Coach Charles Wychunas said after the game, "Eleven innings is a pretty good ball game. Stewart is a good boy but our fella (Kavanaugh) was just a little bit better. We were tied from the fourth inning but the Thorobreds finally came through."

Edison Wins, 6-3
In the Thorobreds' other game

of the season, Edison found them easy pickings as they scored four times after two were out in the third inning. The Red Raiders coasted to a 6-3 victory at Curtiss Park, March 19.

Jim Dixon gave up seven hits to Edison but his wildness proved his downfall. Dan Kavanaugh, who relieved in the fourth, gave one hit in his three inning stint on the mound.

Lefty Bob Smith went all the way for Edison. He gave up only six hits while striking out three.

Lannom Says

"We'll Stress Fundamentals"

Spring is in the air and today it was further emphasized by the opening practice of spring football. Head Football Coach Harold Lannom announced the spring football slate last week following the intramural All-Star game.

"We'll stress the fundamentals," Lannom said. Because Hialeah has only eleven lettermen returning, last year's Junior Varsity players will be counted on heavily when planning for next year.

Development of numeral winners from last season will be the main concern of the coaching staff. Blocking and tackling, two basic criteria on the gridiron, will be emphasized.

Lannom also said that he would be "shopping around for a start-

ing left guard" to fill the shoes of Charles Maples. Maples, a stalwart up front for the Thorobreds, is moving to Selma, Alabama, this summer.

Among the lettermen slated to return is the starting backfield of last season, Jerry Askowitz, Paul Donaldson, Charles Adams, and Gary Chamberlain.

The third annual Red and Blue intra-squad game will wind up spring practice. The game, under H Club sponsorship, is scheduled for May 10 at Hialeah's field. The squad will be divided into the Red and Blue around May 1.

The two teams will then work on polishing offensive plays and defensive formations for the big game.

SENIOR Spokesman

VOL. 1, NO. 2

April 9, 1957

FOUR SENIORS (l. to r.: Gail Shaughnessy, Mike Davis, Julie Hathorne, and Leonard Pardue) try out the aisle of the auditorium. The real thing, graduation that is, will take place June 5. The auditorium was dedicated last week.

49 'Grand' Prizes Come to 75 Grand!

Forty-nine scholarship prizes, totaling \$75,000, will be offered this year by the newly-established National Youth Scholarship Fund.

The fund has been set up by Johnson & Johnson, in cooperation with The Mutual Benefit Insurance Company. Prizes will be awarded in the form of fully prepaid policies for education which mature when the winner reaches 18 years of age.

The writer must write a 50-word essay which best completes the statement: "A good education is important because . . ."

Top winner will be richer by \$10,000, followed by two runner-up winners who'll collect \$5,000 apiece, four third place winners who'll get \$2,500 each, six fourth place winners \$1,500 each, and 36 fifth place winners will walk home with \$1,000 each.

A Board of Judges, consisting of prominent educators and public figures, will choose the top contest winners.

Scholarship prizes can be applied to your favorite college, as long as it's accredited, and the winners can take any course of study that the college offers.

According to Robert W. Johnson, executive vice-president of Johnson & Johnson, the purpose of the Youth Scholarship Contest is: "to bring about an increased interest in general scholarships and, to give greater educational opportunities to students in a field of their choice rather than one which is chosen for them."

The contest closes on May 4, 1957—this means that entries must be postmarked no later than May 4th and be received by May 11th. Contest rules state that only persons under 17 years of age (residents of the U. S. and Canada only) are eligible to receive prizes, but that anyone of any age can

enter. Therefore, persons over 17, parents or any adult who enters the contest must designate a person under 17 to receive the prize.

Blanks are available at most places where Johnson & Johnson products are sold, or by writing to the National Youth Scholarship Committee, 130 East 59th Street, New York 22, New York. Contestants may enter as many times as they wish.

Hard Luck Is Baker's Forte

Dennis Baker, senior from Mr. F. Weller's home room, certainly deserves the title of "Hard Luck Guy of '57".

Recently, Dennis has been involved in two auto accidents, neither serious. The proverbial straw came, however, when Baker's car was stolen from Hook Square in Miami Springs.

The ironic note was that Dennis had bought the car only two days before, replacing his old dented one.

Home Ec. Girls Place Third

Placing third in the annual table setting contest sponsored by Burdine's Department Store was the climax of two weeks study on table arrangements for Mrs. June Thomas's third year homemaking class.

