## PSTA Organized, Election to Be For Student VP

HiALEAH High has taken another step forward with the organization of the Parent-Teacher-Student Association. All students are eligible and urged to join.

PTSA enables students to work with their parents and teachers on community as well as school projects. It was established with the feeling that high school students are mature enough to work with adults in planning for their school.

Students will be asked to elect, from the student body, a person to serve as third vice president of the organization. They will also be asked to participate on committees and in the program planning.

The PTSA is an educational organization and not a money making organization as many people believe. They are not in competition with school clubs and will try to operate exclusively from the membership fees.

When one joins the PTSA one automatically becomes a member in the State and National associations, the National having over ten million members.

"We are most eager for student participation," states Mrs. J. M. Stoinoff, President. "The PTSA is not to exist in name only."

Last year the main project of the PTA was to bring Dr. Edwin Hartz of Florida State University to speak to the students.

Each student pays a membership fee of 35 cents and is entitled to all membership privileges.

The PTSA meets every first Tuesday of the month beginning October 1, having five or six meetings a year.

Officers for the year are: Mrs. J. M. Stoinoff, president; Mrs. R. W. Logan, 1st vice-president; Mrs. D. M. Kavanaugh, 2nd vice-president; Mrs. Vance Ramer, recording secretary; Mrs. R. N. Pritchard, corresponding secretary; Mrs. A. M. Robertson, treasurer.

The PTA has its own publications among which is a magazine which Mrs. Stoinoff recommends to everyone. Parents will become enlightened by reading it and there are many interesting articles that may supply students with ideas for themes or other school work.

## TV Courses Added to School Program

HISTORY AND ENGLISH STUDENTS gaze intently at visual lessons during new television courses held in the auditorium. HiALEAH is one of the few schools participating in the educational experiment. Six islands each having one set constitute the large classroom.

## Experiment Held In Auditorium

"Whodunit" wasn't the question asked Friday when the TV was turned on; instead, the students in Mr. Kyle Bright's fifth period class and Mrs. Angeline Skipper's sixth period class were asking an entirely different type of question.

The two classes, World History I and English, are being taught, partially, by television. HiALEAH High is one of three high schools participating in this television educational program. Miami High and Jackson are also taking part.

Parents will be able to watch the telecasts from home since the programs are shown on Channel 2.

The Ford Motor Company is sponsoring the program which is hoped to be a successful one.

This system is being tried out in hopes of finding a way of teaching larger groups of students more effectively and in a more economical way.

Six television sets have been set up in the auditorium which will be tuned to the Educational Station for 35 minutes of each period, the remaining time is devoted to discussion and supervised study.

The main advantages, according to Mrs. Angeline Skipper, are in being able to bring in outside people to aid teachers. These would include librarians, writers, and people who would not ordinarily be brought into a regular class.

One of the main objectives is to find out how well the large group gets along scholastically. Also how well they get along without so much class discussion.

These students will be given a test at the end of the year which will be compared with the tests given other students who have been taught in the conventional classroom manner. Their comparison will show whether the experiment has been successful.

## HHS REPRESENTATIVES ATTEND BOYS' STATE

Louis Pease, Wayne Arnold, Larry Deets and Billy Dunstall attended Florida Boy's State at Tallahassee this past summer. The Boy's State operation took place in one of the many buildings on the Florida State University campus.

Wayne Arnold was selected as the main speaker, giving his views and concepts on the fine ideals and principals of AMERICANISM. He withdrew from the Governor's race to help nominate and support one of his close and personal friends from central Florida. After Governor J. Russell Gray was elected, he immediately appointed Wayne Arnold to be the Chairman of the State Racing Commission, then Arnold appointed Pease and Deets to the Commission to assist him and the Governor.

Arnold was selected by his party as Judge and served (Please turn to page 6)

## Science Research Offered Students

HiALEAH High is privileged this year to have a Science Research Course. The purpose is to stimulate minds for science and to provide an opportunity for certain gifted students to take advanced science.

This course will train students in the ways of scientific research because each student will choose a scientific subject of his own to work on and to learn about with the advice of a teacher. Alex Alfaro said, "You can take out of this course only as much as you put in but to the student it seems as if it is a lot greater." A few of the subjects are: optics and radio, marine biology, electronics, and radio active effects on animals.

The class is taught by Mr. Thomas Barringer and has about sixteen members.

Mr. Barringer said that several teachers in the school help different members of this class and he

The PTSA is still in the experimental stage and is being carefully studied all over the United States.

## SC Plans Projects

By DEE FINCHER

Student Council activities are now in full swing. Class representatives have been elected and projects are being set up.

Bookcovers are available in the Activities Office.

As future projects the Student Council will sponsor the Homecoming celebrations and also getting club pins for representatives.

A "Wishing Well" is another of the Council's many plans. As students drop in pennies and make wishes on test days or the like, it is hoped that the "well" will become a school tradition.

The Student Council's energetic officers are: Virginia Bopp, president; Bill Dunstall, vice-president; Linda Lott, recording secretary; Gary Chamberlain, corresponding secretary; and Barbara Lasseter, treasurer.

only teaches what he can.

The Science Research class needs technical books, magazines, and journals and will gladly accept all contributions.

This is the first time this course has been tried in Dade County.

## Seniors Enjoy First Assembly

The first senior assembly was held in the auditorium opening with Mrs. McPhearson speaking on the Florida State Employment Service. This service has two offices one is a clerical office and the other an industrial office. The service offers special services to those who want permanent employment after graduation. Tests are given to help find what each student's interests are.

A counselor will then discuss your employment problems and test scores with the student.

These preference tests and aptitude tests help you to find strong points and weak points, and help to arrive at a suitable choice.

Mr. Everett Pease spoke on some of the things the seniors need to know this year. Including, class rings will be on sale sometime in October, when a senior rents a cap and gown even if he does not graduate he will not be able to receive his money back for the rent; that name cards and announcements will be on sale in October for about 15c each.

Then the nomination of class officers were held. The nominations for president were Lyle Charles, Sarah McAlister, Charles Adams, and Wayne Arnold. Secretary nominations were Carole Curry, Marilyn Jones, Virginia Beasley, Barbara Cate, Leona Higden, Shirley Cordeiro and Sharon Miller. The nominations for treasurer were: Lynda Herold, Jerry Askowitz, and Bonnie Burtless.

## Athletic Dept. Barbecue Launches Season

The HiALEAH high phys. ed. field was the birth ground for the first annual KICKOFF BAR-B-Q AND CARNIVAL. All proceeds going to the HiALEAH athletic department. The money will be used to pay the debts of the department. There was a dance held at the HiALEAH Municipal Auditorium starting at 9 P.M. and lasting until midnight. Music was furnished by Crusty Drybread and his Toast to Modern Music. The United Community Committee, composed of business

men and women of HiALEAH, Miami Springs, and Opalocka, are the main sponsors behind this latest way of raising money for the athletic department. They handled all arrangements for the barbecue, carnival and dance.

There was a car caravan to advertise the fling on the 14th, held by the H Club. Signs were plastered all over the city of HiALEAH.

The carnival started at 2 P.M. and lasted until 7 P.M., was made up of booths from the clubs of

HiALEAH High School. All money taken in minus expenses was handed over to the school. Mr. Harry Walton was in charge of the school part of the function.

Some of the booths were: Fortune telling, Quill and Scroll; Candles, Y-Teens; Fishing Pond, NARTU; Ring Toss, Library; Cake Walk, Honoria; Cotton Candy, Anchor; Darts—Future Farmers; Bowling, Tri-M; Air Rifle, Phys. Ed.; Weight Guess, Theblans; Golf, Spanish.

## Principal Extends Welcome

It is indeed a pleasure to be able to greet you this new school year. May it be a happy and a successful one!

Let me point out to you the ingredients of success.

First, and most important, is that of living congenially with your fellowman. A smile, a "thank you," and "I beg your pardon" does much toward making this possible.

Second, regular application to one's steady, regular attendance—in other words, consistency in one's overall behavior.

Third, is your participation or taking part in many activities such as classroom discussions, library usage, school functions, team play, spectator sports and others.

I hope you do all of these things.

Let me again say, "Welcome to Hialeah High."

E. G. PEASE, Principal

## Cold Water, Anyone?

Hialeah High is in bad need of Cold Water Coolers! The RECORD plans again to resume the fight that was started last year. This time it will succeed! If the clubs and organizations of the school will staunchly support a project to raise money to purchase Cold Water Coolers, it will be accomplished.

