Thinking of Teaching or Nursing? Scholarships Offered Students

Department Of Education Announces Teaching Scholarship

Competitive examinations to fill vacancies for \$400-a-year General Scholarship loans for the Preparation of Teachers and State Nursing Scholarship Loans will be held in each county on Tuesday, March 18, beginning at 8:30 A.M., under the direction of the County Superintendent or his duly appointed agent.

High school seniors who desire to train for a teaching career in Florida's elementary or secondary schools or for a career in nursing in Florida are eligible to compete for a scholarship loan if they are residents of Florida and are planning to register in the School of Education of an approved institution of higher learning in Florida or an approved school of nursing in Florida next fall.

A student who is awarded a General Scholarship Loan must agree

in writing to begin teaching immediately following graduation from college with a bachelor's degree and must agree in writing to begin practicing nursing in Florida immediately following completion of the program and continue for at least the period of time required by the type scholarship held.

A list of General Scholarship Loan vacancies in your county for the 1958-59 school year will be sent to you and your county Superintendent during February. If there are no vacancies in your county, students may make application in other counties will be awarded from the state at large after July 1, 1958.

Nursing Scholarships are awarded on a statewide basis and a list of vacancies will be sent at the time the teaching vacancies are mailed. A student may not make application for both a teaching and a nursing scholarship at the same examination time.

Hi-Ways Completed, It Won't Be Long Now

Finished Product Out in 2 Months

"It's finished!" The news swept through the annual class like wildfire. Signs of relief and accomplishment emitted from the lips of the staff as well as advisor, Mrs. Alfreda Miller. The Hialeah Hi-Ways has gone to press!

IT'S GONE

With the completion of the last page the sports and activities sections, along with the top ten seniors, were shoved into the shipping box and sent to Taylor-Made Publishing Company in Dallas, Texas.

Diligently working since April of 1957, the annual staff now waits anxiously to see the final results of their labor. This year's book will boast 224 pages (numbered); an increase of 24 pages over the '57 copy.

Both the theme and the dedication of the book will remain secret until the annual is in the hands of the student body.

NEW IDEAS

Many new ideas have been formulated in the make-up of the Hi-Ways. More pictures, more pages, an interesting theme, an unusual dedication, senior superlatives, top ten scholars, and a double-spread four-colored page. It is arranged in sections of faculty, classes, activities, sports, clubs and advertising.

Printing will take from six to eight weeks. The book will then come back for distribution. The cafeteria will be devoted as the "Distribution Area" at the designated time.

EDITOR COMMENTS

Hi-Ways editor, Ralph Morris expresses his feelings by saying that the students should expect the "best book they ever had." It is different, of course. The main thing is the numbering of pages.

"The annual staff is the best group of kids I have ever worked with. This is the first work of this kind that I have ever done. I want to wish good luck to the people who work on the annual in the future and I hope they have as good a time working on it as we did."

"And I hope the students will always participate as well or better because the success of the annual depends upon the students of the school!"

Junior Class Begins Sale

The Junior class of Hialeah High is sponsoring a magazine sale in order to earn money to give the seniors a prom.

This sale will last during this week, starting on Monday. Life, Parents, Better Homes and Gardens, McCall's, Teens, Time, Hot Rod, Bazaar, and Popular Mechanics will be among the many magazines available to new and old subscribers. Renewals will pay as much as a new subscription.

"MISSION ACCOMPLISHED". Hi-Way's Editor-in-chief Ralph Morris, places final copy in shipping box as the annual goes to press. Virginia Coleman, business manager, and Linda Lundbloom proofreads copy.

Senior Zero Hour Approaches Time for State Placement Exams

Senior placement tests will be given to all seniors on March 4 in the auditorium.

These tests will last about two days and will be given in the morning. The tests will include English, social studies, mathematics, natural science, and a psychological test.

Placement tests are financed by the people of Florida through the facilities of the University of Florida in Gainesville.

The tests will determine whether the students will or will not be accepted at the State Universities. Only the top 60 per cent will be considered for admittance. Results do not apply to colleges other than the state schools.