Kathy Drummond, Anita Raulerson, and Peggy Lasseter were chosen as representatives of the whole class for the contest. They selected china, crystal, silver, lin-

Parking Sore Spot Solved!

By Mike Davis
Record Editor

The long unsolved parking problem of Hialeah High School remains unsolved no longer.

The completion of the new auditorium has provided the school with ample parking space for approximately 175 cars.

Leonard Pardue, senior class president, has expressed the plan of the senior class to provide controlled parking for all seniors that drive automobiles to school.

STICKERS TO IDENTIFY

To identify cars owned by seniors, the senior class will sell stickers to be attached to the windshield of the cars at a very low price.

The proceeds from the sticker sales will be used to finance the marking of the parking area.

After the parking lot has been established, the owners of any cars (without stickers) found in the area will be required to go before the Student Council whose members will decide their fate.

When asked if any senior home-rooms would be required to monitor the parking, Pardue replied, "They will have to only if it becomes necessary."

SURVEY TAKEN

A survey has been taken to determine how many seniors drive cars to school. As the lot will accommodate about 175 cars; there will be ample room left over to allow "controlled parking" for junior class drivers.

By "controlled parking", it is meant that the juniors will have a special area all to themselves as the seniors will.

As in the senior class, juniors parking in the area will be asked to identify their cars by stickers the same as seniors. The sale of these will be carried on by the junior class representatives.

Skip Day Set; Birch Is Site

While the lowly underclassmen are slaving away on exams, Hialeah seniors will be having a ball at Birch Park in Fort Lauderdale!

This fun day will take place on June 3, and will start around ten o'clock and will end at 6:30 when the park closes.

Each senior is to make his own arrangements for food and is to dress in sporty fashion. The Birch Park facilities are boating, hiking, horseback riding, picnic grounds and right across the street is the Fort Lauderdale Beach.

ens, and a centerpiece that would follow the theme "Tropical Luncheon for the Girls". The menu was also planned by the girls.

Miami Jackson, Miami Edison, Miami Beach, Miami High, North Miami, and Hialeah were the schools who competed against each other.

A silver centerpiece was awarded to the Home Economics Department. North Miami won first place.

Committee Chooses

Senior Play to Be "Family Circle"

Hialeah's brand new 1,000-plus seating capacity auditorium, work for which has been carried on for several months now, will find itself a beehive of activity almost before the final coat of paint has been put on its walls.

DEDICATION HELD

Dedication ceremonies, which took place last weekend, introduced the students to the new home of a variety of school activities and functions in the years to come.

Its large stage has been taken over by Mr. Joe White, dramatics instructor, and work on the upcoming presentations of the Thespian and senior class plays, "Jane Eyre" and "Family Circle", is well under way.

TRYOUTS FOR SENIORS

"Family Circle" will have cast tryouts open only to seniors, and will be presented Thursday and Friday, May 23 and 24. Casting began April 3. A senior committee, made up of Ray Charles, Melvis Sweat, Kay Anderson, and Charlotte Zeletes chose the comedy from several others which were read and studied.

The play has a cast of seven girls and five boys, and concerns the adventures of a famous theatrical family. The playwright father and actress-turned housewife mother find themselves with a problem in the form of their teen-age daughter who wants to become an actress,

while their wishes are for her to complete her education. What she does to fulfill her desires against these large parental odds makes "Family Circle" a humorous and apt production for the seniors.

WHITE TO DIRECT

Mr. Joe White has consented to direct and work with the final year Thorobreds on their dramatics project, but most of the technical aspects and the gathering of the necessary materials will fall to the seniors to make it as much as possible their play.

Superior Sends David to State Music Conclave

"Tickling the ivories" for a first place win in the Florida Vocal Association's Music Festival on March 16, was Hialeah's David Frazier. Making his selection from one of Bach's many numbers, David went all the way for a superior rating.

Leaving Miami on April 13, David will travel with the Miami High chorus to Tampa for the annual state music convention. While there, he will take an active part in the music schedule and repeat the number he did previously in the contest at Edison.

From the very beginning David has played an important part in Hialeah's Music Department. When asked his opinion of it he replied, "I think it is pretty good, and it is a lot better than other schools. We have the best orchestra in the state."

Upon the completion of this school year David said he would like to continue his career in music. He would like to teach music in college as a career, in preference to high schools.

For the past three years David has been in the Advanced chorus where he sings tenor. His capabilities along the music line have proved to be very beneficial to the chorus and its members. Several times he has stepped in and directed class in the absence of its director.