Student Council representatives and leaders of the school should strongly and effectively endorse the project. Student Council representatives should take the idea back to their homerooms and get the students' opinion. There is no possible hope for success in our endeavors unless we have the wholehearted support of the student body.

The next step would be to consult and speak to different organizations over the community and ask that they take the idea up as a project. Be very frank with the fact that there is not a sufficient amount of money to buy the coolers, so their help is needed. They will certainly lend a hand.

## Fees Support Teams

As many of the home room teachers have explained to the student body the Athletic Fee will enable them to attend sports events throughout the H.H.S. year. This is a real bargain! And yet many of you have probably already decided that you aren't going to the games anyway so you don't need the fee. This attitude of lack of concern about the success of your athletics can cause a recession in your most essential athletic program which is being conducted by some of the county's most able coaches.

Try to work out some way so that you can buy your fee ticket. It will benefit you and many others like you. Set a good example and tradition so that the students who enter Hialeah in the future will take hold and support athletic events throughout the year.

Fooball, basketball, tennis, track are all a part of the morale and success of your school and its students. The reputation of which a team will bring to this school will make you proud that you took notice and threw your every effort behind Hialeah's Athletic Program for this year.

## Students Requested to Know Alma Mater

"Will you please stand to sing the Alma Mater?" requested Mr. Everett Pease, Principal, to the teachers and students of Hialeah High School at the first assembly meeting this year.

Everyone stood and started the Alma Mater. The first three lines went perfectly. Then, what happened? There weren't too many students that were certain of what came next. Are you one of those students who faltered at the words? If you are, don't you think it would be worth the effort to learn the Alma Mater. To be able to stand at any time and sing every word proudly would be an honor to every student and teacher.

"Every student and teacher should know the Alma Mater," stated Mr. David McDavid, head of the English department. Mr. David is having the Alma Mater mimeographed for all of his classes to learn. Be a true Thorobred, know your Alma Mater.

## Improvements Needed For Football Stadium

Athletic leaders in Hialeah Senior High School and Principal E. G. Pease are strongly endorsing some major additions to the Football Stadium and other Sports Fields such as a baseball field, swimming pool, track area, etc.

Head Coach Harold Lannom stated that he hopes that he and the City Fathers can get together in the near future and work out something for the further development of the Municipal Athletic Field on Palm Avenue.

It is time for the young people of Hialeah to go home and impress upon their parents the need for these Athletic Field improvements, after all, only the parents can go out on election and select the men to lead the people of Hialeah with a sincere and earnest desire to make substantial improvements in our athletic program.

A member of the Key Club, who is sponsoring a petition, stated that he feels that under the same leadership in Hialeah City Hall we the future leaders of tomorrow will get those improvements we need at the stadium. Just in the last few months we have received the stadium and several thousand bleachers for the comfort of the people attending the football games. It is also my understanding that a couple thousand more bleachers are to be installed shortly.

The best way to obtain our desires in our facilities at the stadium is to wholeheartedly lend our support and encouragement not by mouth—but in action to its accomplishment.

## Play Your Part Keep H.H.S. Clean

Television Studio Teacher for History I, Mr. Edward H. Bungarten, said to Principal E. G. Pease that he wishes to congratulate the students of Hialeah for having such a clean building and campus. Mr. Bungarten, also stated that he felt that this was the cleanest school building and campus that he has seen in Dade County. Mr. Pease stated that he was very proud and happy to hear this remark from a man of such high stature in the Dade County School Administration.

The RECORD wishes to join hands with Mr. Pease and other faculty members in encouraging you students to keep up the fine manners you have in keeping the campus and building in suitable condition for the public and ourselves.

But it must be impressed upon your minds that there are some students who don't practice the concept of cleanliness in the respect of throwing paper cups in the paper cans, and throwing other papers etc. where they belong—as one janitor explained: "The same people, always the same people!" In case you are wondering who these same people are, they are Hialeah High School Litterbugs. Of course, everyone knows what a litterbug is—almost every school has them. They are people who go around throwing trash, paper, and other objects on the campus and classroom floors. They don't seem to realize that there are trash cans in all the rooms and on the campus as well.

If people would stop and think, they would realize the extra work that they are putting on themselves, teachers, and especially the janitors. It's up to each student to co-operate in ridding Hialeah of these undesirables—the Litterbugs.

Don't let your folks down by not showing them that you aren't raised good.

## Orchestra Increasing

Four years ago a dream of Mr. Sherman Conn came true.

Through the foresight of Mr. Conn, Hialeah High today is equipped with one of the largest high school orchestras in South Florida.

The stage of the cafeteria was large enough to hold those first ten string instruments. They were the beginning of the now well completely filled orchestra, now practically filling the bandroom.

Since that first year it has added a brass and percussion section bringing its present membership to a near 75. Sophomores, juniors and seniors make the orchestra what it is.

Even though it is relatively new it has already played in numerous performances. It was the only high school orchestra from South Florida to play in the Southern Music Educators Convention last April. Now begins a new year for this already well-known group.

## Notes From The Record

By DEE FINCHER

Well, here it is again, the first edition of the Hialeah High RECORD. The new staff has worked diligently to put together a paper that the students and faculty will enjoy. The editors are from the advanced Journalism class. But even the editors couldn't put out the RECORD if it wasn't for the assistance given them by the writers in the first-year class.

### COOL, CLEAR WATER

A cold water cooler project seems like a pretty good idea. Of course, the majority of students would probably rather have a swimming pool in which to jump, but a cold water fountain would help on these blistering days.

### PTSA IS HERE

Now that the PTSA is a reality, students should be happy and ready to participate in making the experiment a success. Hialeah is one of the few schools in Dade County that has student membership in an organization of this type.

## Spirit Makes A School

Have you seen this person? She fits an average description: neither large or small, nor short or tall. She was last seen wearing a crisp cotton school dress, ballerina flats, carrying school books, and walking down one of Hialeah's corridors.

You can tell her by the smile on her face and her friendly attitude towards all. In the classroom, she shows interest in the subject at hand. She takes part in all class activities.

You've seen her cheering excitedly at football games, or singing Alma Mater with the grace and dignity befitting it. Taking an active part in her club, busily selling tags for some cause—there you'll find her.

Who is she? One of a hundred girls in our school with the spirit that makes Hialeah what it is.

## United Fund Arrives in Dade County Area

Since you've been on vacation, something new has happened in Dade County! It's the newest, biggest drive for welfare funds ever to hit Miami. It's called the United Fund of Dade County.

The United Fund began because Dade County citizens were tired of all the various charitable drives seeking money and workers all year 'round. It was hard to know what to give each . . . hard to know what the real need was. All the men and women acting as volunteer solicitors were tired of it, too. So, they're the ones who insisted that the agencies get together and campaign once for funds. Voila! The United Fund!

The drive will be held from November 17th through December 12th. Forty-two welfare agencies have already signed up to participate—among them agencies you yourself are familiar with, like the Y.M.C.A., the Y.W.C.A., Boy Scouts and Girl Scouts. By the time the drive kicks off November 17th, there will probably be close to 60 agencies who say: Give once—give for all—give enough. Give your fair share. By December 12th when the drive "closes up shop," we will probably have said to the country: the Dade County Fund is a winner—at 100% plus!

A major reason for that success will be the 20,000 volunteers who contact housewives at home, employers and employees at work. Won't you make the cause of the United Fund yours . . . and ask your mother and father tonight to help by offering their services to the United Fund as volunteer solicitors? Ask them to call FRanklin 3-7704 and leave their names and addresses.

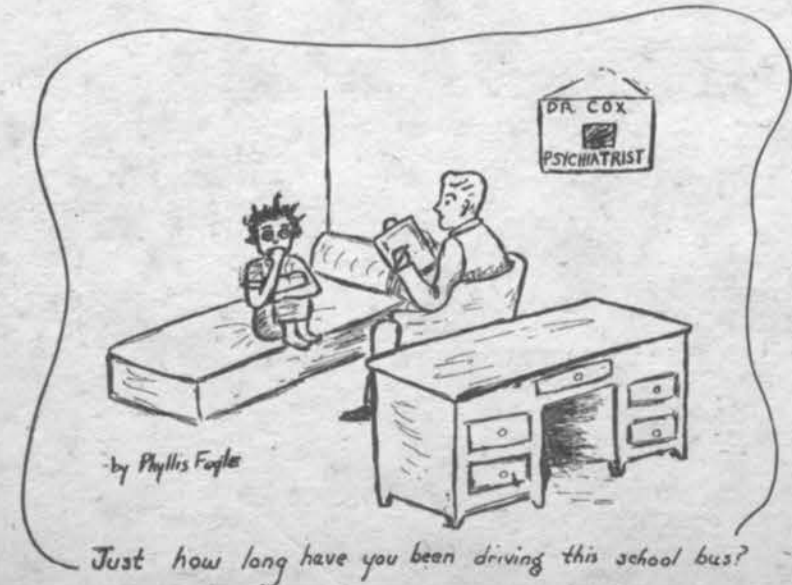

## HIALEAH HIGH RECORD

To Seek, To Find, To Share

Published bi-weekly by the students of the Hialeah High Journalism Classes for the students of Hialeah School.