Language tests are optional and are given in Spanish, French, and Latin. Students wishing to take these language tests should let their instructor know as there are only a limited number ordered.

The eleventh graders will be taking tests on March 17 to determine whether they need to take senior English and math next year.

UF Presents Concert For Students During Special Assembly

Seniors and music students of Hialeah were invited to attend, in our auditorium, an assembly featuring The University Choir from the University of Florida, Friday, February 4.

During the hour-long program, the choir entertained its audience with a variety of numbers ranging from dignified religious selections to a hilarious version of "Dry Bones".

Ray Anderson, member of the choir, vividly narrated "The Creation," by Tom Scott, with the choir providing background music.

Donaldson, Arnold Win Beach Debates

Paul Donaldson and Wayne Arnold won two out of three debates at Miami Beach Senior High last week. The topic being discussed by the debate was, Resolved: That foreign aid should be increased substantially. Arnold and Donaldson debated on the Negative Team being against the raising of foreign aid.

Wayne Arnold who was the first

Negative Team member stated that the debates were most interesting and informative as we had to debate Coral Gables Team, Miami Beach's Team, and North Miami Debate Team.

Hialeah only had two representatives at the Debating Conference, but Mr. Floyd B. Boice remarked that in the future it was his desire to have more participants.

Twirling to Fame

Who's Who in Baton Twirling Features HHS's Beverly Calvert

National Baton Twirling Association, Janesville, Wisconsin, in conjunction with the editors of the Drum Major magazine, announced the release of their ninth annual library edition of "Who's Who in Baton Twirling."

Featured in the book is a picture and biography of Beverly Ann Calvert of Miami Springs, Florida.

The handsomely bound 1958 gold-trimmed edition is being distributed to leading public and school libraries across the country.

In the 448 pages of reading, pictures and reference material is the history of twirling from ancient ceremonial dances of Siam, Arabia and the Samoan Islands through the evolution of the early American wine jug on a stick to "pep up" the bandsmen down to the colorful, wholesome art of today.

Of the more than 500,000 baton twirlers now active in nearly every city and town in the United States, only 1200 have been selected to appear in this year's edition.

The aim of the officials in screening these outstanding young men and women in the twirling field, leaders with reputable achievements beyond their own local area, is to provide a useful and practical graphical reference tool of America's greatest twirling stars.

Semester Ends With Nine on Dean's List

Only eight students succeeded in making all A's this time, and thereby being on the Dean's list. Those smart students are Larry Castro, 10-11; Burt Newton, 10-23; Barbara Pent, 11-2; Paul Donaldson, 11-5; Mary Ann Worst, 11-7; Bob Tafel, 11-14; Barbara Kimberley, 12-3; Gail Stemmer, 12-6, and Barbara Karpchuk, 9-1.

Those who did not make all A's, but all A's and B's, are 9-1, Madeleine Barber and Magdalena Torres; 9-3, Marshall Ames and Joseph Varon; 9-5, Lois Van Duzee; 9-6, Peggy Moore and Irene Belanger. 10-1, Pete Fryatt; 10-3, Mary Rayfield, William Mainor, Mary Rhea, Jocely Wise, and Charles McGugan;

10-4, Pat Curtis; 10-7, Eileen Broner, Patricia Deese, and Linda Laytart; 10-8, Arlene Simonetti and Sandra Huff.

10-9, Gloria Martinez and Susan Honnold; 10-10, Andrew Kurtz, Eileen Goni, and Linda Holloway; 10-12, Robert Suit and Burdette Lamar; 10-13, Ruth Ann Elliott; 10-16, Dennis Anson, Annette Beaubien, Janice Goodenote, Sandra McLaughlin, and Sharon Wiley.

10-20, Michael Hopkins; 10-11, George Poole, Martha Russell, Sandy Krcyk, and Nancy Kelly; 10-21, Pat Barber, Barbara Hart, and Ruth Zebb; 10-22, Beverly Flannery; 10-24, Danna Skillman, Karen Bernhardt, Heather Andrews,

and Elizabeth Bucko.

