Students Prepare Projects For Science Fair

Hialeah Auditorium Named As Location of Exhibitions

Students of the Science Research Class are actively engaged in completing their projects for the Fourth Annual South Florida Science Fair. Hialeah's Municipal Auditorium will house the experiments of the young scientists.

Purpose of a science fair is to provide opportunities for the development, display, and exhibition, to the public, of a project of a student's undertaking; for parents and the general public to see the fascinating work that young South Florida scientists can do; the winning of recognition and awards.

POINTS OF JUDGING

Exhibits are judged on creative ability, scientific thought, thoroughness, skill, clarity and dramatic value.

Deadline for all entries is March 15. The Fair will start March 26 and continue through March 29. The public is invited to attend on the 27th and 28th from 2:30 to 10:00 p. m. and on the 29th from 8:30 a. m. to 4:00 p. m.

Sponsors of the Fair are the University of Miami, The Miami Herald, Dade County Science Teachers Association, and the Dade County Council of Teachers of Mathematics.

Senior Division includes entries in the fields of Chemistry and Geology, Physics, Engineering, Zoology (man), Zoology (other), Botany and Conservation and Mathematics.

STUDENT SCIENTISTS ready their projects for entrance in the annual South Florida Science Fair to be held March 26 through the 29. Mike Powell works intensely on his miniature rocket while James Gunter conducts experiments on his project of underwater communication. The boys are members of Mr. Thomas Barringer's Science Research Class.

Seniors Hear Class Program

It appears now that "Sputnik" has offset some drastic changes in the usual Senior Class Plans.

It was announced before a Senior Class Assembly by Mr. E. G. Pease that Hialeah High School Seniors would take examinations just as the lower class do. Mr. Pease read a report issued by the Dade County School Board to all high school principals. This report called for several changes to be made in the Senior Class schedule such as: **Graduation must be held on the last two days before school is out, there will be no Senior Skip Day unless planned, students have to stay in school the last day.**

Mr. Pease announced also that students could begin to purchase their announcements in their home rooms from the Senior Class Representative at 15c each. The caps and gowns are now for rent at 4.50.

The Senior Class meeting also discussed several other items such as the place to hold graduation. Charles Posey, past president of Future Farmers of America, suggested that something concrete be decided early concerning where the graduation will be held and how many people will each Senior be allowed to invite to the graduation.

Wayne Arnold, Senior Class Vice-President, suggested that the graduation be held in the School Auditorium, "because I feel it is only proper and fitting that the Seniors graduate from the home school."

The committee to select the Senior Class which was headed by

Marcia Newton, announced that the play would be "THE CURIOUS SALVAGE." Mr. White, director, announced the cast of the play.

Mr. Pease also announced that those students that have failing semester marks will have letters sent home by him.

It was brought to the Seniors' attention that they must begin to make applications early in trying to receive scholarships for college next spring.

Louis Pease, student chairman of several senior class committees, stated that he felt the Senior Class has a great responsibility ahead of it in deciding many things to be done in the next semester toward the complex of the school year. "I also feel we must get down to business in studying, planning, and preparing for our future, after all, we have a duty to ourselves and our folks in making a success in the future."

Blood Bank Thrives

Last year's Seniors created the first Blood Bank for Hialeah Senior High School.

Twenty schools are participating in the Blood Bank Drive that is being conducted this year by Mr. Thomas Moore and Miss Janice Long and the student body as a whole.

The bank surpassed its goal of 50 pints which enables it to remain in existence.

It is expected that the Blood Bank will have approximately 3,000 to 3,500 pints of blood withdrawn from the account each month.

Juniors to Earn For Senior Prom

Juniors will set to work in earnest on February 18 to earn money for the Prom which will honor the Senior Class of Hialeah High. Curtis Publishing Company will help them stage a subscription campaign which should bring in enough money to fete the Seniors to equal or even surpass the established custom.

Representatives will be present to instruct Juniors in the gentle art of persuasion so that friends, relatives, and parents will be willing to pay up their yearly subscriptions to their favorite magazines which in turn will defray the expense of a Prom ticket.

Fifty to thirty-three and one-third percent of the sale of the magazines will go to the Junior Class and the amount over the cost of the Prom will go into the Junior Class treasury for their expenses when they become seniors.

Any junior who sells enough magazines to defray the expenses of his ticket will be given that ticket free of charge. Junior Home Room teachers and Mr. E. G. Pease, principal, were hoping to set a minimum of six dollars per ticket.

The selling campaign will take only one week's time and home room teachers will keep individual records for each student. Those who contribute nothing will have to purchase outright the Prom ticket.

Senior Prom plans are now in the making and will be announced as soon as the junior representatives meet with co-sponsors, Mrs. Daisy Royer and Miss Nancy Egan to agree on date, place, and other arrangements.

AWARDS

Awards include two trips to the two outstanding Senior Division exhibitors to the National Science Fair competitions at Flint, Michigan, a University of Miami Tuition Scholarship to an 11th or 12 grader winning honorable mention or better.

Students are advised to keep their exhibits simple, sturdy, and easy to understand.

Last year Anita Bartlet entered her insect collection which proved to be a prize-winning project. John Buckley also won honorable mention for his butterfly collection.

PTSA Announces Debate Date

After being postponed from the scheduled February 4th date, PSTA has set February 11 for the first meeting of 1958. The program is sponsored by National Forensic League under the sponsorship of Mr. Floyd Boice.

A debate moderated by Arlene Cutter will be presented on the subject resolved: That high school service clubs should be abolished. Wayne Arnold and Danny Harbolt will uphold the affirmative and

Linda Greer and Paul Donaldson will take the negative point of view.

Since this meeting is also honoring Founders' Day, the first four presidents of the Hialeah Chapter will be recognized for special honors, Mrs. Heisel, Mrs. Hoy, Mrs. Ray and Mrs. Edwards.

One hundred percent homerooms will get recognition at this meeting also.

Civitan Club Sponsors Essay Contest

First main project of the newly organized Junior Civitan Club of Hialeah High is the promotion of the annual Citizenship Essay Contest.

"Good Citizenship in the Schools" is the subject that has been chosen for this year's essay. The contest is open to seniors only.

After being judged locally, the essays will be sent to the District chairman. From there the winning essays will be forwarded to the International Chairman.

Factors taken into consideration in the judging are spelling, punctuation, capitalization, paragraph structure, and originality of thought and expression.

All essays should be neatly typed

double spaced, on white eight and one-half inch by eleven inch paper. The student's name is to appear on a cover sheet containing the title and high school, and sponsoring club. Essays should list all references used, if any.

First place receives a \$1,200 scholarship; second, \$600 scholarship; third, \$250 scholarship; fourth, \$100 scholarship; fifth, \$50 scholarship; and sixth, \$25 scholarship.

Local awards consist of: first place, two-year scholarship to the University of Miami or \$475 per year for two years to any accredited university of the state of Florida. And second place, a two-year scholarship to the University of Miami.

Teenage Girls Challenge Fibber McGee's Closet

At one time or another all girls have been rudely awakened to the fact that they would either have to clean out their closets or risk losing themselves in this jungle of feminine attire.

Upon opening the door to this den of confusion, you are confronted by a tangle of clothes hangers upon which hang odds and ends of what is laughingly called a wardrobe.

One look at this impregnable maze of man-made materials and your mind starts to wander to thoughts of going back to bed. Another look at this hole in the wall and you set your mind to the task ahead.

An hour later you are up to your neck in a monopoly game which had rained down upon your head when the box was upset by a chain reaction of the dislodging of a nest of clothes hangers, to which was attached a belt, the buckle of which was caught on your uke, on which the monopoly box was setting.