## New H.H.S. Record Editor Plans Journalism Career

"The final day of school, when we came to pick up report cards last year," relates Deanne Fincher, "I walked into the journalism office to bid Mrs. Miller adieu. She cornered me right then and there and put me to work on the annual. I learned one thing, unless you want to work, a journalism office is a dangerous place no matter what the time of day or year."

Dee Fincher has been connected with school publications for five years. Four of these have been spent with Mrs. Alfreda Miller, whom Dee thinks is a wonderful advisor, especially on journalism conventions.

This year as editor-in-chief of the RECORD, Dee states, "I want more than anything to have a good paper and I really would like to see the RECORD get a medal rating which is the highest honor any school paper can receive."

Dee is also a charter member of the school chapter of Quill & Scroll, an honorary association of high school journalists. In the past two years she has held two offices in this organization, secretary last year and this year the office of vice-president. She is also

a member in Anchor Club and National Honor.

She plans to major in journalism at either Florida state or the University of Florida, "which ever will have me."

As for outside activities she is President of the Miami Springs Junior Debs.

## Giggles and Gags From Two Old Nags

By TISH and DEE

Amid the mass confusion of the Hi-Ways new staff, Jim Coppinger, who is in a state of confusion all the time, was reaching the point of no return! It seems Jim was attempting to contact advertisers by telephone, but the noise made it impossible. So he solved the problem by taking telephone and chair into the hallway. Result—traffic jam.

Virginia Coleman is wondering if she wants algebra or rather, does it want her. One day as the instructor completed the roll she asked if there was any one she missed.—Virginia raised her hand. The instructor then placed the students in alphabetical order. She asked again, "Is there any one we missed?"—Virginia raised her hand. Then the books were issued. "Is there anyone without a book?" (Yep, you guessed it)—Virginia raised her hand!

Panic arose one night when Aundrea Christopher, Joyce George and Dee Fincher got together for an evening of bowling. They had no sooner climbed in the car when an exceptionally large cockroach (at least that is their opinion) ran across the roof of the car. With a shriek they climbed out of the car not remaining long enough to find out if it was the famous Le-roy of Hialeah.

## The Case of the Missing School Bus

It was known as the case of the missing schoolbus or an 815. The object in question was quite large, bright yellow and held about 70 people.

Time—about seven o'clock A.M.—Place—on a street corner—People involved—Hialeah High students.

The crowd was quiet and the question on the lips of each student was, "Should we go home?" Many students said yes without further debate and left.

Only a few faithful stayed on until about 8:10 A.M. when the missing school bus finally rolled into view.

## Logan Leads Band

By MARCIA ANN NEWTON

Douglas Logan, a Hialeah High senior, states that, "I'm proud to be one of the new drum majors of such a fine school." This six foot Floridian says that he likes it here and that can plainly be seen by the fact that he has been a student here since the seventh grade.

Band is Doug's main interest now, and has been for the past five years. In the tenth grade he served as a sergeant, the eleventh a first lieutenant, and now drum major. His instruments are baritone and trombone. For the past four years this tall, dark, and handsome 17-year-old has participated in every state band contest.

Being President of the Pistol and Rifle Club, and a member of the Key Club are only a few of his activities. Hunting and shooting are some of his pastimes. He is now building a Model "A" with a '53 Olds rocket "souped up" engine, in the school metal shop.

"When I graduate, I would like to go to the University of Miami and major in Chemical Engineering." Doug moved to Florida in 1954 and now lives in Miami Springs.

Doug's opinion about the school paper is a favorable one, he says that it is the best he's ever read.

## Students Relate Experiences of Summer Vacation

Students have returned to school from all over the country. A few were fortunate in taking vacations over the country.

Larry Worley, a senior took a very inspiring trip to "Word of Life" camps, in the heart of the cool Adirondack mountains at Schroon Lake, New York. Larry worked on the Word of Life staff for the entire summer. He stated "I enjoyed the camp fire meetings and the Christian Fellowship among the staff and campers. The main inspiration I received from the camp was the Quiet Time. This is when you get together with the Lord and his word, the Bible."

Connie Barnes, also a senior, journeyed to Pascagoula, Mississippi during June and July. She visited an older sister that lives in the Mississippi countryside. Her recreation consisted of swimming, fishing, and water skiing. Connie stated, "Rock and Roll is just now reaching Pascagoula, but they do an awful lot of jitterbug. I had a good time, but it's good to be home!"

David Elkins, an eleventh grader, spent two weeks at St. Thomas, Virgin Islands. He went with the Air Explorers of Squadron No. 1 from Eastern Airlines. They camped on Mogens Bay. They went swimming, boating, fishing and mountain hiking. The trip also included visits to Tortola, in the British West Indies, and San Juan Puerto Rico. The Navy gave David and the group, a six and one-half hour cruise on the rescue vessel, Escape, from St. Thomas to San Juan. "It's a marvelous place to vacation, but I'm thankful that I live in the States!" stated David.

Julie Bullard, a tenth grader, vacationed in the Knoxville, Tennessee, area for two and one-half months. She spent nights under two blankets as the temperature dropped to fifty degrees. Near the end of summer Julie went to Kinzel Springs, Tennessee, at the edge of the Great Smoky Mt. National Park. Says Julie, "I really love those mountain hillbillies!"

## Gridiron Captain Displays Spirit Of Thorobreds

"We have a fine group of boys out there and no matter how many wins or losses we have our school and our community will be proud of our showings," stated Benjie Lebow, five feet nine inches, 170 pound left tackle and captain for the Hialeah High School football team.

Benjie became 17 years of age in April and has been living in Hialeah for twelve years. He is originally from Charlotte, North Carolina.

Sports are Benjie's hobbies and he likes all of them.

He is treasurer of the Wheel Club, treasurer of the "H" Club, vice-president of the N.H.S., and past president of B'Nai Brith Youth Organization, and also was an Honoria Honey.

After graduation Benjie plans to attend a Northwestern college and study in the science or medical field.

## Bus Provides Interest

"Move back and quit pushing" comes the familiar voice of Mrs. Virginia Taylor, driver of bus 56-A. Groans are heard as a long line of students pushed their way to the rear.

At last the door closes and the bus starts on its way.

As students jolt along to school, noise and confusion is heard within the big yellow vehicle.

The bus hits a bump, and Linda Lamn gives out a shriek of surprise as one poor, unfortunate girl is thrown into her lap. Chin up, old girl, only thirty-four more weeks to suffer.

## Student Council Prexy Plans Memorial Year

By DEE FINCHER

As the final morning bell rings, a cheerful voice calls for all students to salute the flag. Virginia

Bopp, Student Council President, is busily planning for the year. She is working towards making this a memorable year in Hialeah's history.

Ginny, as she is sometimes called, was selected as one of the Hialeah representatives to attend Girls' State which was held in Tallahassee last summer.

Anchor Club and National Honor can claim Ginny as a member, however, she devotes as much time as possible to the Student Council.

Last year Ginny served as President of the Junior Class. "We had a good year," she states emphatically. "The prom was a terrific success!"

Ginny likes to water-ski and play tennis in her spare time—what little there is of it.

Although born in Boston, Massachusetts, this cute blonde has become a Southern gal. She enjoys her summer vacations at Crooked Lake in Babson Park, Florida. This gives her an opportunity to ski from "dawn to dusk."

Ginny was recently the victim of a surprise party. She was under the impression that her aunt and uncle were expected for dinner. But when she answered the doorbell she found not her relatives but a flock of kids all shouting at her. "It scared me to death!" she exclaimed.

This popular senior can be found at all school events always pulling for Hialeah and promoting school spirit.

## Students Struggle for Survival

"Pardon me, could you tell me the way to the cafeteria? I say, could you tell me the—oh, well, I guess I can find it by myself." Does this sound familiar to anyone? It should, because it's the plaintive cry of a new student turned loose in a new school.