10-26, Drucilla Gwin, Joyce Thomas, Connie Webber, and Laura Feurtado; 11-2, June Zacharko; 11-3, Leonard Teel; 11-6, Charlotte Harney, Barbara Deater, Donna Hermansader, Dorothy Arrington, and Beverly Adams; 11-7, Carol Albury and Eileen Lahman.

11-9, Bonnie Bainbridge; 11-10, Pat Danzis; 11-11, Judy Adams and Barbara Beck; 11-17, Sarah Parise; 11-18, Darlene Macik, Don Bush, and John Oliver; 11-20, Paige Browne and Robert Linden.

12-1, Providence Petralla, Penny Stanley, and Carol Hamilton; 12-2, Dixie Averill, Bonnie Clark, Virginia (Please turn to page 5)

Increase Student's Initiative With More Interesting Classes

R. R. Hancock, President of the Incorporated Society of Headmasters, once said, "Schools are aiming too much at teaching pupils the content of other men's minds, and too little at training them to dis-

cover the capacity of their own."

This is true in nearly all classes in all schools, probably because the teachers lack the necessary time to give individual attention to each student.

Most teachers only teach known facts—some, in the history classes, centuries old. There is one outlet, though, the science classes. Here a student may try his hand at experimenting, and possibly discovering something.

Being in a journalism class and working on the school newspaper also offers the student a chance to discover what he can do. He is unlimited as to what he may write or how much he may write.

The English classes are much too inhibitive, in as much as the students are told what to do, and have no alternative, nor opportunity to try something new.

Why not more classes, then, in which students may learn what they themselves can do, instead of what others do and think.

He Had Borrowed Too Often; He Had Charged Too Much!

The poor fellow probably didn't realize his position. He was intelligent, had a fine personality, and was an all-around guy. He was ready for college and his hopes were bright. Three more months would complete his public education and he could begin courses of higher learning.

One FINE early February morning, while sitting in his home-room, he heard his name beckoned over the P.A. System asking him to report to the principal. Thoughts of variety flicked through his brain. Since it was such a bright day, no discouraging thoughts could enter his mind. Upon his arrival at the main office he was told to go directly to the principal. Here he was told of an obligation he owed his school. Yes, an obligation to the tune of some fifty dollars. This privilege of charging had amounted to a considerable sum in his three high school years. He was warned of no diploma unless the tab was paid.

This situation has now engulfed quite a few students of the senior class. There is no way of correcting it except by payment and humiliation. The year will pass on and they will be forgotten, but what of the next and the next?

Sympathy or pity for those that fall into the back fees or payments due rut is not worth the thought for it is their fault, caused by their own carelessness and foolishness.

Today's Youth Is Not "Going to the D"

Since the beginning of time, the older generation has accused the younger of "going to the dogs." So it was before the birth of Christ, so it is in the 20th Century. The difference now is that the so-called "war babies," born of the Atomic Age, are more widely publicized than the teenagers of Grandma's day.

The future of today's teenagers lies in a world delicately balanced on the edge of the atomic war. Many are confused, a confusion born of fear. Many are afraid, a fear born of confusion. Herein lie the juvenile delinquents, "teenage criminals," and "mixed-up kids." They fill psychiatrist's offices and correctional institutions, but they are only a slim minority.

They need desperately, as all individuals do, a sense of belonging, a belief in something or someone, and the opportunity to express themselves. Fortunately, the majority of American youths have these necessary elements to create happy and successful lives.

That great majority of today's teenagers can overcome bad publicity and opinions that we are "going nowhere fast." Although the future may look dim at times, with its threat of World War III this is the responsibility of the present generation: not to fear the future but to work towards the possible treasures it holds.