Way up in the dusty dimness at the top of the closet is a shelf which contains a large assortment of rather-to-be-forgotten items, such as, a rock collection of small boulders hauled from the mountains of Carolina, and a number of out-grown formal, too good to be thrown away.

Now comes the floor. It is covered with a three-foot layer of "miscellaneous mess".

There must be 14 pairs of shoes, too old to wear but too good to throw away. Over all of this is a layer of dust. Thus time had come and gone, for after another hour of cleaning there was hardly a dent in the formidable bulk of the bulging closet.

Why put all that energy into cleaning something that would be in the same condition in a couple of days. The door is shut as well as can be managed with the leg of a pair of dungarees sticking out.

When starting to open the door and push it in, you decide that it can wait until tomorrow. Without a last look the room is vacated with a clear conscience and the thought, "Tomorrow's a better day anyway."

Earthbound

When your troubles seem many,
And your answers remain few,
Heave you 'ere wished for some place to go,
A rendezvous in another world?
I know of the perfect place,
A land so far away,
And if I were not earth-bound,
It's there I'd always stay.
There—a release from earthly burdens,
So far, yet, close within our touch.
A journey into a splendorous night,
Up, up, on a path of moonbeams,
Land of peace, fulfillment of dreams;
An imaginary paradise of our own making,
Wisdom, hope, happiness,
All created by your own special desires.
Your destination is the starlit sky,
At night when alone with your thoughts,
You traverse, not by body, but by spirit,
A journey of which many have dreamed.
Though our fingers may never reach the heavens above,
Our souls touch the sky that abounds,
So we mortals are not now,
Nor ever will be, truly earth-bound.

Advancement Depends Upon Our Learning

Have you ever stopped to think why the American people are not still using horses and carriages, the old wood stove and the spinning wheel?

Why is it that we now get in the car, step on the gas and go, instead of having to hitch the horse to the buggy? Why is it that we merely turn a switch on a stove and receive heat, instead of having to put wood in the stove to start a fire.

Why is it we can just buy a shirt and omit the original spinning of the yarn, weaving of the cloth, and the sewing of the shirt.

The reason is because of the fact that we do not have to start from scratch. Today we pick up where others left off and advance even further. But before we can take over where others left off, we must know what they have done.

This is where school comes in, we must learn so that when our turn comes to take over we will be prepared to advance, in whatever field we enter into, to a higher level.

They say Abe Lincoln wore a beard
Because his face was thin
But I believe the reason was
The thing came with his chin.

A Turning Point in History

By WAYNE ARNOLD

We have suddenly discovered that the richest nation in the world, with the truest democracy, the greatest freedom, the largest rewards in human and economic values to the individual, has been out-stripped in vital areas of science, technology, and production, by a despotism that doesn't provide a decent standard of living for its people.

By a single spectacular scientific achievement we have been brought face to face with the fact that Russian children are today better educated in certain vital respects than our own, that Russian basic production is increasing at a much faster rate than ours, and—perhaps most serious of all—that Russia stands today in the eyes of the majority of the members of the world's population as more skillful, more powerful, yes, and ironically, more peaceful, than we are.

Even though these somber facts were foreseen and foretold by many such as the former United States Senator from Florida Claude Pepper they have come as a shock and rudely removed from our eyes the scales of cockiness, of complacency and of the pride that goes before a fall. I like to think that beyond that they have also removed one barrier that has stood too long between this nation and its destined greatness.

That barrier was ignorance—by design or neglect—of the true state of our affairs in the world. We didn't know the whole truth; perhaps we didn't want to know. Now we are getting the truth—getting it from the Russians.

I expect this truth will do two things. It will make us use the strength we have—the strength of mind, of resources and of true values that is ours.

But it will also make us see, as we have not before, the fateful paradox: that there is a race of arms in which we must again draw abreast, but that this has now become a race that no one, neither we nor any other nation, can ever win.

I suppose we had to fall behind before we could learn that unless we can stop it the race to kill can end only in the dead heat of extinction and oblivion.

Shock is a momentary sensation. And I suppose that the opportunity that shock has brought us in a dangerously fleeting one. The signs of our timely response seem to me still uncertain, still short of the magnitude of the emergency. "And if the trumpet give forth an uncertain sound, who will gird himself for the battle?"

Senator Claude Pepper has stated that the key to the future of the country is to stress scientific training in education and some belt tightening, some more discipline and some more political courage on both sides of the fence.

We needed Sputnik. It is sure proof that God has not despaired of us, for it awakened us while there is still time to remember the kind of people we are, or ought to be.

Act Mature in All Ways

Sports cars were made for speed, and so they enter races. Hialeah Race Track is open for horses to run, so naturally horses race there. There are contests to test the speed of sailboats, yachts and bicycles. All these, when organized, are enjoyable, and comparatively safe. But what, if in a boat race, one boat should suddenly break into a high speed and weave over the water in front of the others? Something's bound to happen!

The same goes for a school and its students, for just as the one boat can create much confusion, just one hurried, careless student in a crowd of people going to and from classes can really cause havoc.

Stairways always create a problem for teen-agers because they are fascinated by them. Some schools even have no stairralls. This is to keep teens from straining their backs when they push someone over the side. Of course, Hialeah students are much more mature but still a problem exists. Because, between pushing and squeezing as a few hurrying people try to make the stairs before the descending crowd gets there, the fastest way down is sometimes by the nearest bannister. And by the same token, its faster if one walks slowly as possible in the falls to avoid running into anyone else. For who can run with a broken leg or a cracked skull, results of a nasty fall?

Notes From The Record

By DEE FINCHER

When the area around the auditorium was turned over to the students for parking, Mr. E. G. Pease personally requested that students pull forward into the parking spaces.

Exhaust fumes leave unsightly spots on the auditorium wall while on the other side, overhanging bumpers knock down fence posts.

It is a sad realization that Hialeah students do not have the devotion to their school to comply with the Principal's wishes to keep up the appearance.

It's true that it is much easier to get out in the afternoon if the car faces outward but it does not consume an overwhelming amount of time to back out of a space.

Since it is labeled the "Senior Parking Lot", the Senior Class should be held responsible for the appearance and observation of the rules.

SPACE WANTED

A larger number of cars could be put into the lot if each parking place were marked off with lines. Much of the space is wasted simply because students are inconsiderate in their parking.

WHERE ARE THEY?

Much has been said about senior stickers but as of yet the stickers are not available.

Many high schools in Dade County envy Hialeah's Club program which enables all the students to participate in club activities. Several students, who live in the outlying areas of Hialeah, are required to catch school busses directly after school. The Club period remedies this situation. But as yet, this year, the club program has not been started. What is the matter? It has been promised to the students right after football season. Here it is the beginning of the second semester and students are still waiting.

Seniors Should Realize The Benefits of Exams

There has been, during the past few weeks, much commotion over the fact that Seniors will be expected to take final exams.

Seniors are protesting that this is unfair and that it goes against our tradition. The favorable remarks concerning the subject have quickly been stifled and overshadowed by the protests.

But no matter how much seniors may dislike this prospective they cannot that it may be to their own advantage.

Many teachers have made the remark that the more tests you have the better prepared for college you become, and they should know. It makes no difference whether you are going to college or not, a knowledge never hurt anyone.

Additional Tax Contributes For Recreation Facilities

If the five percent increase in the Utility Tax is passed by the Hialeah City Council at its next meeting, then the students of Hialeah will have 180,000 dollars for four years to spend for recreation and park improvements.