Etiquette Set Up on Announcements

With graduation swiftly approaching, seniors are faced with the problem of how to send commencement announcements. The members of Mrs. Mary Watts' College Preparatory English classes were given valuable instructions in announcement etiquette recently.

Printed name cards are a must as a name is never signed to the invitation. Two weeks ahead of the big night on June 5, all announcements should be correctly addressed and in the mail. Since there are two envelopes, each should be given proper consideration. On the outside envelope the name of the recipient is written in

Future Grads to Be Cited at Assembly

Senior class members who have demonstrated outstanding qualities in their high school career at Hialeah High will be rewarded with senior achievement awards at the Awards Assembly to be held on May 8, in the school auditorium.

The American Legion Award will go to the boy and girl in the graduating class that have displayed outstanding citizenship. The student to receive this trophy will be chosen by the faculty.

The Everett G. Pease Award is to be bestowed upon the senior boy and girl who have maintained the highest scholastic average during high school. The names of these two students will be inscribed on the trophy that will remain in the school trophy case.

To the student assistant who has contributed the most to the Hialeah High School Library goes the honor of "Outstanding Student Librarian." The student's name will be engraved on a plaque that will be placed on the wall of the school library.

Outstanding personal development and the demonstration of distinct qualities of leadership will merit some fortunate boy and girl the honor of receiving the Danforth Foundation Award. They will each be presented with a copy of William H. Danforth's inspirational book, **I Dare You**.

Excellent display of talent in the field of journalism offers an award by Printcrafters of Hialeah to a qualified senior student.

Mr. Thomas Heaps, Student Activities Director, stated that the complete list of senior awards is not yet available.

full; never abbreviated.

Street names must be spelled out up to Tenth Street when they may be written in Arabic numerals. Your return address should not be on the envelope.

Hi-Notes From Hialeah

By Marcia Ann Newton
DID YOU KNOW?

Did you know that "Where there is a Weller, there's a way?" By the way this is a quote from Mr. Weller himself. It's just a little reminder that he tells all his students.

NEW CLUB STARTED

Larry Worley, a junior at H.H.S., has started a new club which is called the Bible Club.

In case you would like to talk with him about joining it he is glad and willing to talk with you about it.

A NEW FAD

The newest fad lately is getting yourself a car. (Provided you can afford one). Margaret Molinari, a junior at Hialeah, has gotten herself a '50 Oldsmobile, all black with black and white seat covers. Margaret said that her father agreed to pay half of the price and if she could have the money necessary, they would get her a new car.

POOR SANDY!

Poor Sandy Vale; how awful it was for her when she had the Chicken Pox only a few weeks ago. That wasn't the worst part of it, though! The real embarrassing moment came when she had to admit it to all of her friends. Everyone is glad to see Sandy back in school again, after her two and a half-week stay in the sick bed.

ANOTHER CONVENTION

The Journalism class of Hialeah High is going to take another one of its trips to Gainesville in the latter part of April. The top six students from the Record Staff and six more from the Annual Staff will be selected to go. Every year, this convention arouses the interest of those in concern, as it is always a tremendous success. It lasts for three days.

The Library Club is sending some of its officers to a convention held in the latter part of April, too. Theresa Notarianni, president, is going for sure.

Also the Library Club is really selling things to help make this trip a successful one. Perhaps you have seen the 'teddy' bears, and autograph books, buy one and help support the club in its functions.

Delegates Leave

Delegates from Library clubs in the Dade County area will go to Leesburg by train, leaving Miami at 9:00 on April 26, arriving at Leesburg about 2:00 p.m.

The delegates from Hialeah will be Hazel Pomeroy, Carole Romonick, Janice Richards, Cal Peltz, Terry Notarianni, and Patty Lee.

The delegates will have the privilege to hear Laura Cooper Rendina, an author of girls' books, and Zachery Ball, an adventure writer.

"Everyone should have a wonderful time," states Mr. Gus Adams, librarian.

"Boy Orator" Captures Exchange Speech Honors

By Jack Starkey

Silver-tongued Wayne Arnold, "My Friend", "The Boy Orator", "the school boy politician" or whatever you like to call him, has done it again.

Wayne captured top honors in the local Exchange Club Speech Contest last week. Mr. R. F. Miles awarded Arnold a \$50.00 Savings Bond for winning first place.

"The Task of The Politician" was the title of Arnold's address. One of his more colorful statements was that "the politicians of America today must realize that one most peculiar characteristic of our nation is that we place our hopes, not so much in laws, but in men; not so much in force, but in individual responsibility."