Probably the most unhappy sound in the world is that of a boy or girl who has arrived for the first time in a school equipped with nothing to come to his aid except a large paper of jumbled room numbers fixed especially to confuse him.

One example was John Smith, just returning from a New England vacation, and in Miami for the first time. He was blithely told by his parents he was to begin class in the new school that was somewhere "in our neighborhood." Object number one was, of course, to find this new school. Object number two was to approach someone, anyone, to tell him where he might find his room, after, of course, he had fought his way to the office to receive instructions which he promptly forgot.

After finding his much sought after room he walks in and looks over a sea of strange faces meeting their blank stare with an equally blank stare (which new students are noted for). A surge of apprehension falls over him as he eyes his new teacher and tries to decide whether it would be better to walk up to the desk or turn around and go back home. Deciding the latter would be better, he stands there in the middle of the room for a moment, and then moves his numb legs slowly toward the teacher who is in a heated discussion about the atomic bomb. Wishing one would drop on him at that moment,

he speaks his first words, "Sir. Oh, Sir." Receiving no answer, he steps a little closer and promptly knocks over the wastebasket. As if this were not enough the shock of what he had done slowly creeps over him and he immediately drops his books on the head of the poor unfortunate seated next to him.

Oh, woe is the student turned loose in a new school building with nothing to aid him but his little piece of paper stating the room in question is number 200. Never mentioning, of course, whether 200 is up, down, or in the middle of the school.

## Cheering Del, Students Yell

"Aces high, duces low, come on Hialeah—Let's go!" This is just a few of the many cheers one of Hialeah's newest cheerleaders, pretty and popular Delphine Rimbart.

Cheerleading has always been one of Del's dreams. This fancy has been in her mind for a long time and now she has made it. However, her ambition is to become a secretary someday. After graduation from high school, Del hopes to go to business college for two years to prepare herself for future secretarial work.

This terrific cheerleader has been attending Hialeah schools since the fourth grade excluding one year at Miami Springs Junior High. As she puts it, "I am an old Hialeah school veteran." Del is a junior this year. She has no favorite subjects or teachers, she loves all subjects, teachers and classes.

Aside from being a cheerleader which she practices day and night and even in her sleep, Del has served on the Student Council since the ninth grade and hopes to be tapped into the Anchor Club.

She is known to all of her friends as the "friendly, sincere gal with the school spirit smile," and to prove Del's school spirit she expresses herself in saying, "I really enjoy working with Hialeah's newest, friendliest, and the most cooperative cheerleaders and we are all behind our teams fighting onward to victory!"

# Jean Dulin, Senior, Heads For Alaska

By MARCIA ANN NEWTON

Jean Dulin, a Hialeah High Senior, has left her home town of Miami Springs and her old Alma Mater for a trip to Alaska with her parents for four years. Her departure was in the first week of September.

This four foot eleven inch, cute blonde, has been a Thorobred all of her high school days. "Leaving Hialeah High means I can't graduate with all of my best friends and I was looking forward to it so, I'm so proud of Hialeah," says Jean regretfully. Not only does she leave her friends since the seventh grade but also a special boyfriend. Now past president of Anchor Club she will be missed by all of her clubmates and best friends.

Jean handed the gavel over to Carol Binns at last Thursday's meeting.

Carol is the newly elected president and will take up all of Jean's duties as the president.

# Twirlettes Twirl And Flags Unfurl

Yes, the Hialeah Twirlettes have been practicing routines for the upcoming football games, on the school field. Flags were twirling as early as 8:30 A.M. to as late as 5:30 P.M., in the latter part of August.

There have been a few new additions to the corps, including their sponsor, Mr. Darryl Johnson. He has contributed much to the organization of the Twirlettes. He tries to make it a point to watch the girls practice, as much as possible. Almost everyone agrees that he not only makes an excellent Algebra teacher but also a wonderful sponsor.

The Twirlettes have just recently elected new officers. Virginia Beasley and Frances Fraleigh have been selected Co-Captains. Carolyn Collins and Pat Kidd are returning for their second year, while Linda Shipley, Bonnie Burtless, Shirley Cordeiro, Mary Ann Worst, Barbara Wilewski, and Martha Duhse are just starting their first year.

# Calendar Arranged

President Ralph Morris, John Bartlett, Louis Pease, John Kolodgy and others of Key Club are at present making the final arrangements for the Key Club Calendar this year. This Calendar will, of course, come out at the beginning of 1958. President Morris states that it will be the best calendar yet. The calendar committee at the present time are selling ads and have not released a set date for the taking of subscriptions by students.

"In reviewing the Key Club Calendar in the past, three have been put out and this project has been recognized and followed throughout the state by many other Key Clubbers and Key Clubs who realize the assets of having a school calendar," remarked several Key Clubbers.

There will be twelve pages in the calendar thus representing 12 months of the year and on each of these pages there will be a girl selected by clubs to represent them on the calendar.

# Inglis Needs Longer Year

Never let it be said that when school let out last June that all school activities stopped, for Modern Music Masters carried a full schedule.

One of Tri M's projects has been ushering at Dade County Auditorium for the Summer Music Comedy Series. Some of the shows that were produced were: "Wish You Were Here," "Kiss Me Kate," "Kismet," "Carousal," "Brigadoon," "Plain and Fancy," "Gentlemen Prefer Blondes," and many more. "Our thanks go to Anchor, Honoria, and Y-Teens for their help on this project," says Wesley Calvin, Tri M treasurer. Tri M will continue ushering this winter for ballets, operas, and musical comedies.

Another outstanding project carried on this summer was the work Tri M has been doing at the United Cerebral Palsy Home. Here Tri M has organized a rhythm band to help the C.P. children control their muscles, learn rhythm, learn to cooperate with others, and follow a leader.

Tri M has a club paper called the "Crescendo" which is published bi-monthly. Several members got together and edited a summer edition. Over 80 copies were sent to members and other clubs in the United States.

Members of Tri M have aided Mr. Turrentine by filing and sorting music, helping compose the Music Department Handbook, serving refreshments at music teachers meetings, and many other such services.

Mr. Inglis says that Tri M has a lot to do, so much in fact that we need a longer year; what we don't finish during the year we will finish next summer.

This year's officers are: President, Sylvia Buck; Vice-President, Bill Ferri; Recording Secretary, Judie Mason; Corresponding Secretary, Linda Henley; Parliamentarian, Gary Vergo; Historian, Barbara Beck; Interclub Representative, Penny Stanley; Chaplain, Dee Dee Dressel.

Mr. Joe G. White, Dramatics teacher at H. H. S., was elected National Chairman of the Drama Festivals and Contests by the American Education Association at its recent Convention in Boston, Mass.

# President Yandell Kicks Off for Hi-Y

By WAYNE ARNOLD

President Lance Sadler Yandell has announced that the main aim of the Hi-Y Organization the first six weeks of school is to raise members and to interest some of the old members to become active again. "After all, if we are to have a successful year we must put our effort and ability as a working team to good advantage in building the club and its concepts up," remarked Yandell.

The President also stated that any person from 9 to 12 grades are eligible for membership in this very active and progressive service.

Some of the activities for the club in the following year will be: Sponsoring Valentine Sweetheart Dance and many other serviceable projects for the benefit of the school.

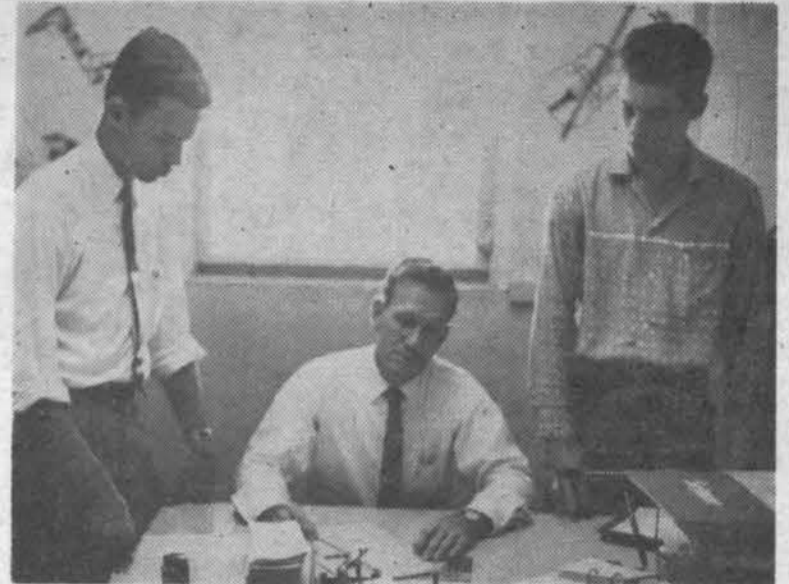

Young Men's Christian Association is the sponsor of the Hi-Y. The aims of the YMCA are to develop the character, dignity, and honesty of young men in America today.