This money will no doubt benefit in the improvement of the Municipal Football Stadium, a track cinder will be installed, perhaps a baseball field, and many other improvements which are so badly needed in the recreation and park area today.

It is felt by many that this money received will do much toward the improvement of the city and most of all, it will give young people something to be proud of.

Hialeah High Senior Plans Engineering Studies at Duke

Tentatively planning his college education at Duke, Robert Hungler, five-foot, five and one-half inch senior will answer the call of the United States for engineering, as a mechanical engineer. He wants to follow this with aeronautical engineering and then into missile research.

A native Kentuckian, Robert has been a student of Hialeah for six years and holds membership in Wheel Club, National Honor Society, and Student Council. He also participates on the school bowling league.

His interest revolves around sports, reading, (of which he does quite a bit) and playing the saxophone. The sax is merely a hobby. "The way I play the sax, it's not a skill but a hobby," said Robert.

Spanish Class Discusses Bagging

Sometimes in Mr. George Sirranni's Spanish class, fourth period, the class gets off on to another topic besides Spanish.

One day the topic was bagboys. No one really knows how this started unless it was because of Sammy Barberi throwing his arms from one side to the other. When Mr. Sirranni asked him if he was a bagboy, Sammy replied "Yes, my arms are always going like this even in my sleep." Then Mr. Sirranni popped the question, "Did you ever find your dresser cleared off in the mornings with the things in a bag?"

One morning when Mr. Sirranni was making toast, it came out like a pretzel. Why? Because the bread was bagged at the bottom of the bag with canned goods on top.

One student went grocery shopping to return with tomato juice instead of tomatoes. Sammy remarked that you couldn't put heavy things on the top of the bag because it would be top-heavy.

"All in all," said Mr. Sirranni, taking the defense, "It's not so easy to be a bagboy. After a bagboy gets wound up so fast it is possible for the bread to accidentally land in the bottom of the grocery bag."

The Dog Jumped Over the Moon

Hi diddle diddle
The pooch in the middle
Poochnik took off for the moon.

The Spartans on Mars
Were counting the stars
As the Marsians sang Elvis's tune.

The little dog cried
That he went for the ride.
But in poochnik, he ended too soon.

Robert enjoys mathematics very much and decides the most interesting course he has is trigonometry.

Attempting to remember some of his past experiences, Robert recalled that he had once been caught in a flash flood in the small town of Beaver Dam, Kentucky. "Other than that," he commented, "the most interesting thing which has happened to me is they keep throwing me into a hospital."

Robert has a serious air about him but as he puts it, "I can have fun at the right time and I can take a serious view on anything."

A sense of humor is one thing which Robert does not lack. "I give you my opinion on anything. Just ask me", he says with a grin and he is known to keep his word.

The brilliant student has definite views concerning final examinations. "Every senior has so much to do at the end of the year, he doesn't have time to study. It should be a senior privilege that if a person keeps his grades up he doesn't have to take an exam. I don't think that it is fair to the seniors of this year."

You'll Find One In Every Crowd

The scene is set, the time has come, all characters are present. In one corner at the party was a group of laughing boys and girls. And in the other stood Lonesome George. He's the one in that crowd.

Another time, another place, the corner drug store, with a booth full of giggling girls, happily sipping cokes. All, that is except Pouting Patsy. She's the one in this crowd.

And last, at school, we see kids, teenagers, all bubbling with life and exuberance. That is, all until we turn the corner and come to the one in this crowd. With that drooping mouth she looks like she has just eaten some sour persimmons. She is just like all the others. The one in the crowd that doesn't know how to smile...

Confucius gives the moral for these people. "Remember, less muscles it takes to smile real big and brighten up your days."

Safety Contest Open

American Motorist Insurance Company, long aware of the problem of traffic fatalities, has been waging a continuing campaign to help reduce the death toll of young people.

As a part of this crusade, American Motorists in sponsoring its third annual high school safety contest.

Purpose of the contest is to urge all schools to plan and conduct a safety program. It enables the school in making a real contribution to the community's welfare.

Awards for over all school auto safety campaign for auto safety programs are: first prize, \$200; second prize, \$150; third prize, \$100; fourth prize, \$75; and fifth prize, \$50.

Duration of the contest is March 3 to April 11. It is a contest for the entire participation of the school.

Suggested activities include: declare a safety week, display safety posters, hold safety assemblies, hold slogan, poster, and essay contests, and hold a safe driving contest.

Students of Hialeah High are urged to think about the program and make plans to enter this nation-wide contest.

'Peg' Will Be Remembered

Brown hair, brown eyes, and pleasant smile are the outside coverings of a warm package of personality named Margaret Molinari.

Better known among her friends as "Peg" this five feet, five inches tall senior was born in New York State, but has made Hialeah schools her past career, having at-

tended them since her first year of school.

An avid sports fan, Peg went to every football game that Hialeah played this year except the one in Gainesville. Besides football, Peg likes bowling, swimming, horseback riding, ping-pong, and basketball, and goes to all of Hialeah's basketball games that it is possible for her to attend.

She is an active member of Anchor Club, and also on the Hi-Ways Annual staff. For the past month she has been helping make the students "cough up" the money for their second annual payment.

Other seniors may graduate from Hialeah and be forgotten, but for all who take journalism, the name of Margaret Molinari will live on. Her name is written on the ceiling of the journalism room in three places.

Paper Goes to Press After Long Struggle

By Donald Dewhurst
'Twas Friday morning
And in the school
Were several students
Not heeding a rule.

They were all gathered
To work on the paper,
But the real fact was
Appetites don't taper.

There were donuts and cookies,
Brownies and coke,
Water and coffee.
The work was a joke.

When all were thirsty,
The coffee pot steamed,
But there were no cups,
And coffee hags screamed.

The paper was scheduled
To go to press.
If it ever makes it,
Oh, What a mess!

I Remember Sharon

By Pamela Salmon
In a small room in Hialeah High School, classes were going on and I saw a person looking at me with great interest. Her name was Sharon Quinn, a Southern girl from Kentucky, the Bluegrass State.

Sharon is almost five feet seven and one-half inches tall, about 135 pounds, with brown hair and blue-green eyes. Her face is round like an egg and her bull neck sets off a very good looking face.

I met her in the year of 1956, we were underclassmen, ninth graders. We had boy trouble together and solved it at the same time.

Swimming season came and I joined and so did Sharon. She was the best girl back-stroker on the team. I was a fair swimmer, so in wanting to help, she tried to help me, but in vain she failed.

Through the summer we kept up with each other even if we were half across the United States from each other.

Now she is a very popular sophomore in high school. Everyone likes Sharon and hopes to see her for the next two years.

Who Broke the Ceramic?

"Who dunnit?" is the perfect question for what happened in Mr. Parson's fifth period crafts class last Thursday, January 16, as Mr. Parson and his class viewed the broken leg of a large ceramic bull.

The bull had been brought in the night before by one of Mr. Parson's students in the adult classes. He had brought it to be glazed. They still do not know who broke the bull's leg.

Book Lovers Can Get Knowledge

By Julie Ballard
Books! Books! Books! I'm going mad! A little bug scurrying around the library one morning felt his ear drums quiver at these words, coming loudly out of the mouth of a student who had on his face a desperate and disgusted look. Here was a Thorobred who can be classified, not as a book lover, but as an "I want to be a book lover."