As our forefathers did, we hold strong faith in democracy as the safest means of social organization, believing that the best man is developed when there is the largest play for individual initiative and choice."

Wayne remarked that politicians with the know how are needed in a democracy. Only there must be more to him, possessed of higher intellectual and moral quality than at present."

Second to Arnold in the Annual Exchange Contest was Charles Posey, and John S. Kolodgy third.

Wayne will now compete in the State Exchange Club Contest where the possibilities are that he will win a \$1,000. If he wins the state competition he will continue toward the national final, a College Scholarship.

Tri-M Pledges Dance

Active members of Tri-M gave their new pledges a dance which proved to be a big success. There was a very good floor show. The Tri-M trio was the first to be on, they sang "The Banana Boat Song". Next was a pantomime by Pat Dziedzic. Last, but certainly not least, was Sandi Weigand who sang "Stormy Weather", followed by "My Sweetie Went Away." Everyone seemed to have a nice time.

The pledges recently elected officers: President, Ted Sever; Vice President, Tom Kirby; Secretary, Dee Dee Dressel.

March Shows Key Club Progress; Elections And By Laws Revision

The members of Key Club made up their minds and cast their ballots for officers of next year. The offices of Key Club are president, vice-president, secretary, treasurer, parliamentarian, chaplain, and sergeant-at-arms. The first four are filled by voting, and the last three are appointed by the president.

This month, Key Club members showed their faith and trust in Ray Morris by electing him president for the school year of 1957-1958. Ray, well known for his athletic achievements in track, is a member of the Student Council, "H" Club and an active member of Key Club.

Jim Phillips, another long and active member of Key Club, was elected as vice-president.

Tony Davis, this year's chairman of Key Club's membership committee, and a member of many other active committees was given an unanimous vote for the office of secretary.

Louis Pease, this year's secretary, and one of last year's delegates to the International Key Club Convention, was elected into the office of treasurer.

These officers elect, will go through a training under the boys now in office to ready themselves for their duties, which will begin

next fall. Those Key Clubbers now holding these chairs are James "Butch" Harvey, president; Bill Dunstall, vice-president; Louis Pease, secretary; and Robert Page, treasurer.

Revision of By-Laws Also Takes Place

The month of March saw something else take place in Hialeah High's Key Club. That something was the revision of Key Club's Constitution, adapted in November, 1954.

Appointed to this task was a revision committee, comprised of F. Jerry Coleman, William Hoy and Ed Barber.

The revision dealt mostly with minor, technical changes in wording and placing of articles and sections.

The revised constitution has twelve articles, the largest being Article V, the article dealing with membership, the stages a boy goes through to become a member, and the club requirements.

After a few adjustments and additions, by the club, the revision was accepted as the final word on all affairs.

F. Jerry Coleman, chairman of the committee said, "Since the constitution needed revising, we revised it."

Future Business Leaders Gets Start; Dixie Averill Is First President

The Future Business Leaders of America has been established at Hialeah High. Sponsors for this year are Mrs. Edna Pettit and Mr. Vernon Hall.

To be a member of this club you must be one of the following: a sophomore with one business subject, (2) a junior with two business subjects, a senior with 3 or more

business subjects; and you must have a high C average in subject and a B average in citizenship.

They have elected officers to finish out this year. The officers for this year are: President, Dixie Averill; Vice-president, Analee Pavolsky; Secretary, Esther Varon; Treasurer, Barbara Powderly; Reporter, Jeanne Miller.

Drum Majorette Jo Ann Dimock Gets Twirling Honors; Goes to Palm Beach

Beautiful blond-haired Jo Ann Dimock won a Superior Rating in the Baton Twirling Adjudications held recently in the Hialeah High School cafeteria.

Judges of the ratings placed the charming Jo Ann among the Superiors in Dade County because of the following outstanding strong points: ability, variety, poise, and

confidence.

Jo Ann has been a Drum Majorette since the ninth grade, early training being an asset in furthering her high school career in baton twirling. She is just a junior, and has one more year to add to her success for her school.

The judge of the contest rated Jo Ann very high in her Individual Routine, Rudimental Routine, Entrance, Exit, all of these including the wrist twirl, figure eight, four finger twirl, two hand twirl, right and left body passes, aerials, reverse figure eight, cartwheels. Variety, precision, poise, showmanship, and many other items of the contest proved Jo Ann to be doing a great job.