Hi-Y will as last year be the brother club to the Y-Teens, which is a girls' organization. Yandell says that the Hi-Y and Y-Teens work together throughout the year in hopes of making many useful and newsworthy accomplishments.

Those persons who are interested in becoming a member of the club please contact President Lance Yandell in Room 323 or Mr. Melton (Club Sponsor) in Room 404.

# NFL Chooses Two

According to Mr. Floyd Boice, National Forensic League coach, Wayne Arnold and Arlene Cutter were chosen by N.F.L. in their last meeting to speak to the Hialeah Chamber of Commerce and Auxiliary to tell about Varsity Debate.

DOUGLAS LOGAN and JOHN MAGNUM, new H.H.S. Drum Majors, discuss half-time show with their new band leader, Mr. Logan Turrentine (center). Douglas has been in the band since the seventh grade, and John has played the drums since the ninth grade. This is Mr. Turrentine's first year here, coming from West View Jr. High.

# Turrentine, New Band Director

Logan O. Turrentine, formerly of West View High School, is Hialeah's new bandmaster. Mr. Turrentine who is thirty years old, holds two degrees: a Bachelor of Music and a Music Education degree, both of which he received at the University of Miami. While he was at the University, where he was drum major for three years, he received much help from Mr. Fred McCall, the bandmaster there. He also praised Mr. Al Wright of Miami Senior High School, from which he graduated. The new bandmaster was drum major of Miami High for three years, too.

Mr. Turrentine has always lived

in Miami except for two years which he spent in Indiana. He taught at Coral Gables High School, the University of Indiana for two years and at West View Junior High for one year. He said his classes here at Hialeah had been cooperative beyond expectation.

Mr. Turrentine said that the marching band is giving indications of working into a very sharp band, although it consists of a small number of students. But he also said that a standard had been set up and when a standard is set up you will naturally have a smaller band. A preview of the first half-time show was shown at the barbecue.

The main object the bandmaster is working for this year is to create music organizations which the students will be proud of and to work with the Tri-M group.

When asked his preference in music he said that he likes all types and doesn't follow only one type as many people do. Latin rhythms fascinate him because he is a percussionist. He doesn't follow rock and roll and believes it is just a faze like boogie woogie and jazz and as to whether it will last or not he doesn't know.

# Class Entertained

In Mr. George Sirianni's Spanish class if a student comes in late after lunch he must sing.

Sammy Barbieri was the first one late, and the only one so far on the second day of school.

As Sammy said, "This was the first time I was late and the last time."

The class looks forward to more singing but so far the students have been on time.

# Four Visit In Europe

A 1957 Hialeah graduate was back visiting his Alma Mater before he leaves for the University of Florida. None other than "Slug" Harvey who just returned from a European tour of France, Switzerland, England, Scotland, and Germany.

He was accompanied on this tour by Jim Phillips and Fred Granros, who have also returned to enter the senior class at Hialeah. Slug's twin brother, Butch, has continued the world tour and will come back for college the second semester.

The boys are Eagle Scouts and stayed during their journeys with other scouts.

Butch had an harrowing experience while mountain climbing in the Alps. Seven people were tied together. Butch slipped over the edge of a cliff but the next climber pulled him back.

## Mayor Promises New Steps in Recreation

By WAYNE ARNOLD

Mayor Henry A. Milander of Hialeah has made certain suggestions about improvements to be made in Hialeah's Park and Playground Program in the near future.

Milander stated that over the past two years Parks and Playgrounds have made many progressive gains such as: the building of Walker Park, and the further development of O'Quinn Park, and many others. "In the last two years Walker Park has developed into a full-fledged park with a beautifully laid out building for the youth of that vicinity, playground equipment, and lights for use of the park in the evenings so that we can give the young people something to do," Mayor Milander stated.

O'Quinn Park is now functioning with a complete and adequate playground equipment, baseball diamond and several different indoor sports," remarked a young person who often spends his time at the Park.

"Last year Hialeah was fortunate to receive a football stadium and

lights on Palm Avenue with the able assistance of Mayor Milander," remarked Co-Captain Jerry Askowitz. Mayor Milander stated last week that he was solidly in favor of working toward a swimming pool near the municipal auditorium, a baseball field, and further improvements. Several students and teachers have expressed their desire to further improvements in Parks and Recreational developments as soon as possible.

## Library Opens Band Plays At First Introductory Assembly

The library will open on September 24 for reading, reference work, and checking of books.

Between September 11 and the 23 orientation was held in the library. During this period all ninth, tenth, and eleventh grade English classes and history II classes were scheduled for a period in the library.

Mrs. Bradley states that, "By this time each student should have received his library registration stub. If any student has not received this stub he may stop by the library and pick it up. You are required to show this stub whenever you check books out."

Twenty-five new magazines have been added to the library. Such magazines as "Hotrod," "Motor Boating," "Natural History," "Popular Photography," "Sports Illustrated," and "Vogue" are now available.

Five hundred new books will be put into circulation as of tomorrow.

## Record Elects Staff Officers

Elections for RECORD staff were held in both classes, with candidates being selected from the Journalism II class. RECORD staff for the first semester is Deanne Fincher, Editor-in-Chief; David Rayfield, Associate Editor; Dixie Averill, Feature Editor; Marcia Newton, Business Manager; Jim Coppinger, Advertising Manager; Jim Richland, boys Sport Editor; and Kay Coomer, girls Sports Editor.

Journalism classes I and II are being held as separate classes this year for the first time.

The first year there were two classes, but these were made up of ninth grade students, and were both first year classes. Since that time, both classes have been combined into one, simply called "journalism."

## Seniors Reveal Graduation Plans

Now that you're a senior, what are your plans after graduation?

Betsy Stolnoff replied, "After I graduate from high school I plan to go to college, but where I have not yet decided."

Joyce George answered, "I have no definite plans after graduation. I do not plan to attend college, but I might go to a business school."

Ray Morris said, "After graduation I plan to serve two years with the Navy. On completion of my naval service I plan to attend college, and take up business management. After four years of college I then plan to settle down in Texas."

Linda Parker stated, "I would like to attend the University of Alabama."

Tish Groover said, "After graduation I plan to get married."

Keith Wiggins said, "After I graduate I plan to attend the University of Florida for about five years and study mechanical engineering. If things work out as I plan I'll get a good job, make a 'pile' of money and get married and settle down, I don't know where."

Cathy Falck said, "I plan to go to college after I graduate."

PRINCIPAL E. G. PEASE welcomes Hialeah students to opening assembly. Background is made up of the band, and the chorus under the direction of Mr. Logan Turntine.

## Howard Gold To Visit Africa

London, Paris, Rome, and Africa —this sounds like a "Dream" cruise, but in reality it is a list of a few places that Howard Gold, 19 year old senior at Hialeah High will soon be leaving for on September 23rd. Howard will be gone two weeks or more to Africa for naval training duty. He has been in the Navy Reserves for 2 years. This pasts ummer he went to Puerto Rico and Havana with the Navy.

Howard was born Aug. 6, 1938, Brooklyn, N. Y. He has been attending Hialeah High for four years. His favorite sports are baseball, football, and swimming. After graduating in June, Howard plans to enter the University of Missouri and major in Aeronautical Engineering.

## Junior Students Pose for Pictures

By DAVID RAYFIELD

Mr. Gene Cohen of Tooley Myron Studios, Miami, began photographing junior students of Hialeah High School for the Junior pictures in the school yearbook (Hialeah Hi-Ways 1958).

Approximately 700 juniors were scheduled during English classes. Unlike the photographs for the 1957 annual, the boys wore dark sport coats, white shirts, and black foreign hand ties. Girls wore black scalloped dresses made by Theresa Notarianni of the Hi-Ways staff.

## Senior in Japan Writes to H.H.S.

Last year a group of Hialeah students, under the direction of Mrs. Mary Watts prepared a notebook on Hialeah High life and sent it to Kitani Senior High in Minamicho, Osaka, Japan.

A letter of appreciation, which follows, was received from the students of Japan.