What constitutes the plight of a person like this? Take the student in the example above. Here, on what seems like endless rows, among what appears to be millions of books, is supposedly one book just for him. How does he find it? Of course the answer depends on the individual but this one proceeds with an "Eenie Meenie Minee Mo, which book I'll get no one will know." If this is the case his book could be anything. (Just to satisfy your curiosity he wound up with a book of poetry who's first verse was entitled Ode to a Hungry Alligator). Fine, if he likes alligators.

Then there's the person who approaches the book somewhat like a white man goes up to a tribe of dark black African cannibals. He hesitantly puts a hand out, then jerks it back in a lightning draw that could run close competition to Wyatt Earp. For goodness sakes, don't be afraid to touch a book. IT can't eat you, although no one can tell about the cannibals.

But all is not lost. Because he has confidence, he has courage and he has a desire to read books. The fact is he too can become a book lover. He too will then be privileged to keep the night lights burning until the wee small hours of the morning to finish his book. And see if the captain really went down with his ship, and if the butler did do it.

Future Secretary Represents Class And Twirls Flags

Shimmering blonde locks and a warm smile are the trademarks of Hialeah High's Carolyn Collins.

Flag Twirling, Honoria, and National Honor Society claim this five-foot, six inches tall senior as a member.

Although a Yankee from Pennsylvania, Carolyn has lived in Hialeah for five and a half years. She was graduated valedictorian from Hialeah Junior High.

She has aspirations of becoming a legal secretary, and has centered her courses around the business department.

After a day at school, Carolyn reports for work at the office of Joseph Boyd, where she does clerical work.

For relaxation, Carolyn indulges in dancing, and is an ardent movie fan.

During her high school years, she has remained very active, serving in the capacity of junior class officer, student council representative, and in Y-Teens.

Penny Likes Languages

With the knowledge of French, Spanish, German and Russian, and of course, English, Julia Stanley, known better to others as "Penny" is planning to make a career of Linguistics. Aside from her knowledge of these languages, she is quite active in the choral department of H. H. S. She has just recently returned from the Tampa Clinic, along with other choral students.

Penny is an active member of Tri-M, as well as being the inter-club representatives. "The Crescendo", a newspaper put out by this club, is edited by this active senior also. She gets a lot of enjoyment out of seeing French movies. She has been going to Hialeah High for a number of years and she thinks that it is just tops.

Odds and Ends of Daft Definitions

By Nancy Kuchenbecker
Mealtime: When teens sit down to continue eating.
Perfect timing: Being able to turn off the "hot" and "cold" shower faucets at the same time.
Home: A place where a man can do as he pleases if he is single.
Bee: An insect with a stinger three-tenths of an inch long. The other 18 inches is your imagination.

Fancy Facts and Foolish Fun

By Marcia Ann Newton

Tish Paints

Tish Groover, Record Art Editor, is now in the process of painting a mural. "It's five feet, ten inches long, and eleven inches high, and I'm using oil paints on canvas." In her description of it she says that it is a herd of wild horses being driven by two Indians.

Tish has a mad love for horses, and as she has said many times, "I can draw a horse for you any time, but when it comes to people, well..."

School Full!

Hialeah High school had a full house on the supposed holidays after exam week. There was to be no school for any students, but the teachers returned to correct papers. Anchor club volunteered its services to help the teachers on those days, students returned for sports practices, and the Record staff returned to put the paper to press, and the Y-Teens club members came to give coffee and donuts to those who gave blood to the blood bank.

Girl Scout Reunion

The Miami Springs Girl Scout Club had a reunion for the first time since the last meeting over five years ago. Another is planned in the next five years time. Most of the girls who belonged are students at H. H. S. and some at Jackson and Notre Dame. Some of the girls who came were: Sandy Cowern, Virginia Bopp, Linda Lott, Linda Leonhardt, Betsy Stolnoff, Peggy MacAvoy, Audrey Ericsson, Carla Howardson, Ellen Austin, Marilyn Stone, Deanne Fincher, Marcia Ann Newton, and Beverly Golden. The troop number is 41.

Tennis Team Underway

Mr. Jack Kaspar gets the tennis team underway for its second year in existence. A schedule has been prepared and made up for games and practices.

Jack Appointed

Former Record sports writer, Jack Starkey, has received an appointment to the Air Force Academy.

Burlage Writes

John Burlage, past student of H. H. S., and his wife, Janet, have written a short letter to the school paper staff, and tells that he now lives in Texas. Anyone wishing to drop him a note, his address is John Burlage, Lavaca, Texas.

Candy to Be Sold

The Hialeah High Music Department will sponsor a candy sale February 4 through the 17th. The members of the band, the orchestra, and the chorus will sell the candy in the Hialeah-Miami Springs area.

The much needed money will go toward robes, uniforms and musical material for the Music Department.

Anchor Members Assist Teachers

During the recuperation period following semester exams, Anchor Club members returned to school to assist teachers in the grading of exam papers. Some 21 teachers requested members to help them with their tedious task.

Benches To Come

More stone benches will be contributed to the school a few at a time as the club feels that the present number is not adequate.

A contribution of twenty-five dollars was given by the club to the Cerebral Palsy Fund during the recent telethon.

Dance Plans Begin

Key Club is collaborating with Anchor in planning the annual Nautical Ball. The date is set for March 29.

February Fifth Is Club Day

Club Day, for its third year in Hialeah High, will commence on Wednesday, February Fifth. This day is designated for club meetings and timely occasional assemblies. Each Wednesday, the entire student body will either go to the clubs which they belong to, or they may have a choice of going to a specific assembly, (which will be announced before hand.) Each club decides whether they choose to meet every week or every other week. Club cards must be shown to the homeroom teacher before any student will be excused. (These may be obtained from your club's sponsor).

"Club Day" is important to many students who wish to attend club meetings but cannot stay after school for them. Thus this day enables more students to participate in more school activities.

What to Do Now?

"Oh! My, I wonder what club I should go to this week. Should I go to Anchor, or should I go to Thespians?"

"I'm really in a spot. JoAnne, do you know if there is anything important going to be discussed at Anchor meeting today?" "I don't really know, Sue," answers her fellow club member.

One of Sue's friends tells her that the Thespian meeting is a very important one and she shouldn't miss it.

Another friend tells her to be sure and not miss the Anchor meeting. "Oh! my now what will I do, two meetings at once and I have to make a choice of which club meeting to go to?"

If you were in Sue's spot what would you do?

Past Student Writes HHS A Letter of Appreciation

Miss Anne Lipko, past graduate of H. H. S. has written a letter of appreciation to Mr. E. G. Pease, Principal, and the whole school for the many things she has learned here in the past years.

Anne, a member of Honoria, and a Cheerleader, writes of her gratitude. She is one of eleven children, and has a brother that also attends Hialeah High, Andy Lipko. Dear Mr. Pease:

This is not a business letter, but an expression of personal feeling toward Hialeah High and to let you know I appreciate the education your school gave me.

CBE Class Open for Recruits

"Earn while you learn" seems almost impossible with the load of homework these days plus carrying the responsibility of holding down a job.

But a new program has been set up just for the occasion. This program enables a student to attend regular classes till noon and be dismissed for an outside job, working till five in the afternoon. This held many students who would normally have to work till nine, but through the program he may work his hours in the afternoon instead of after school.

Now, the CBE Program (Cooperative Business Education) is set up under the direction of Mr. Albert Haft, for all seniors interested in working as a secretary or some type of business desk training.

The requirements for this class is—a) senior (boy or girl); grades —b) better than average scholastic—c) some training course in the

field desired; such as one year of shorthand or typing, etc.—potentialities of a good responsible worker. Any students interested in joining this class may see Mr. Haft in room 705 anytime before school. One need not have a particular job in mind but a good idea on what type. Mr. Haft offers his students employment that has been screened fully.