Miss Jo Ann Dimock remarked that she would now be an entry in the State Contest of Baton Twirlers at West Palm Beach some time in April.

SUZANNE WARDLAW

MIAMI'S
MOST BEAUTIFUL MODEL

Elected by the Coral Gables' Jaycees for 1957. A teller at the Pan American Bank, Miss Wardlaw became a professional model after her recent graduation from the Coronet Academy.

Suzanne says:

"I took Coronet Training with the hope of becoming a professional model, but the training is good for anyone. It gave me the opportunity of learning good grooming, hair styling, make up, posture, and correct fashion. All these things are used by everyone, everyday. Whether this training is used professionally or not, I don't think anyone should miss such a wonderful opportunity for self-improvement."

Hialeah Captures Honors at Tourney

Hialeah's girl "Thoroughbreds" really proved themselves when they beat the socks off all their opponents at the Senior Softball Tournament held at Coral Gables.

In their first game Hialeah defeated Miami Beach 6 to 1. The winning of this game was accredited to the excellent pitching of Glenn Ann Sapp. After 3 innings the game was stopped due to the lead Hialeah had on them.

Hialeah ran over Tech high with a score that will not be published due to the embarrassment of the latter school. Diana Wright pitched an almost perfect game with only one person getting on base.

North Miami lost to Hialeah with a score of 6 to 12.

Miami Edison who was believed to be the leading contender for the first place plaque was defeated by Hialeah 16 to 1. There was only one base hit during this entire game, thanks to the pitching of Carol Todd. As the team looks back on this game they can recall that Carol had the girls of North Miami swinging at anything that came across the plate.

It was agreed by the team and their coach, Miss Alliene Swain that Hialeah had no competition and easily paved the road to victory and the winning plaque.

The plaque was accepted by

Softball Brings Many Accidents

Baseball is breaking way and so are a few fingers. Now this game is quite normal until the American girl gets a hold of it, then it's a regular free-for-all.

The game is played with one bat, one ball, and of course the girls. The team consists of nine players, out of which comes the dainty flowers picking type to the big battle axe bull fighter.

The ball pitched from the pitcher who has pitched the pitched ball to the batter. One ball, one bat, one player,—WHAM—and the cat-skin sphere is sent to the outfield.

Now step number two. Ways and means of stopping the batted ball. If you're the type who is afraid the hand isn't the safest means of stopping the ball, throw your whole body in front of it and you're sure to stop it (you too). But then, this sometimes isn't the best method to use when players are short.

Watch out, the batter is taking those bases a mile a minute. Throw that ball,—clunk. Well that takes care of third basemen.

Then there's always the ball that stops just about two feet in front of the batter. While the batter takes off for first base, the pitcher and catcher collide in an attempt to get the ball. That takes care of two more.

A person passing by would probably think Hialeah has had it as far as sanity was concerned.

Thorbred captain Mary Buchanan, Miami Edison received the second place plaque.

These girls made up Hialeah's varsity softball team:

Catchers: Virginia Van Kessel, Mary Buchanan and Pat Harris.

Pitchers: Carol Todd, Glen Ann Sapp and Diana Wright.

First basemen: Jean Smith, and Carol Rollinson.

Second basemen: Diane Lingard held down this position all by herself and did a fine job of it.

Who Will It Be?

As the first session of cheerleading tryouts came to an end, moans and groans were heard from several sources. Arms ached, legs ached, and many wondered if they would make it home. The next day the muscles were twice as sore and steps seemed twice as steep.

These tryouts were held on Monday, March 18, under the direction of Miss Dolores Jordan.

The second dose of this "body-building exercise" was given on Wednesday, March 20, and a third one on Thursday.

Practices and tryouts will be held each Monday, Wednesday, and Thursday after school until 4:30.

Roberta Calvert and Helen Cavalier conduct tryouts on Mondays, Gail Shaughnessy and Marilyn Martin on Wednesdays, and Sue Fickling and Judy King on Thursdays.

The final selection of next year's cheerleaders will be made by the four girls physical education teachers during the second week in April.

Library Gets New Book

There shouldn't be so many sad-eyed students who can't find book reviews for the English class now.

Due to the numerous requests that the library has had recently for book reviews the librarians ordered the **Book Review Digest**.

This book contains reviews of most of the books written this year. The H.S.S. library has volumes of the book from 1948 up to this year.

When asked about them Mrs. Ruth Bradley said that she was certainly glad they came now and can be used by many students.