Notes From The Record

By DEE FINCHER

Lately the air has been filled with the talk of scholarships and contests. Scholarships are being offered by numerous associations. The advertising contest and the Civitan contest both offer scholarship as their awards. The state is preparing examinations for teaching and nursing scholarships. Students seeking more information concerning scholarships may contact Mr. Henry Williams who is head of the scholarship department. Students planning college educations are urged to file their applications as soon as possible.

THIGPEN WINS SCHOLARSHIP

Richard Thigpen, Hialeah senior, won a Civil Engineering scholarship to the University of Miami for one semester. He was one of five boys chosen from Dade County for the honor.

QUILL AND SCROLL TO INITIATE

Quill and Scroll once again is planning to induct five new members the first of March. Coming into the honorary organization are Dixie Averill, Jim Coppinger, Marlene Petratus, Aundrea Christopher, and Ralph Morris.

STUDY CLASS ORGANIZED

Mr. Curtis Patterson has organized a type of class composed of students who desire to study for placement exams and college entrance exams. Mr. Patterson enlightens the students as to what to expect on such examinations and directs them in their field of study for the exams.

LOCATION STILL UNDECIDED

The talk of graduation in Dade County is still unofficial. Mr. E. G. Pease is to attend a meeting to discuss the possibility of Hialeah having the auditorium for graduation on a Thursday or Friday morning.

Tred Softly, Dad Needs Sympathy

Income tax, the most despised word in the adult world, is almost due. As this fateful day approaches, all teenagers should observe the following rules:

1. Don't eat potato chips. The crunching might confuse your already thoroughly confused parent.
2. Open no soft drinks. The gunshot-like noise of the cap might cause Dad to believe the Bureau of Internal Revenue is already after him.
3. Above all, don't approach him with mathematical problems.

THOSE WHO WANT GOOD GRADES WILL FIND THE TIME TO STUDY

"Every man desires to live long, but no man would be old", is a quotation which might well be said, "Every student wants good grades, but no student would study."

Yes, everyone wants good grades but so few are willing to study. We all want the glory and pride which we would feel if we took home a straight "A" report card, but so few want to put in the hours of work necessary to product such a card.

Well, it is time for these people who dream of an outstanding report card to get down to work. Dreams are fine but when you get down to facts, they really aren't much help.

The next time you find yourself starting to put off doing your assignment, just remember: few of the things that come to the person who waits are the things he has been waiting for.

Into Outer Space

By Mike Powell

Far above, near heaven, lies a place where the air is thin, A place seldom explored, even by the greatest of men, To this place on high, To there I yearn to go From there, the leap to space, man will make, I know. With this squadron of men on high,

Go the hopes of a world, hopes that cannot die. The first people who travel to interstellar space. These are the heroes, the vanguard of a race. Behind these will follow men like you and me, For I believe that Space is man's destiny.

Hialeah's Paper Doll

Pat McGhee

Pretty Pat McGhee, H.H.S. junior Paper Doll, has the loveliest red hair and cutest freckles of anyone else the RECORD Staff knows of at Hialeah High. Her five feet, three inches of height is envied by many. Pat has a lovely wardrobe and she just seems to turn up with a new dress every time you turn around.

Russia Puts Squeeze On H.H.S. Students

The bleep, bleep, bleep of the Russian satellites have caused low grades in H.H.S. three months later.

Little did the students realize that the November launchings would have a direct effect on their lives and future schooling. Yet, the unanticipated has happened.

The round discs which circle the earth amplifying their radio signals as a sign of existence and reality have brought upon the students a yoke, which represents learn or cease to exist. Teachers preferring the first thought have and are attempting to stuff the wandering minds with knowledge unexpectable. Of course, encouragement is needed, so the old weapon of low grades is applied. Yes, the weapon has been fired and the effects are felt. Long faces and sour smiles are the visible scars seen on many a student.

The teachers have tightened. The students have been bitten by the bite of a country in concern over her defenses.

Gripes and grievances are shunned by the ever determined teacher.

Keep Your Mind In Good Condition

An old car needs attention and oil to make it run properly. Likewise, students' minds need to be filled with the right materials for its proper function. It might be said that these years of schooling are the most important learning years in a person's life. They provide the background for college and for the business world.