Mr. Horace Oliver is head of the DCT which takes both juniors and seniors into its program. This class offers employment of all other types of work such as salesman or working as a mechanic, or furniture or window designing. Any things the student wants, the DCT advisor tries his best to employ that student.

"Applications cannot be made too early. In fact, students had better hurry and contact us, maybe just to let us know they are interested, but, please contact us in the near future," commented Mr. Haft.

John Kolodgy and John Bartlett Reveal Plans for Senior Parking

John Kolodgy and John Bartlett have announced that it is their desire in the immediate future to do something toward setting up a decent Senior Class Parking situation.

These boys stated that they felt something could be done to offer more parking space for the Seniors behind the school auditorium. If the proper parking methods go into effect that we are proposing and the Key Club is sponsoring then

Seniors will have facilities that they didn't have before, remarked Kolodgy.

Kolodgy, who is acting as Chairman of the program has been chairman of many other successful school functions such as operation of three consecutive years of the Hialeah High School Calendar, and the coke stand for two years.

Kolodgy and Bartlett feel that if assistance is given by the students and downtown administration in Hialeah then this urgent problem of parking will be eliminated in the very near future.

J. C.'s Installed

The Junior Civitan Club of Hialeah High had its installation of officers and members at Jerry's Restaurant on January 17. Officers installed were: Blake Rowe, president; Barney Evers, vice-president; Danny Harbolt, secretary; Larry Castro, treasurer.

The Hialeah-Miami Springs chapter of Civitan International is the sponsoring body, while Mr. William Bolick is the club's sponsor at school. President at the installation were the Lt. Governor of the state chapter of Civitan International, Wyatt Johnson, and the Director of Student Activity at Miami Edison, Mr. Thomas.

The basis of the Civitan Creed is a quotation from the Bible. "The goals of our club are to follow the Golden Rule by building better relationships between students and faculty, and community and school." Said Danny Harbolt, "We hope we can do as good a job as our brother club at Edison, which is the outstanding club there."

County Affair for DCT, CBE Planned

It seems like the two DCT and CBE classes are never ceasing in going to county affairs. Another annual cooperative Educational All-Day Meeting on February 4, is anxiously placed on the calendar, for this is one annual affair they all look forward to. It even falls on a school day, but arrangements have been made through the school and the cooperation of the employers of each student and a complete day off is planned with entertainment

In addition to a wonderful time with the company of every DCT and CBE class in Dade County, there is a complete and well rounded program planned, which includes contests on the skills of students in shorthand, typing, selling and similar events.

Prominent Personalities Studied By American History II Classes

The American History II classes are well into their study of the men and women who helped to make history.

Dr. Sigmund Meumann composed a bulletin in which he had selected ten men of our historical era and pointed up ideas of each which have affected the lives of the people. These men which the classes are studying are: Woodrow Wilson, Nikolai Lenin, Adolph Hitler, Winston Churchill, Mohandas K. Gandhi, Albert Einstein, Sigmund Freud, John Maynard Keynes, Frank Lloyd Wright and Albert Schweitzer.

In the Atlantic Journal there are articles about the most important women of the time. The students of these history classes elected to

subscribe to this newspaper so that they would be able to study the women as well as the men.

The list of the prominent women are Jean Harlow, Annie Oakley, Ilse Koch, Eva Peron, Nelle Bly, Anna Sage, Carrie Nation, Eva Braun, Clara Peracci, Sarah Bernhardt, Hetty Green, Amelia Earhart, Fannie Brice, Ana Pauker, Gertrude Stein, Mata Hari, Aimee Semple and McPherson.

The students of the history decided to study these prominent men and women to see if they could find some interesting and important information about each one of them. Students who choose to give report on these people will be given credit.

Jarrett Recovers From Rare Disease 'Porphyria'

Richard Jarrett, a five-foot, seven-inch, blond hair, blue-eyed junior has finally recovered from Porphyria. This is a rare disease which affects the muscles and nervous system.

Dick was ill and hospitalized from December 4 through January 10. There was a time when no one knew whether he would pull through or not. When he was in the hospital many doctors from all over the country came to see him. Even a doctor from Peru and Ecuador came to see him.

As quoted from Dick, "I would like to take this opportunity to thank the many students who sent me get-well and Christmas cards, while I was in the hospital. They kept me from being lonely and I'm sure the many prayers helped me to get well. There's no one as great as the "kids" of Hialeah High.

Music Department

By Tony Darby

The Music Department of Hialeah High School is sponsoring a candy sale from February 7 through the 14 in the Hialeah-Miami Springs area.

The combined Music Department decided last September that it would have one concentrated drive for funds this year instead of a number of individual or separate group drives.

The drive will help the department in obtaining many of their needs of which some are: choral robes, marching band uniforms, orchestra and concert band instruments to mention only a few.

ADULTS HAVE CHANCE TO ATTEND NIGHT CLASSES 14

Attention all adults! Have you been wanting to learn to type or to speak Spanish? If so, here is your chance. Adult classes in book-keeping, typing, Spanish, industrial arts, oil painting, and metal and wood crafts are being held four night a week. Each class is held two nights a week either on Monday and Wednesday or on Tuesday and Thursday from 7:00 o'clock to 10:00 o'clock.

The courses are for twelve weeks with a fee of only two dollars per course. Lindsey Hopkins Vocational School offers these courses.

You register the first night you attend class. Any additional information you may want can be obtained through the Lindsey Hopkins or Hialeah High School.

Pat Chosen Prexy

Patricia Barber, a sophomore, at Hialeah, has the honor of being president of the County Organization of Student Librarians, which is the Dade County Student Instructional Materials Personnel.

This county group has a membership of about 20 junior and senior high schools. County officers rotate among different member schools. This year Hialeah High School is honored with a president.

Pat has presided over two meetings so far. One was a county meeting at Hialeah in October, and the other was a district meeting held at Miami Senior High School in December.

Coach Calls Candidates For '58 Baseball Team

Charles Wychunas, head baseball coach, called last Wednesday, for all boys who were interested in batter work, pitchers, and catchers, to meet on the athletic field at 3:00 p.m.

One of Hialeah's pitchers, "Lefty" Dan Kavanaugh, is among those returning. Krtausich will come out for the team when he has completed the basketball season.

Both men have turned in creditable performances in the past and will spark the team for another year.

MacIver Makes News

During a discussion one day, Mr. Harvey Melton told his class of an unusual essay he found. It was entitled, "Who is the Most Handsome Boy in the Junior Class and Why I Am" by Bill McIver.

Artist at Work

Mike Danzis, DCT student, who is employed at Barfield Instrument Corp., found himself detailed to a paint job. All day long Mike ran around the place with a paint sprayer in his hand. Then someone asked him what he was painting. Mike replied, "If it doesn't move—I paint it!"

Musical Meows

Tish Groover has quite a time keeping her music in one piece. Every time her cats spot a piece of sheet music they begin to "Rip it Up."

Seniors Response 'Terrific' for Tryouts

Date Set for Play; Good Cast Expected

Mr. Joe White, dramatics director at Hialeah High, replied, "I am more than satisfied at the terrific response for tryouts for the senior class play, and I know we will get a good cast," when asked the question, "How were the tryouts for the play?"

The senior class play, "The Curious Savage," will be a cast of seniors only. It will be presented on March 21 and 22 in the school auditorium. The play is a three-act comedy written by John Patrick, the author of "The Teahouse of the August Moon," "Lo and Behold" and others.