Third basemen: Nancy Smith and Virginia Kessel.

Shortstop was played by one of the pitchers who were not pitching at the time.

The outfield was handled by several girls who took turns playing this position. They were Linda Lundbloom, Frances Rushing, Myrtle Meeker, Carolyn Pritchard, Margaret Pantuso, and Elaine Lucardi.

Annette Pritchard was the manager and Beverly Martin was the scorekeeper.

Try-Outs Being Held in Badminton

You girls better hurry if you want to try out for the badminton varsity. Many girls have come out already and the chance for you is becoming small but don't lose hope, the instructors are always looking for good material.

The girls are playing against themselves and are also playing doubles to find who and what team is the better.

May 10 will be the day of the tournament, to find out when the girls will practice, contact one of your Physical Education teachers. Hurry now and don't be left out.

Anita Wins for HHS

"I just couldn't go through it again; I haven't got enough fingernails," confessed Anita Bartlett, winner of the zoology division of the Science Fair, held at the University of Miami last week.

Anita took first place with her exhibit of over 350 different insects, mounted and with the scientific names attached.

The exhibit represents over 2 years of collecting and 150 hours of work.

Anita is hoping that she will win the state contest. The winner of the state will go to California to compete for a scholarship.

Are Your Thoughts Turned Toward Social Studies?

By Charles Adair
Instructor in Social Studies

Most of you are going to graduate into a society which will place a heavier burden of individual responsibility on you than has ever been enjoyed by American citizens. This is just as you are reaping the benefits of a great democratic heritage in general and a multitude of social services in particular.

Whether you will flourish or even survive in this atomic age is a serious problem. It is the belief of social scientists as well as physical scientists that you must be superior to your forerunners if we all are to continue to exist. This is the first reason for becoming a serious student of social studies.

Many of our young men are seriously concerned about several years to be spent in the armed services. This is sensible.

In the same sense you should be impressed with the need to derive accomplishment and satisfaction from the three required years of social studies training that must be yours to receive a high school diploma. To ignore this second reason for being serious in social studies would be foolish.

Education has been frequently defined as "knowledge put to use". The study of man as an individual and as a social being is the role of social studies. The fact that social studies have not been as ready to accept the problems of students as identifiable with the problems of society has been a devastating weakness educationally. Now that educators are awakening to this—it is hoped that the students will awaken too.

WHAT EACH CONTAINS

Generally speaking the social studies has been an academic area

that has been void of "research". This most important factor has been left up to the social "scientists" on the university level.

We all are now working together and with a modest level of efficiency, great things are in sight. Perhaps we should identify the areas of social science in the order of their chronological development.

History—(the oldest)—The study of the past with special concern for the affairs of man and his institutions.

Political Science—The study of government and politics on all levels of organized human activity.

Economics—The study of the production, distribution, and consumption of goods and services.

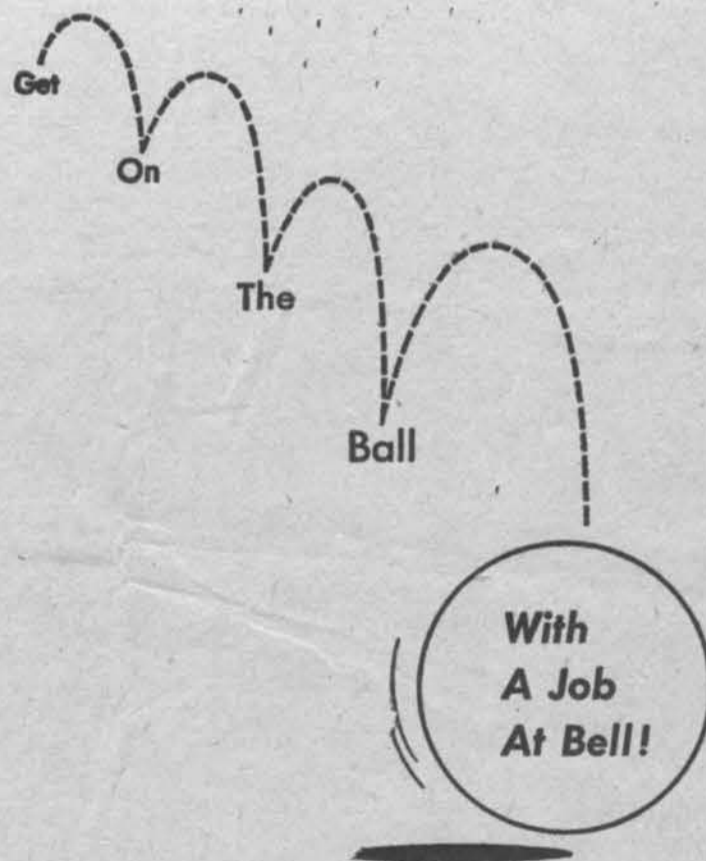

Anthropology—The study of social groups, past and present, with a major concern for their similar cultural developments.