A car gets old and a new one can be bought but the mind is here to stay and can't be traded in on a newer model as some would like. Add a little oil to make those unprepared lessons go a little smoother and a little gas to get the energy to keep the eyes wide open all the time.

Like the little car can be fixed with simple additions, so the student can aid himself with simple preparations.

Alex Builds Telescope Science Research

"Alex" is just a name to some, but to others it brings to mind an extremely active young man almost always engaged in some scientific endeavor with tremendous vigor. Alex, whose complete name is Alex Marcelo Forsyth Alfero, was born in Lima, Peru, some 16 years ago.

After living in this country for three and one-half years, he still holds fond memories of the rugged land of Peru. His hobbies include anything pertaining to science, model airplanes, and listening to classical music, especially operas.

Alex's latest scientific project is the construction of a six-inch reflector telescope. The lens he is grinding himself, and so far, is progressing smoothly.

Asked whether or not the Russian system of education is, in his opinion, better than the American way, Alex replied, "The American system produces clear thinking individuals, emphasize the word individuals, whereas Russian's educational system produces calculator type scientists who have less individual personality than machines."

playing with my father and business associates." And also, "When I was medalist with 68 against the University of Miami while playing for the Miami Springs Country Club.

Harry's first tournament was the South Florida Junior Championship in which he finished fifth. "However, the first tournament that I won was in the Naples Pro-Amateur tourney."

This year Harry is designated captain of the golf team. "I feel this year's golf team will be much better than the last three years."

VET HANDLES DOG

Breaking the silence, the study-hall teacher calls out to his class of 190 students, "Does anyone in here have interest in animals and desires to work with them as a career?"

Waiting a moment, and, positive there must be at least one student to "fill the bill," he sees a young man coming toward him. He asks again, "Are you interested in animals?" The boy replies with a large smile and questioning look: "Well," Mr. Quaranta said, patting his "vet" on the shoulder, "Do you see that dog over there in the last aisle?"

"Yes!"
"Please take him outside. Thank you!"

A little surprised and confused, the obliging student, Richard Maskewich, performs the request with a few mumbled words.

Susan Charles, Junior, Has Gained Talent, Friends and Personality

She's just one of those people who can either stand out in a crowd or blend in to be lost among others.

Slow in temper, slower to forget, there are not many people who can readily say that Susan Charles, 5 feet, 7 inches tall junior, is one to easily provoke anger.

Her tall, slim sixteen-year-old figure reveals her English ancestry. With these go a natural grace which accompanies her everywhere except when she is angry or hurrying.

Susan, a junior of Hialeah, claims credits, friends, and activities as an adding machine picks up numbers. Her favorable traits are so much more outstanding than the bad ones that unpleasant factors don't show, but merely lose themselves in oblivion.

Although she's not a beauty off pages of Vogue, her beauty is a combination of a pretty attractiveness, a fresh glowing look, and a personality that's hard to beat.

No one can look more plaintive than she when she glances up out of deep brown, heavily lashed eyes, to ask for help on an Anchor project or any of the activities with which she's gotten involved. Who

can refuse to buy her beanies or her yarn dolls when she shakes her head of curly brown hair and smiles provocatively in your direction?

Excellent competition for any tennis player, it's a pleasure to watch her play, for she's like an antelope on an Australian plain. The comparison, of course, is not in looks, but in her grace and lighthness.

Patsy Has Secret Desire: To Imitate Elvis Presley

Patsy Bain may be little, but for her size, she sure can pack a wallop when it comes to acting in a play.

This five foot, two-inch, bundle of joy, has brown hair and brown eyes. Her cute smile and easiness in making friends are all a part of Patsy.

"I believe Hialeah High is the most wonderful school anywhere. It's spirit during the games is absolutely wonderful and great enough for anyone to be proud of." Of course, Patsy has never attended any other school but Hialeah's since the first grade, and she is now a senior.