"The Curious Savage" was first produced in New York by the Theatre Guild and Lewis and Young, under the direction of Peter Glenville.

The characters are The Guests: Florence, Hannibal, Fairly May, Jeffrey, Mrs. Paddy. The Family: Titus, Samuel, Lily Belle, Ethel; The Staff: Miss Wilhelmina, and Dr. Emmett. Act I includes the Night and the Next Morning. Act II, scene one: That Night After Dinner; Scene Two, A Few Nights Later. Act II is a few minutes later. The scene is in the living-room of "The Cloisters".

As quoted by John Patrick, "It is important in "The Curious Savage" that the gentle inmates of "The Cloisters" be played with warmth and dignity. Their "Home" is not an "asylum" nor are these good people "lunatics." Any exaggeration of the roles will rob them of charm and humor.

The whole point of the play is to contrast them with Mrs. Savage's children and the insane outside world. To depart from this point

of view for the sake of easy laughs will rob the play of meaning. And both the performers and the playwright will have failed in their purpose."

Mr. White has announced that the following students would have some part in the play: Virginia Bopp, Patsy Bain, Maxine Gillard, Virginia Beasley, Jim Nelson, Wayne Arnold, Wesley Calvin, Jim Fiola, Douglas Plumley, Sue Hamke, Lynda Herold, Barbara Cate, Tamara Thrall, Joyce Adams, Sharon Miller, Leona Higdon, and Bonnie Clark.

The female parts in the play have been "double cast." Mr. White stated that his reason in doing this was the fact that the ones trying out had shown such tremendous interest that he felt they should be double cast.

HHS Boys Take Part in Opera

The opera, Aida, took place on Monday, Wednesday, and Friday, January 27, 29, and 31, in which boys from Hialeah High participated. The Opera was performed two nights in the Dade County auditorium and on Wednesday night it was put on in the Miami Beach auditorium.

The cast of the opera included King of Egypt, King of Ethiopia, Aida, Rhadames, High Priest, and Amneris. The opera revolved around two women loving the same man.

The boys who took part in this opera were Wayne Arnold, Warren Smith, Carl Strano, John Jacob, John Denton, Doyle Peterson, Bill Ferri, John Clark, James Smith, Louis Pease, and Don Griffith.

These boys had costumes and were dressed as colored slaves.

As quoted from Mrs. Betty Nielsen, "This was a great privilege for these boys to be able to perform in an opera and see what goes on behind the scenes."

PLEASE PATRONIZE OUR ADVERTISERS

Honor Bestowed on Tri-M Club For Services

"A proud club are we" quote members of the Hialeah Modern Music Masters, who were chosen as the home office for all Tri-M chapters in Florida, with sponsor, Mr. Bill Inglis, as chairman.

The honor, given to an outstanding club, was bestowed for their fine work, including committees for Cerebral Palsy work, for entertaining Homestead Air Force people, and other projects.

A small paper, besides their own newspaper, the Crescendo, will be published regularly with club reports. There will also be other

new responsibilities in addition to these.

The club has been ushering for many programs at Dade County auditorium and also had a few members participating in the opera "Aida" presented in January. There were also representatives on the January Cerebral Palsy telethon, demonstrating the work they had been doing with the children, in a rhythm band.

The club also hopes to install many Tri-M people as state officers if at all possible.

SURVEY TAKEN IN BIOLOGY

A survey is being taken in most of the biology classes to find out what students eat for breakfast, lunch, and dinner. They are recording three meals a day seven days a week.

The purpose of this survey is to find how much calcium is consumed by an average students and also to show what you can do to increase your daily intake of calcium, if deficiency is found. This project is being made by Marilyn Jones.

Springs Junior High Presents Talent

One of the highlights of the school year at Miami Springs Junior High School will be the BLUE AND WHITE REVUE OF STARS, an all-student talent show, to be presented on February 6 and 7 in the school auditorium.

Such features as a big production number and a trained poodle act spark this display of student talent.

On Thursday, February 6, the show will go on at 3:15 P.M., and on Friday, February 7, at 8:00 P.M. Admission is 25c matinee, and 50c evening. Proceeds will benefit the entire student body through a needed school project.

Future Nurses to Sell Cupcakes, Candy

The Future Nurses Club of Hialeah High School will be giving a bake sale every two weeks from now on through the rest of the school year.

Cookies, cupcakes and candy will be on sale. The cookies will sell for a nickel each and the candy will be on sale for three for a nickel.

All funds received will go to aid the Future Nurses Club.

Her Majesty, Adele Walston, Reigns for '58 Congratulations!

By Kay Coomer

Congratulations are in order to Adele Walston, this year's queen of basketball. Adele was crowned by last year's queen, Gail Shaughnessy, at the victory dance after the North Miami game.

Our congratulations also go to Miss Quinn Kelley and also our hopes that she will make the 1960 Olympics.

Having Fun?

The bowling teams (both boys and girls) which were organized during Christmas holidays have been playing now for about a month and a half. Sure hope they are having fun.

Commendations, Fellow Students!

Hialeah students are to be commended on their sportsmanship at the Edison game. Let's keep up the good work, kids.

Music Hath Charm

As the old saying goes, "music hath charm" and most of the girls' physical education classes are charmed at the serenade which often greets them as they enter the locker room. This music, courtesy of the teachers, is a welcome change in the regular school day.

Peculiar Feeling

A couple of weeks ago a pink sweater was misplaced by Willy. It had been given to her by her daddy and had quite a bit of sentimental value attached to it. Miss Aliene Swain announced to one of her classes of which Willy and I are both members, that it was missing and that she and Willy would both appreciate everyone looking for it. This was all fine and dandy, but you can imagine my feeling when Yours Truly went inside to change into the sweater I had worn that day, a pink one.

Hialeah Honored With Second Place Winner

In the city-wide archery meet, Hialeah was honored by having a second place winner. The winner was Francis Maxwell. Congratulations, Francis.

Attention, All Badminton Fans!

Attention to all badminton fans who would like to try out for the intramural and city-wide team. Badminton will begin in May right after softball which will start around February 10.

Praise the Team That Lost

By Donald Dewhurst

Oh, praise the team that lost,
For it is not a sin.
If sportsmanship is right,
To have a moral win.

Oh, praise the team that lost,
Praise them to the sky,
For if you have ever lost
You will know the reason why.

Oh, praise the team that lost,
Praise them like you should,
For a little praise
Will do a lot of good.

Oh, praise the team that lost,
For everything that is right,
And in the next game
You will see a better fight.

Oh, praise the team that lost,
Do not get out on a limb,
For in the coming game
They may go on to win.

KING BERNIE BUTTS AND QUEEN ADELE WALSTON display the gold basketball charms they received when they were crowned King and Queen of Basketball recently. The crowning took place at the victory dance following the win over North Miami High.

Tennis Season Opens with Big Swing

The tennis season has begun and Hialeah is in the swing of things. Mr. Jack Kasper, coach of the team, announced that it is not too late to come out for practice. It is held every Monday, Wednesday and Friday after school behind the gym.

Helpful new additions this year are two new tennis nets which enable the team to practice right on the school grounds, a betterment over last year when the team had

to go to the Springs or Bright park for the use of courts.

This is the second year Hialeah High has had a tennis team and the schedule includes such high rated teams as Coral Gables and Miami Beach.

The schedule is:

North Miami	Jan. 29
Curley	Jan. 31
Miami Beach	Feb. 5
South Dade	Feb. 7
Ft. Lauderdale	Feb. 12
Pinecrest	Feb. 14
Coral Gables	Feb. 26
South Dade	Feb. 28
South Broward	Mar. 5
Curley	Mar. 7
Miami High	Mar. 12
Pinecrest	Mar. 14

Anchor Sets Up Spirit Booth

Pep, pep everywhere and many an ounce to get.