"The members of E.S.S. of Kitano Senior High School are very thankful for the very helpful and precious informations about your school lives.

"We were able to perform the Cultural Festival very successfully with your kind assistance on Sunday, June 23. No other clubs could do so well as E.S.S. which made our club very solid one. We would like to inform you how wonderful that Festival was.

"We planned and prepared for it two kinds of things. One was a drama, 'Cossette,' which is a part of the story, 'Les Miserables.' The other was an exhibition of photographs and various booklets and pamphlets which you have helped us to collect. We occupied a classroom where we exhibited them. Many students came to see them.

"We hope we can assist you in anything we can, and make a friendly relation between you and our E.S.S. Thank you again for your kind assistance.

"Sincerely yours,  
Tatuki Kashimoto."

Below are the addresses of four boys who wish to begin correspondence with some Hialeah students.

Datuaki Sato, age 15, 275 Ninamidori Mato Lasato, Higashiyodogamaku Osaka, Japan.

### New Year Brings New Teachers to Phys. Ed. Dept.

Hialeah High has two new faces in its physical education department to fill the vacancies left by Mrs. Berry and the former Miss Roberts.

Miss Quinn Kelley, one of the new teachers, is teaching in a high school for the first time. She graduated from Howard College in Birmingham, Alabama. At Howard, she was a member of Who's Who in American Colleges and Universities—a national honor society, and participated in many other activities.

Miss Kelley, a native of Alabama, now resides in Hialeah. One of Miss Kelley's pastimes is playing the drums.

Miss Kelley says of Hialeah High, "My first impression was that the students knew where they were going, and I didn't! The students were most helpful to me and the faculty took me in as one of their children. I'm indeed happy to be at Hialeah."

Mrs. Gladys Beatty is the other new addition. Mrs. Beatty received her Master's Degree from the University of Florida and has been teaching for five years. She last taught at Brookside School No. 54, in Indianapolis, Indiana.

Mrs. Beatty and her husband both enjoy dancing, tennis, and other sports.

To quote Mrs. Beatty, "So far, I think Hialeah is one of the nicest schools I've ever taught in. Something that impressed me, because I had never seen it before in a school, was the rising fervor of devotions each morning." She is looking forward to teaching here, as the students are most courteous.

### New Librarian at H.H.S.

Mrs. Mildred Brain previously of Mason Town High School in Pennsylvania is now a librarian at Hialeah High. She arrived in Florida last August.

Stated Mrs. Brain, "The only difference between the school I came from and Hialeah is the size. Mason Town High has an enrollment of only 500. It is a member of the Albert-Gallatin joint school system.

"I think Hialeah high offers more. Such as your language programs. You have a large faculty that proves very helpful. I found everybody very pleasing and friendly."

Mrs. Brain has two teenage children, an 18-year-old daughter attending Bryant College at Providence, Rhode Island who is studying medical secretarial work, and a 15-year-old son attending "All Saints Parochial High School in Mason Town, Pennsylvania.

Mrs. Brain was born in Mason Town, graduated from Northwest with an A.B. degree and has been in the teaching field since 1934.

### Volleyball Begins

Girls Volleyball is now in full swing. All girls who remained after school for three days, were placed on intramural teams.

It is from these teams that the varsity teams will be chosen. Mrs. Kathryn King is supervisor of the sport.

### GAA Organized

The Girl's Athletic Association, commonly known as the GAA's held the year's first meeting Thursday, September 12. First on the agenda was the electing of new officers who are:

President, Pat Devito; Vice-President, Carol Pritchard; Corresponding Secretary, Sharlet Keys; Recording Secretary, Diane Linguard; Treasurer, Myrtle Meeker; Chaplin, Carol Rollinson; Reporter, Pat Harris; Sports Chairman, Carol Todd.

60 new students joined the club following the initiation held at Tahoe Lake. All students were invited to a picnic at Carol Rollinson's home.

Sponsoring the organization are Miss Alleine Swain and Miss Quinn Kelly.

### HHS REPRESENTATIVES

(Continued from page 1)

City and County party chairman for the Nationalist Party.

Louis Pease gained success the very first day by being unanimously elected to the City Council. A member of the Federalist Party, he attended the Florida Boy's State Law School presided over by the Dean of Florida State University School of Law. After successfully passing the Bar examination he became a State Attorney. It was Pease's great honor to serve in the Florida Boy's State Senate. Previous to serving in the Senate he was nominated for the House of Representatives. Dunstall and Pease sang in the Florida Boy's State Glee Club. Deets served as photographer for the delegation.

Arnold and Pease both agree that the principals of government and its workings as exemplified in our great Democratic Institution and as taught at Boy's State will serve them in their future years. Arnold and Pease admitted that "while jealously guarding the free institutions and preserving the principals upon which our Republic was founded and has flourished, the purpose of the Florida Boy's State is to establish and maintain a peaceful world, and build at home a dynamic prosperity in which every citizen fairly shares . . . we pledge our best thought and whole energy to a continuation of our prized peace, prosperity, and progress."

### Wheel Club Plans Scoreboard Project

President Rickey Dressell announced the officers who were elected last year will serve this year:

President, Rickey Dressell; Vice-President, Jerry Chester; Recording Secretary, Lyle Charles; Corresponding Secretary, Bob Hunger; Treasurer, Benjie Lebow; Serg. at Arms, Harry Geissinger; and Parliamentarian, Ralph Morris.

President Dressell remarked that at the end of the first week of school, Wheel Club sponsored a dance. The Seven-Up Company donated drinks, which were given away free.

"We are working hard on a scoreboard for our football field. The scoreboard was begun last year and we expect to have it ready by the first home game," he added.

At the closing of the report Dressell stated that "We are planning to put on our annual Wheel Club Hop in May.

### Hialeah's DCT Department Receives New Instructor

The D.C.T. program of Hialeah has expanded to such a size, there has been another teacher assigned to relieve the heavy load on the first advisor, Mr. A. M. Haft. Mr. Horace Oliver, husband of Mrs. Margaret Oliver, biology teacher in Hialeah, has taken over the D.C.T. program, while Mr. Haft was placed in charge of the C.B.E. (Cooperative Business Education) program.

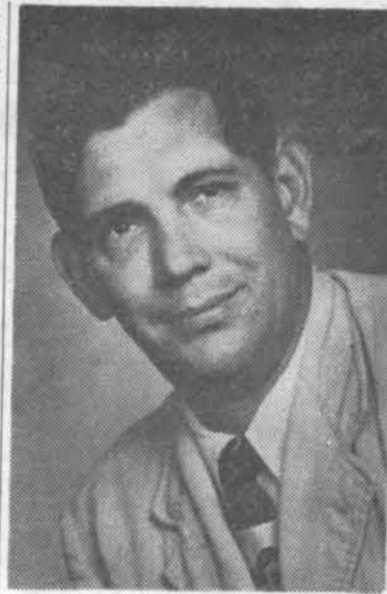

These two men are working side by side, each teaching their separate classes, but working together to better the program system.

D.C.T. or Diversified Cooperative Training, is for students who seek to train in work as well as in education. By this, they attend regular classes in the mornings and leave for their job at noon.

Such jobs these students are occupying are positions in Hialeah Hospital, well known insurance offices and other important jobs which will enable these students to acquire experience with education.

Now, the C.B.E. Program, directed by Mr. Haft, is for seniors only. This program enables students to work as secretaries, stenographers, bookkeepers and other such office work. The C.B.E. is for those wishing office work and the D.C.T. is for those seeking anything other than office work, and for anyone who is a junior.

There is room for one or two

Mr. Horace Oliver

more students in these classes, but they are now quite full. If any student wishes to receive more information concerning these programs, see Mr. Haft or Mr. Oliver in rooms 705 and 703.

Also there is a countless supply of books on every kind of job available with valuable information about college and their requirements.

All information is at 703 and 705.

### NROTC to Begin Program for '58

Chief Hansman of The Miami Navy Recruiting Station announced today that The U.S. Naval Reserve Officer Training Corps program goes into effect during the next two months. Applications must be received from all interested by November, 1957. December Scholarship Tests will be given.

Through this NROTC plan, young men, in top physical condition, and in the top 25% of their high school senior class, can attend such colleges or universities as: Georgia Tech, Auburn, Duke, Rice, and many others, with the Government paying the bill. Upon graduation these young men step into the ranks of the Navy's commissioned officers, or apply for flight training and earn their Navy Wings of Gold.

"This is a chance of a lifetime for young men who would like to attend college, get a Navy Commission, and fulfill their military obligation all in one neat package," stated Chief Hansman.