Sociology—The study of the relationships of groups one to another within well defined environment.

Psychology—The study of behavior and experience of living organisms.

If you observe carefully the areas are listed chronologically as they developed (mostly in the last 5 years.) Also note-worthy is the fact that the newest efforts have involved the use of important scientific "tools" mathematics, statistics, logic and semantics.

The academician in social science has become more concerned with the development of scientific methods for two important reasons. First, we have observed the remarkable successes of physical science research and instruction. Second, it has become apparent in a practical world that we must produce results—tangible results.

Southern Bell TELEPHONE COMPANY

From the Horse's Mouth The Bakers, Sister and Brother Thorobreds

By BONNIE CLARK

Most people, when they bowl, hurl the ball down alleys, like the game should be played. Not Joyce Adams. It seems she couldn't keep the ball out of the ruts on both sides of the alleys. The pin boys felt sorry for her and instead of placing the pins correctly in the alley, he lined them up and down the ruts. She couldn't miss if she tried.

ONE WAY TO KEEP COOL

I'll grant the weather has been a little on the warm side but the track team had the best solution to keep cool. Bermudas were just the thing and they wore them to school. Jerry Chester, well known as the Bermuda King at the MI-

"My Hood Aches"

By Tish Groover

I am a car, not particularly old or new. I'm what would be classified among people as middle-aged.

Well, my problem is that my latest owner is a teenage boy who religiously reads all hotrod magazines. In these magazines he is constantly finding new ways to improve me.

At every available chance, he grabs his tools and starts pounding on my motor. Now once in a while I wouldn't mind but this constant pounding makes my hood ache.

Another thing, he is absolutely positive that I am the best car on the road and that I can lay a patch of rubber blacker than any other car. He is proving this constantly, and the results of it is that I wear out tires faster than a ten-year-old boy wears shoes.

Once in a while I become annoyed with the way he repeatedly changes my color and it is not unusual for me to roll around with one side blue and the other green.

All in all I really can't complain (by this I mean stall and choke) for if I do I just might find myself back in the used car lot where some sweet old lady, who never drives, much less looks under the hood, might take me home to put in a musty old garage.

WHAT LUCK

Dennis Baker was the proud owner of a brand spankin' new car (1949) for a few days that is. He wasn't listed to be an owner for long, for when he parked his proud possession some hoodlums stripped the car from the wheels to the fan belt. The car was bad off as it was with no engine or rubber but to top it off, they tore the seat covers and head panel to wipe the grease off their hands.

WHAT'S ON YOUR MIND?

Joe Migone is a hard working senior. Not only in school but five hard working hours after the three o'clock bell. Now, this could prove to be quite strenuous on the brain as well as the muscles.

It seems Sandy Cowern drove up to the gas station where Joe works, expecting usual service. She asked for gas and did not expect to get part of the station with it. Well, she got both; gas and a window wiper. He had cleaned the windshield and checked the oil but left the hand wiper on the radiator and closed the hood. It was the funniest things to see him chasing the car down the block with a soapy car waiting in the station.

THE MAIL MUST GO THROUGH

And through the mail they came, all pretty and shiney. Yes, the senior rings arrived and finally the long faces are alight with proud accomplishment. You know, it's pretty hard to wait for something like that.

GRADS GET AWARDS IN BUSINESS EDUCATION

Proficiency in Business Education merits an additional certificate to all graduates who have taken the required courses in Secretarial, Bookkeeping and Clerical Subjects, and earned a 3.0 average. These students will be awarded with a certificate at graduation in addition to their high school diploma.

THE MOST DANGEROUS STAGE:

Perhaps some teachers will agree with the student who wrote on a recent test given by Mr. Plotts, "The four stages of development are the egg, lava, pupil, and adult—and the pupil is the most dangerous stage."

A room full of laughter, Teacher even grins, Den Den Baker is at it again.

This, in a nut shell, is Denny Baker, one of Hialeah High's most popular seniors. "That's Denny all right!" agreed his sister Arlene, an equally well-known senior as she laughed over the above poetry contributed by a Den Den fan.