A member of National Thespians, the 17-year-old student is now spending the majority of her time in practice for the Senior play, in which she is cast as Mrs. Paddy. "I love to act. I have participated in about 10 different plays since the seventh grade, that's when I first acted."

Future plans for Patsy are hopes of some day becoming an actress in Hollywood, and "I would like to attend either the University of Miami or some other school that has a good dramatics field." Patsy hopes to reach her college goal with the help of a Scholarship.

Almost in a confession, she tells that her hobby is to imitate Elvis Presley, by dressing up like him and pantomime to his records. (Maybe if enough of us ask her she will agree and do it at one of the senior assemblies).

"In my opinion, the school paper is terrific. It provides all the necessary information for me to know and keeps me up to date. It also entertains me with its cute features and cartoons. When it comes to bad criticism, I just can't think of a thing to say," was all she could say when asked where she thought the paper needed improvement.

One request of hers was to give some advice to the future seniors. "All students should take the College Preparatory English course. It is too valuable a subject to pass up, even if you don't go to college."

Six Space Women Attend Hialeah

By Donnie Dewhurst

Six of Hialeah High's female students wrote a letter to the Secretary of Defense to volunteer their services to be the first persons to go up in satellite to the moon.

Marjorie Osterlorg, Peggy Roberts, Janice Moore, Kathy Shaughnessy, Sara Parise, and Carolyn Pritchard are the patriotic students who seek adventure in space.

All of these spacewomen received a copy of the following letter:

January 31, 1958

This is in reply to your letter concerning the satellite project, Vanguard.

Your sincere interest and willingness to volunteer your services as the first spaceman is appreciated. A number of similar offers has been recently received, but at present there are no requirements for a space passenger. At such time as requirements exist, adequate advancement announcement will be

made to enable the assistance of the citizenry and others of good will—as may be required.

Your interest in this matter and your sincere desire to assist the United States in its quest to serve all mankind and the cause of freedom is, you may be sure, deeply appreciated.

Sincerely yours,
V. J. SOBALLE
Capt. US Navy, Director

Fancy Facts and Foolish Fun

By Marcia Ann Newton
BIRTHDAY GREETINGS

Senior, "Marty" Mobley turned 18 on February 3. Everybody sends his best wishes (even if it is a little late).

A birthday wish (ahead of the schedule this time) goes to Kay Coomer who will also be 18, on March 3rd. Pat Devito is not to be left out! She became 18 on January 27.

GOOD-BYE TO BILL

All of H.H.S. students send a last farewell to Bill Stafford. Bill, a junior, is only in his first year at Hialeah High and he wishes he wasn't leaving.

West Palm Beach is Bill's destination, but he promises to return

MARCIA

WELCOME BACK TO SHIRLEY

First a "good-bye," and now a welcome back.

Shirley Cordeiro, a senior, who has been absent from school for about two weeks on account of an operation she had on her hand. Shirley was laid up in the hospital

for a week. We are glad to have her back. A funny thing though. Everyone helps her carry her books and some of her friends help Shirley cut her meat at the lunch time.

COLLEGISH?

Have you seen Lyle Charles lately? Not when he plays basketball, everybody sees him then. I mean while at school during class time. He sure does dress handsomely in all those Ivy-league outfits. Keeping up with the pace of basketballs isn't the only thing that "Owl" does. Collegiate dress is certainly turning out to be a dominant trend lately.

Bonnie Bowman, a junior at H.H.S. is another smart dresser. Why, Bonnie has so many things to wear, that when she buys a new dress it takes her at least two or three weeks to get around to wearing it.

13—OUR LUCKY NUMBER

Thirteen has been the traditionally un-lucky number. But for Hialeah High it is a different story. It is our LUCKY number, for Bernie Butts, famous basketball star, wears this at all games.

COLLECTION ON

Collection is going on for Bill Dunstall. He desperately is in need of rubber bands. On those cold days Bill's feet freeze, so he wears heavy socks. But apparently they are too heavy. He needs rubber bands to keep his socks up. Any contributions will be greatly appreciated.