Young men who feel that they are qualified and would like more information on this program should contact their career guidance office at school, or the Navy Recruiting Office, Post Office Bldg., downtown Miami, or call FR 4-5277.

Senior boys who wish to talk further with a Navy representative about the above opportunities, contact Mr. Williams.

### Students Discuss Rock 'n Roll

Penny Stanley 12-1—"I think the morals of rock and roll are very low especially Elvis Presley. I think the basic music isn't very good. It's the same over and over. It lowers the intellectual plane of the American way of living."

Frank Baldwin 12-7—"I like to do my homework by the music, but I do not dance it."

Barbara Young 10-22—"As long as it's done right, I think it's ok. As for myself I don't do it. I like the slow dance."

Floyd Wambold 11-23—"I like rock and roll even though I don't dance it. I feel it's the desire of today's teenager."

Kathy Goff 10-19—"I don't see anything wrong with it in general, but I do see something wrong with all dancing. If Christ came today, I wouldn't want to be caught doing it."

Ralph Morris 12-19—"I guess it's all right for the kids that like it, but they can have it. I have no desire for this 20th century jazz."

Virginia Beasley 12-7—"I like to listen to it, but the dance doesn't appeal to me. I feel that the teenagers of today could find something more profitable to occupy their time."

Eddie Midgette 12-1—"I believe it's the fad of today. I feel that it won't last for another six months. The kids are going back

to the swing and slow romance songs."

Bonnie Boyer 12-2—"I like rock and roll, but I don't like Elvis Presley. I like to slow dance."

### TEACHERS

Mrs. Keyes—"I approve of rock and roll in moderation, both in the dancing and music."

Mr. Conn—"If there was something to rock and roll, it would be all right, but just what is it?"

Mr. Sirianni—"I like all music. I am absolutely indifferent to rock 'n roll."

### Wheel's Dance Begins Year

The Hialeah High Wheel club opened the after school activities with the first dance. The dance was held on the basketball court. Music was furnished by Jerry Chester with the help of Mike Powell, acting disc jockey.

Refreshments were served by the 7-up company, free of charge.

**BENJIE LEBOW** and **JERRY ASKOWITZ**, captain and alternate, respectively discuss plans for this year's games. Both boys will play in the opener with Central Catholic Friday night.

## Hialeah To Face Seven Double "A" Opponents

Hialeah will be hurled against seven class AA opponents this year. Edlson will play host to the Thorobreds on October 24 in the Orange Bowl. This will be the first year that the T-Breds will be playing in the bowl. Coral Gables will be returning after handing Hialeah a 46 to 6 beating last year in the Kiwanis post-season game. The T-breds will travel to Gainesville to play against the third class AA school. The team will leave here on Thursday, play on Friday, and stay to watch the University of Florida play Vanderbilt. The Kiwanis post-season game will send Hialeah against Miami Jackson at the Hialeah field.

Southwest will be the guest of Hialeah on November 8. Return-

ing for the second year will be Central Catholic. The Raiders fell to Hialeah 21 to 0 in 1956. Curley will be returning this year, seeking their third victory. In '55 the T-bred team fell to Curley 19 to 0 and the '56 season showed no improvement for Hialeah when Curley won 26-6. After cancelling the game last year, St. Theresa will be returning in hopes of their second victory. In '55 Hialeah lost 13-0. The Thorobreds' grid team hopes to slaughter South Broward in the second annual Homecoming game. South Broward took the first Homecoming game 26 to 0.

In the Turkey Day classic Hialeah will be pitted against the Pioneers of North Miami. North Miami has won both of the T.D.

classic games. In '55 the score was 7 to 6 North Miami. '56 led the hard-fighting boys of Hialeah to a 7 to 0 loss to the victorious Pioneers.

This year's team, although essentially the same team, is more experienced and better equipped both mentally and physically to cope with the larger and more aggressive teams which they will be playing this year. In our second year as a senior high school, we are attempting to play the best high schools in the state of Florida. We are assured by Head Coach Harold Hannom that each successive year will bring Hialeah's grid team up against better and larger teams until we are recognized as one of the reigning football powerhouses.

## Season Opens For Hialeah Swim Team

Coach James Reynolds wishes to announce that practice for the swimming team will start around the middle of December. The swim team, better known as the aqua team, has four returning lettermen, Jim Taylor, John Forrest, Leo Jensen and Liz Bass. Other members probably returning are Jerry Worley, Rusty Barrell, Phil Savino, Barbara Olson, Judy Kilogh, Judy Herold and Sharon Quinn.

Last year was Hialeah's first year with a swim team. Records were re-established at Benny Babcock Pool when Hialeah lost heavily to Edison.

**50 Meter Freestyle**—Boys record is held by Bill O'Neil with a time of 31.3 sec. Elizabeth Bass came in 8.3 sec. behind Bill to capture the girls record with the time of 39.6 sec.

**100 Meter Freestyle**—Ray Mal-schick had a time of 1:24.9 sec. to take first place. Elizabeth Bass once again took first with 1:28.5 sec. for the girls top honors.

**200 Meter Freestyle**—Boys top honors went to Phillip Savino with a time of 3:53 sec. There is no girls record.

**100 Meter Breaststroke**—John Forrest had a time of 1:41 sec. Again no competition from the girls.

**100 Meter Backstroke**—Bodo Pyko was first with 1:22 sec. Bodo

## Powell Tells '57 Football Background

By **MIKE POWELL**

Rejected from the Gold Coast Conference seemed to stimulate Hialeah's Galloping Thorobreds as their first went down on the books as a 21-0 win as a tribute to their fighting spirit.

The pigskin used against Miami Beach must have had a bit of the "animal" left in it as both teams vied for fumbling honors to a 6-6 tie.

The following week Broward's Bulldogs slowed Hialeah's T-Breds to a trot by handing them a 26-0 loss.

Rebounding from the Bulldog's bite, Hialeah out-played, out-gained and out-fought South Dade for 48 minutes and still lost 6-0. How could they lose to a team we out-gained on the ground by 194 yards and whose total yards rushing was minus 38 yards? This was typical of Hialeah's game with the other teams getting the breaks and the Thorobreds fighting vainly from behind with the clock running out.

Immediately after being taken by St. Theresa, 13-7, Hialeah's Thorobreds turned, and just as the old iron horse rolled over the mountain, they rolled over Tech High 12-7 as a dedication to Thorobred Park, the home track of Hialeah's Galloping Thorobreds.

Hialeah's arch rival earned a hard fought victory over the team on Thanksgiving Day although out-scored and "out-lucked" Hialeah never quit and gained the respect

was the captain of the '56 team. The girls did not take part in this race either.

of the entire North Miami team.

The last game of the season, even though the score was lopsided, was really something to see. With the State Champions rolling over the hard-fighting Thorobreds to 46-7 victory, the score was in no way an indication of the relative merits of the two teams. Coral Gables merely outmanned Hialeah's inexperienced team.

With the valiant Thorobreds giving away almost 15 pounds to a man, it was hardly noticeable in the clash of pads and the thunder of flying feet.

Ending with a 2-6-1 record, after a season in which almost every break went to the other team, a firm resolution was made by each and every player to never let it happen again.

Whenever Coral Gables is mentioned a gleam appears in the eyes of the player asked, such as Benjie Lebow, Leon Brooks, or Bill Salyer as in their own words and way of speaking they all carry the same meaning, "to never let Hialeah be disgraced on the football field as long as they are a part of Hialeah football."

If the character and spirit of Hialeah's teams remain as it is today, the students of Hialeah will never have to worry about being disgraced by a Hialeah gridiron team.

This year the schedule is the toughest ever faced by a band of fighting Thorobreds, but opponents of Hialeah should beware. Upon the field and in the locker room a new determination is shining in the eyes of the team members.

## Askowitz Eniers Last Year

Jerry Askowitz, halfback for the Hialeah Senior High School football team, told RECORD reporters this week that he has been fortunate to serve three years on the H. H. S. football team, and is now entering his fourth year.

Jerry in 1955 was selected the most valuable player of the year. Askowitz at that time was close to sixteen years of age and had much further to go in the field of high school football playing.

Jerry Askowitz has not only in-

terested himself in football, but basketball and baseball. "I earnestly feel that the athletic department in any school's program is an essential factor in the morale and intellectual aims of the school," remarked Halfback Askowitz.

In 1956 he was a member of the All-State basketball team and in 1957 he was and is a member of the All-Tourney, Class A.