Voo and Doo, the dolls, red and blue beanies, and Hialeah pennants were available for every student to get. On color days and at basketball it never again can be said, "I have no red and blue to wear." The Anchor Club has put this within the reach of every student.

A pep table was set up in the center hall and the red and blue items were on sale at reduced prices.

Basketball Tournament

Annual county basketball tournament for 1958 will be held February 7 at the Miami Edison gymnasium.

Varsity team tryouts were held January 20 through 24 in the Hialeah gym. The three high scorers were Gloria Killingsworth, Carol Todd, and Nancy Smith.

In the intramural teams, the Bouncers captured first place.

NEW CLASSES STARTING NOW

Scots Banned Golf in 1491

The Romans, soon after the Christian era, played a game with a mallet and a leather-covered ball stuffed with feathers, called paganica; the French in early times had a game called jou de mail; and the Dutch played a stick-and-ball game on ice called hot kolven; the game, was today's favorite American game, golf.

The Scotch refined the game which the Romans, French, and Dutch played, by adding in the ground a hole in which to receive the ball.

The Scotch became so enthusiastic about the game that in 1491 Parliament fearing that the game might supersede archery, which was a method of defense and food, and essential in that day and time, forbade it.

In the United States a crude form of golf was played as early as 1659, in fact, Albany, New Jersey, passed an ordinance forbidding the playing of golf along the streets, because of the danger of damage to windows and pedestrians. Modern golf secured its first real foothold in the United States in 1890 and today, it is said, there are over three million golfers in North America.

Perhaps some of the students of Hialeah will be one of tomorrow's three million players. They are being taught the basic fundamentals and familiarized with the terms of golf by the very capable Physical Education teachers.

After being given a taste of it in school the students can then decide for themselves whether they will further their knowledge and better their game until someday they may love it as much as the Scots.

Plan Annual Circus

The G.A.A.'s are making plans for their annual circus. This year the circus will be held in March. At the circus, booths are rented to the different clubs around the school while inside the gymnasium a real-life circus is being put on. There will also be a fun house set up in the girl's locker room.

First Bowling Game Full of Thrills and Disappointment

For the first time in your life you have the chance to bowl. Excited and happy you quickly step off the bus and follow other beginners (some professionals and a few inbetweeners) into the bowling alley where you're told to be seated and wait for instructions.

After being told to get into groups of six and send the names to the bowling instructor, your team is given a number and told to bowl in a given lane.

Away you go in search for the lane. Upon arrival you find a score sheet on a desk waiting for you and your team. The empty spaces are for your team's names and their scores. After filling in the name blanks, you then begin to bowl. First try is a complete miss and you feel like an idiot. Second time is close, but not close enough. Your third attempt brings forth a spare but not the strike that you had been hoping for.

Time has gone swiftly though, it's time to leave and you didn't do so good, but you feel confident that next time will be a little better.

Leadership Classes Plan Activities

The Leadership classes, designed for twelfth grade girls who want to further their Physical Education training, have seen quite a bit of activity lately.

Miss Aliene Swain's class has been having special square dancing classes. The girls have been making up their own square dances.

The class of Miss Quinn Kelley have also been having fun and lots of parties too. In fact parties and games is what her class is studying. So far the girls have had a Mother Goose Party (everyone came dressed as Mother Goose), a teenage party, a picnic party and a bermuda party. This is to teach the girls how to give parties and direct games.

Hialeah Admitted to Gold Coast Conference

By Mike Rankin

Hialeah High Varsity Athletic Association has joined the Gold Coast Conference. Coach Hal Lannom feels that in the future the suburban schools will surpass the "Big Four" in athletic prowess in Dade County.

The coach also predicts a Dade County Conference in the not too distant future.

The main reason Hialeah joined the Gold Coast Conference is that the other conference, the Big Ten,

is growing smaller and will continue to do so. The population trend is toward the suburbs which will take away the choice of athletes from the big schools.

There has been some talk in the air of zoning for school attendance. Coach Lannom believes that zoning the high schools will help the athletic program in all new schools. It will stop students from going to schools for their former reputation. The newer schools just can't compete with over 50 years of tra-

dition.

The original Big Ten teams were schools from Tampa, Orlando, Gainesville, Ft. Myers, Melbourne, West Palm Beach, Pensacola, and Miami. These were the major schools in the state at that time.

Schools Transfer from Big Ten

Tampa schools dropped out to form the West Coast Conference. Likewise Gainesville dropped their membership to join the North Central Conference. West Palm Beach has severed relations and Jackson-

ville is thinking about it.

Now the main schools are Miami Edison, Miami Senior, Miami Jackson, Jacksonville Lee, Jacksonville Landon, Lakeland, Orlando Boone, and North Miami.

Patience Necessary To Build

Coach Lannom said, "We must not anticipate things too quickly. It will take time to field a championship team."

"We have had some tough breaks but every team has them. We have lost members which were good,

such as Ed Gray, Wayne Molesworth, and Charles Maples.

Basketball Team Assigned Group 8

Hialeah's basketball team has been put in Group 8. In this group the Hialeah quintet will meet Miami Senior, Miami Beach, Coral Gables, Tech High, and Miami Jackson.

"One advantage," Coach Roy Brawner thinks, "is that if the team's record is good, they will have a chance to play in the state meet."

Hialeah, Beach Battle Tonite

Tonight the Thorobreds will take on the Beach powerhouse. Ronnie Burger, leading scorer, will try to continue his 27.1 average per game.

Bernie Butts and Lyle Charles will be trying to continue their 27.6 and 23.1 average per game.

Miami Beach has a 6-foot 3½-inch height average over Hialeah, who only reaches 5 feet 11 inches. Beach has won 12 and lost 0 compared to Hialeah's 11-1 record. Miami Beach has scored 719 points while their opponents have tallied 832.

B. Butts, L. Charles Tops in City Scoring

For the first time in the history of Hialeah the basketball team has a man in the top scoring of the city. Old-timer Lyle Charles and newcomer Bernie Butts are both in the top five in the city.

Butts has a total of 265 points. He made by shots and 57 by throws. Lyle has 249 for his 93 two-pointers and 61 via the foul shot lane.

Tennis Team Returns

Hialeah's tennis team is returning to the court tomorrow under the direction of Coach Jack Casper. The team will compete with the very strong team of Miami Beach.

Returning will be Susan Charles, Linda Lott, and Beverly Jones. They will receive help from Nancy Smith, Ruth Larder and Janet Armstrong.

The boys are expecting Lyle Charles after he completes his basketball season.

Also returning is Danny Harbolt. The team will receive added help from Bob William, John Stevens, William Van Duzee, Jimmy Smith, Charles Magguon, Richard Thigpen, James Maszurek, and Jimmy Capeppe.

The results of the first two matches will be published in the next RECORD.

Hialeah Bowlers Form Four Leagues

The RECORD has just received information concerning the four leagues at Hialeah Bowling Lanes, thanks to Mr. Al Palmer. The enthusiasm has been very high since the lanes put on their clinic.

Mr. Palmer announced that some 400 students are bowling every Monday, Tuesday, Wednesday, and Friday. Boys bowl on Monday and Wednesday and Tuesday and Friday is reserved for the weaker sex. Surprisingly the feminine gender are showing just as much spirit as the boys.