Arlene and Dennis have been attending Hialeah schools for the past seven years, but, though all this time, they've seldom had a class together. Through these years Dennis has worked hard for the school by participating in many worthwhile activities. "In being as active as I am, I am striving for the benefit of others, first and foremost, and am thereby benefitting myself also," said Dennis. Arlene, too, has been serving her school through her three year membership in Anchor Club.

Arlene and Dennis were born in Miami, she in 1939 and he in 1937. "There are few advantages in having an older brother," laughs Arlene. "But he does come in handy when you're short of cash or need transportation."

"As a sister, Arlene is a typical biddle, but she's all right as sisters go!" was Dennis' quick comeback. After graduation, Dennis and Arlene are moving to Summerville, South Carolina, with their family. Dennis is planning to attend Wingate College there. "I don't like the idea of moving," said Arlene. "I'll miss all the wonderful kids at Hialeah!"

Dennis and Arlene are also very active in church work. At North Hialeah Baptist Church, Dennis is President and Arlene Vice-President of the Young People's group. They both feel that church work has helped them mature and grow in many ways and that it is an important part of growing up for everyone.

Like the true Rebels they are, come Saturday night they like nothing better than sitting down to a mound of fried chicken and shrimp. "And how!" agreed Dennis. "That's my favorite pastime." Though Hialeah will lose many fine Thorobreds through graduation, none will be missed more than Dennis and Arlene. Dennis's capacity for creating a genial atmosphere wherever he goes, has endeared him to students and teachers, alike, and no one can forget the smiling face of lovely Arlene.

No School Spirit Peeves Twirler

Jean Tyler, Hialeah's popular blue-eyed, senior reveals her pet peeves as being crowded places and people who do not have school spirit.

Born September 6, 1939 in Miami, Florida, Jean stands 5' 3" and weighs 108 lbs. Having attended Hialeah since the seventh grade,

she has this to say, "Hialeah is the best ever, especially our basketball team!" Mrs. Watts rates as her favorite teacher and Chorus as a favorite subject. Besides being an active member of Honoria, Flag-twirling and Chorus she still finds time for outside activities such as participating in the Miami Springs Jr. Debs. and President of Flag-twirlers sponsored by the Hialeah-Miami Springs Lions Club. On top of all these extra curricular activities she still maintains a "B" average.

Jean is a very pleasant person to talk to because she never complains nor brags about herself. After graduation Miss Tyler plans to work and later get married!

Where There's Life There's R. Dewhurst

Where there's life and laughter, there's Roger Dewhurst, a senior whose personality is well-known throughout the hallowed halls of Hialeah High.

Roger was born in Miami and attended both Hialeah Junior High and Hialeah High School. His favorite subjects include Psychology and Sociology, because from these he receives those "oh so good" A's. His least liked subject is the third "R"—Arithmetic.

Roger is also active in school affairs; those being: Vice-President of Tri-M, Orchestra member, and member of Key Club.

"The time I wore two different pairs of shoes to work and had to wait until the noon day break to change them," says Roger, "was my most embarrassing moments."

Upon graduation from Hialeah, Roger plans to attend Davidson College, which is a Presbyterian School in North Carolina.

"Model Ford" Proves Favorite Pastime

"Roaring down the street in her Model Ford" is the favorite pastime of Sandra Smith, a senior in

Miss Swain's home room. This 5' 2", eyes of blue, brown haired young miss made her debut into the world on Oct. 9, 1939, which makes her 17½ years of age.

Sandy is better known as captain of the Hialeah Majorettes. She has held this position for the past two years. She has been a majorette, however, for three years.

Sandy's other activities include piano lessons, Alumna Club and membership in Honoria, in which she takes an active part.

Her pet peeve is the people who do not support the activities of the school. Her favorite subjects include psychology, chemistry and art. She does not have any immediate plans for after graduation.

COURTESY IS CONTAGIOUS

By Hazel Pomeroy

Have you ever thought about some of the things that you do subconsciously? Many of these nice things are catching.

Take for instance, in the cafeteria, if a boy happens to hold the door for a girl it may pass on to the next one that enters. Manners in the lunch room are expected, because you don't throw food, run, or mess up the table and chairs in your dining room at home.

Another time that these manners show is in the library. It is quite noticeable, when a person says thank you it sometimes carries on down the line to two or three more people. This gives everyone a feeling of satisfaction.

It has been said that "Courtesy is Contagious—Let's start an epidemic."