Alternate Captain Jerry Askowitz tied All-City scoring last year with 96 points. Top athletes over the state consider this a major accomplishment of any football player.

Askowitz has received three letters in his High School football career.

# Raiders Pitted Against Thorobreds This Friday

*Hialeah Last Year's Victor of 21-0 Opener*

The Central Catholic Raiders had better think twice if they expect to be fed some Grade-A Horsemeat Friday night, because they will be biting off more than they can chew.

Central Catholic again Hialeah's opening opponents, last year died under the hooves of the Thorobred's 21-0. Last year's game was sloppy on the part of both teams.

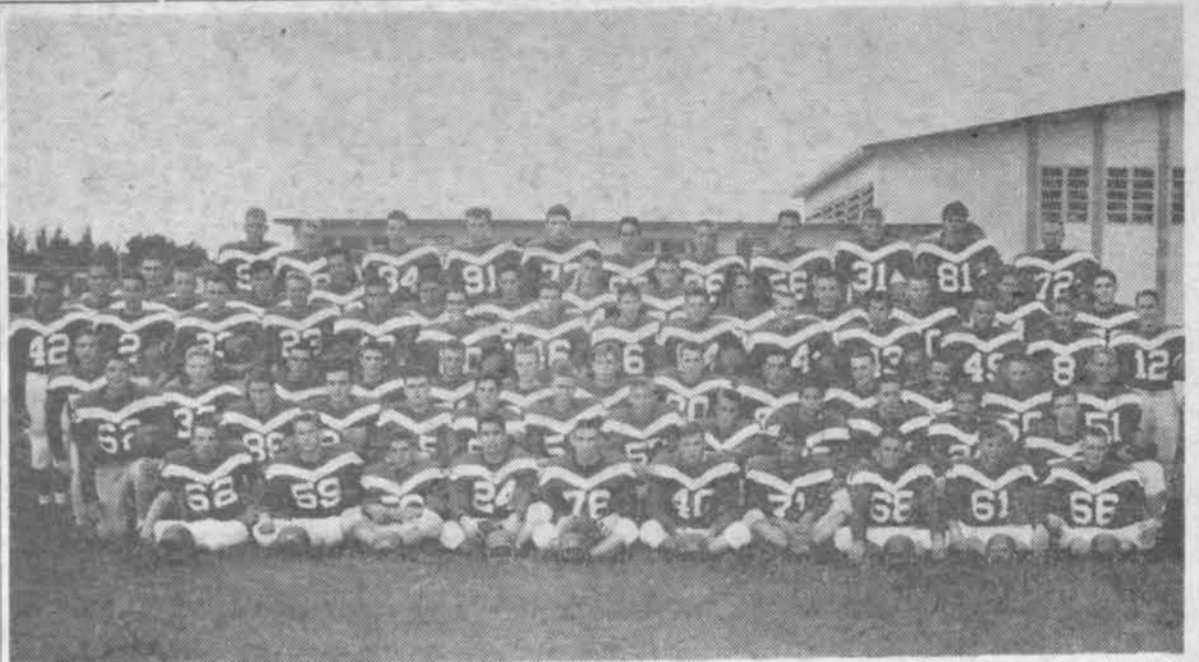

I think all the scoring was done on the errors of Central Catholic and if they had been a sharp team Hialeah would probably have been beaten because our playing was just as bad as theirs.

But this year we can expect a fast and hot-fired game, since both

schools have improved a terrific amount and are much more experienced in the wise ways of football. This year ought to show Hialeah wide awake after another year's playing under their belts.

The opening lineup is as follows: R. E., Erick Box; T., Tom Novak; G., Doyle Peterson; C., Charles Chastain; T., Benjie Lebow; L. E., Leon Brooks; R. E., Charlie Adams; F. B., Gary Chamberlain; Q. B., Paul Donaldson; L. H., Jerry Askowitz.

Here's hoping that we can take Central Catholic again this year by 21 points and keep that average up the whole season.

READY FOR CENTRAL CATHOLIC Friday night is Hialeah's opening line-up, pictured with their Coaches: Erick Box, Tom Novak, Doyle Peterson, Charlie Adams, Gerry Chamberlain, Paul Donaldson, Jerry Askowitz.

# Eleven Lettermen Return to Hialeah High Lineup With Fighting Spirit Still Intact

For the first time in Hialeah's history there is a full team of ca-

pable and experienced lettermen returning to continue their gridiron careers. Most of these lettermen are two- or three-year men with a hard core made up of four-year men.

A new man acquired from Lake Wales, is Bill Stanford, who lettered as right tackle last year. Bill is 5 feet 11 and carries his 180 pounds well.

Benjie Lebow, the captain of this year's team, weighs 170 and stands 5 feet, nine. What Benjie lacks in size he makes up in spirit and hustle at his tackle position.

The second man who will guide the Thorobreds' team this year is Jerry Askowitz. Jerry, the co-captain, weighs around 165 pounds and towers five feet 10, one inch above that of his captain.

Both captains agree if Hialeah plays to its capabilities this year, they should not meet defeat on the gridiron. As to playing in the Orange Bowl the captain said they will be playing to the best of their ability, but they're more or less indifferent to the fact that we will be playing in the Bowl.

Paul Donaldson, returning for the third straight year, believes that the Thorobreds should beat the Edison Red Raiders in the Or-

ange Bowl game on October 24. Paul tips the scales at 154 and is five feet seven and one-half. He also thinks they have a tough schedule.

Hialeah's lightning fast hard hitting, rough playing 165-pound fullback, Garry Chamberlain is returning for his fourth letter. Garry thinks that playing in the Orange Bowl is the best thing that could happen to Hialeah to raise the spirit to its peak. He also thinks it is good for the last year's men.

Charlie Adams, the five foot seven senior believes that every player looks forward to playing in the Orange Bowl.

Returning for his last year at the center position is Charles Chastain. The six foot, one, 160-pound center, thinks they have a hard schedule but that they have an even chance. Charles feels that it is an honor to be playing in the Bowl.

Tom Novack, a six-foot, one-half inch, 182-pound right tackle, is back for his third year. Tom thinks they have a rough but right schedule. He believes that the Orange Bowl game will help the team, help better the school spirit and increase the prestige for the name of Hialeah High School.

By JIM RICHLAND  
Record Sports Editor

The Thorobreds kick off this season with Central Catholic again first on their roster, a game the pigskin punchers claim last year as a 20 to 0 opening victory.

### OUT PRETTY LATE NIGHTS

The stompers of the "gridirons" have been keeping pretty late hours. I've seen them doing "jumping jacks" after nine o'clock.

### T-BRED SCHEDULE

The Thorobreds are scheduled to stomp these schools this season. Please make a note of a couple of date changes:

|                  |          |
|------------------|----------|
| Central Catholic | Sept. 27 |
| Curley High      | Oct. 3   |
| St. Theresa      | Oct. 12  |
| South Broward    | Oct. 19  |
| Miami Edison     | Oct. 24  |
| Coral Gables     | Oct. 31  |
| Southwest High   | Nov. 8   |
| Gainesville High | Nov. 14  |

|               |         |
|---------------|---------|
| North Miami   | Nov. 28 |
| Miami Jackson | Dec. 5  |

### THERE'S GONNA BE CHANGES

I got it from a good buddy of mine whose got a hand in local politics that there's going to be a few improvements made on Hialeah's athletic field by the present Hialeah City Administration (right before the elections, of course).

### GOOD LUCK, THOROBREDS

On behalf of the entire RECORD sports staff, I want to take this opportunity to wish the football team "good luck" during this season, with all their opponents.

### MEMORIES ARE MADE OF THIS

There are still boys on the football team I'll bet, that can remember when they had to run all the way to Palm Avenue to practice, and then after practice had to come all the way back to the gym to shower and dress.

# Hialeah Receives Trampoline After Three Week Drive

The RECORD recalls the drive the gym team and phys. ed. coaches put on just before school was out last year. For their efforts they came up with a victorious drive. The trampoline was purchased about a week before school started.

Coach Joe Regna gives his thanks to everyone and believes they should feel very proud because they accomplished, in three weeks, what Southwest completed in three months.

Boys gym classes will be using the trampoline this year, but it has not been decided about the girls.

Senior Roger Whitacker, senior Ernie Gilbert, and junior Richard Curwell will be performing on the trampoline on the gymnastics team this year.

Coach Regna wishes to announce that gymnastics practice will start October 31. All boys interested in gymnastics should see either Coach Regna or Mr. Bob Delaney.