Mr. Palmer said, "We are going to give trophies away. These trophies will be furnished by the business men of Hialeah. Also we will give awards to the bowler of the week."

Here are the team standings Monday:

Team Standings	won	lost	total pins

Grid Hopes High

Varsity Athletic Director Harold Lannom announced the new schedule for the '58 season. He wants students to know that some of the dates may be changed because of technicalities involving the playing field.

The Thorobreds will go up against three of the Big Ten next year: Edison, who defeated them, 45 to 7 this year; Jackson who tallied 27 to 18 against the T-Breds; and North Miami High to whom Hialeah handed a 21 to 0 defeat. Miami Beach, after a year's rest, are going to make another try at the Thorobreds.

Naples, Central Catholic South Broward are again Hialeah schedule. Fort Dale, Stranahan, and McArthur are all new opponents to the T-Breds.

'58 Schedule

Sept. 26—Naples (away).
Oct. 3—Central Catholic (away).
Oct. 10—Ft. Lauderdale (home).
Oct. 17—McArthur.
Oct. 24—Edison (home).
Oct. 31—Stranahan (away).
Nov. 7—South Broward (away).
Nov. 14—Jackson (Orange Bowl).
Nov. 21—Miami Beach (away).
Nov. 28—North Miami (home).

Thoroughbreds Hand Red Raiders First Defeat of Season 70-65

IT'S TOO HOT FOR ME TO HANDLE. Bernie Butts (13) goes up but fires to Bob Ellis (20), who adds two for Hialeah.

THE SCORE GOES UP another notch! Captain Lyle Charles (14) hits the one pointer and adds another to his average.

By Mike Rankin

A sell-out crowd saw the Thoroughbreds take the lead in the third period and hold it, finally defeating the Red Raiders 70-65. Some 400 people were turned away because of the lack of room.

"We want to apologize," said athletic business manager Harry Walton, "to the people we had to turn away." The gym was so crowded that people climbed to the roof to watch the battle.

Jerry Askowitz did a commendable job defensively even though he only raised the Thoroughbreds' score one point. Jerry held Edison's

son's Joal Hancock to 13 points. Hancock did most of his shooting from the outside.

Center Bob Ellis played his best game of the season. Bob hit six out of 15 shots and three out of five foul shots. Bob went up on every rebound. He hit a total of 17 points.

Dick Krtausch was shooting

more than usual. He ended up with a total of 15 points. The most effective weapon was the jump shot.

Lyle Charles was doing quite a bit of shooting but couldn't find his range. He hit six field goals and then came up with four free throws. He had a total of 16 points.

Bernie Butts, the pride of the

Thoroughbreds, pulled his usual game hitting a total of 23 joints for the evening. Five of them were via foul shots.

After the victory, Coach Roy Brawner's first comment was, "I'm thrilled!" "We played as we are capable of playing," he also added.

Edison Red Raiders Gain Revenge on Thoroughbreds

Captain of the Edison team, Kin Allen, and his team mates, were too much for the Thoroughbreds' defense, that held them down two weeks ago. The defense was superb. Coach placed Allen on Butts and Hancock on Charles.

Around 1400 fans watched the ers had to turn away some 200 fans. At Hialeah, the Raiders fans from Hialeah were just as enthusiastic, as those from the winning school, even when they were behind.

At the end of the first quarter Edison had built up a 10-point lead. By the end of the half the score was 52-38, in favor of Edison.

Jerry Askowitz, whose brilliant defensive play helped stop the Raiders' attack two weeks ago, hit 22 points.

Lyle Charles, one of the expected high scorers, came up with a total of 9 points. Lyle couldn't find the range. His shots were hitting the rim but a very few went in.

Bernie Butts was number one for Hialeah with 23 points. Joe Hancock was top man of the game hitting 27 points for the evening and Captain Ken Allen tied with Bernie for 22 points.

RMA Cadets Fall To T-Bred Netters

After getting off to a slow start the Thoroughbreds stampeded to a 77-38 victory over the Riverside Military Academy cadets. This was the 10th win in eleven tries for Hialeah.

Bernie Butts, who had a 21.6 average at the start of the game hit in the first half and in the second, totaling 22 points. Lyle Charles, playing his third year, was only able to reach 18 for the evening.

Seven were two-pointers and four via the free-throw lanes.

Hialeah	fg	ft	tp	RMA	fg	ft	tp
Charles	9	2	20	Woolbright	2	0	4
Cocco	1	1	3	Martell	0	0	0
Krtausch	0	0	0	Ch'worth	3	1	7
Futrell	0	0	0	Clark	2	1	5
Ellis	1	1	3	Hoskin	3	5	11
Askowitz	2	1	5	Texton	3	0	6
Spruce	1	0	2	Ray	1	1	3
Butts	11	8	30				
Palladino	0	2	2				

Stings Fall As T-Breds March on With Victories

Doing what comes naturally, the Thoroughbreds came from behind to defeat the Stingarees from Miami 68-38. Lyle Charles and Bob Ellis came through with a lively half performance.

Butts went above his average, hitting eight field goals and 11 free throws for a total of 27 points. In the first half he hit 19 of them and then he connected with eight more for the evening.

Bob Ellis came to life early in the third quarter and hit 16 points in the last two quarters. On defense, he took rebounds from the Stingarees.

Lyle put 20 points on the Thoroughbred's list, 16 of them coming in the second half. Lyle hit 9 field goals and 2 free throws.

Hialeah	fg	ft	tp	M. High	fg	ft	tp
Charles	9	2	20	Tilley	0	0	0
Cocco	0	0	0	Perdomo	11	4	28
Krtausch	3	0	6	S'dyke	0	0	0
Ellis	9	0	18	Garr	3	5	11

Spruce	0	0	0	Wilson	0	0	0
Butts	8	11	27	Orme	4	1	9
	30	18	78	Schiller	3	0	6
					28	12	68

Call to the Green

Coach George Dolan has called the golf team to the green. The team will be playing on the Miami Springs golf course. All matches will be on a home basis.

Captain Harry Geisinger is returning for his third year as a member of the golf team. Coach Dolan said, "I am looking forward to seeing Harry win the '58 state golf championship tournament."

HARRY REPRESENTS DADE COUNTY

Harry was the only representative from Dade County to reach the finals in last year's championship.

Other members of the team are Phillip Gilbertson, Steve Cohen, Charlie Braddock, Malcolm Knepp, and Paul Cole.

The tentative schedule includes matches with Miami Jackson, Miami Edison, North Miami, Miami Beach, Riverside Military Academy, South Dade, and Coral Gables.

HOLE-IN-ONE FOR HARRY

Harry Geisinger aced the rugged terrain of the eighth hole of the Miami Springs course last week. His four wood shot rolled on the green and eased into the cup.

He was also the outstanding individual in a match played between the Miami Springs Country Club and the U. of M. golf teams. He carded a 68 for the medal honors.

Coach George Dolan stated that he would send Geisinger to the state tourney.

Seahawks Fall Again

Seacrest Seahawks fell once again under the thundering speakers of the Thoroughbreds. The game was played in the losers' gym.

The last time the teams met, Hialeah had the advantage of being on their own court. Hialeah scored 83, Seacrest 35.

Seacrest played a good game but their defense was not enough to stop the driving ability of Butts and Charles. Their offense was halted by Hialeah's defensive three, Askowitz, Ellis, and Krtausch.

Bernie Butts was top man of the game with 30 points. He made 24 of them shooting and six by foul shots. Lyle Charles added 20 more for the T-breds. Charlesworth was tops for the Seahawks with 11 points.

Forward ever, backward never, with God as our guide we face the world.