Their Success Is Our Success

"Being the only boy in a class of girls does make a fellow feel funny, but then, it has its good points, too," laughs William Banks, the popular senior who is the only boy enrolled in the CBE class.

He is now working at the Stripling Insurance Agency doing typing, rate and interest charges on insurance policies and other odd jobs around the office.

Although this Georgia boy is in training for a good job now, he is setting a higher goal which he hopes to achieve at the University of Miami. General business law, or medicine are running a close race as to which William will choose for his career.

It seems once a person excels in

one thing there is nothing that can stop them once they get started. Anita Bartlett, last year's fair winner, is now holding a very important lab technologist position at the Hialeah Hospital. Her duties include: the testing and absorption of blood, checking cardiograms, and other such tedious work.

Her last two years of school included every science program offered in this school except physics and Algebra II, Geometry and Latin. All these help Anita tremendously in the work she does during her senior year.

Barry College will see this ambitious girl roaming its campus for the next four years but Florida State University will see her finish as a fully oathed doctor in 1966.

DCT, CBE Attend County Meeting

DCT and CBE classes are never without something or someplace to go. Their last event was attending the first county wide DCT meeting at the Woman's Club last February 14. "And what a day they had!" exclaimed the two advisors, Mr. Harold Haft and Mr. Horace Oliver.

"Their whole day was full of something to do from the time they arrived at the Woman's Club at 8:30 a.m. till they left at 3:30. And still another wonderful thing about the occasion was that all the bosses of the students let them off the entire day."

"First there was a mass assembly in which the students from all over Dade County got acquainted and informed about the different group meetings which were to be

held after that assembly, said Mr. Oliver.

"After their group meetings was the all-favorite course—lunch. And what a feast they had for us," took up Mr. Haft. "The contest followed the noon meal and four Hialeah girls participated. Barbara Kimberly entered for typing, Janice Beaucage, for shorthand, Jeanne Miller for current events, and Leona Higdon for the selling contest."

Dick Chambers, a well-thought-of magician, entered for the talent parade from this school.

To top the final assembly, guest speaker, Towel B. Selby, Dade County supervisor of the DCT clubs delivered a very fine speech on the growth and development of the cooperative program.

Anchor Girls on Move Again

Anchor girls are again on the move as a top service club. The club was asked to help in the fight against multiple sclerosis so the girls gave of their time and thoughts to this campaign. Each girl was responsible for one or more "Give" canisters and canvassed the Hialeah-Miami Springs area.

Additional canisters were given to put in stores and shops.

Anchor was out from early morning to late afternoon Saturday, February 8, asking donations for this cause. They had buttons identifying them, and poppies to give in return for the contributions.

Inter-Club Council Reports:

"Beautification" Newest Project

Student Council, at the first Inter-Club Council Meeting of February, discussed the sponsoring of a "Beautification Project," through which all the little empty corners on the school grounds will be beautified by the addition of shrubbery. It was suggested that this project be carried out by combined efforts, whereby each club would have equal recognition. The Student Council will make a rough estimate of the cost, so that each club will know how much they may contribute.

During the meeting Mr. Marvin Goff, Activity Director at H.H.S., explained how the club periods are to work. He began by stating that the club program was planned along the ninth and tenth grade lines. The ninth and tenth grades would be holding their club meetings while the eleventh and twelfth were at assembly, and the following week the program would be vice-versa. Since there are

many clubs which are composed of all grades it can be arranged for either group to be excused from the assembly if their club meeting is more important.

Honorla requested permission to establish bookshelves in the girl's restrooms. Mr. Goff stated that the authority to install them would have to come from higher up.

Anchor Honorla, Future Business Leaders, Future Homemakers, G.A.A., Future Nurses, Radio, Junior Civitan, Christian Crusaders, Spanish, Stage Electricians, Printing, Majorettes, Cheerleaders, Library, High-Y, National Honor, Student Council, Key, Tri-M, Thespians and Girls' Letter Club, were represented at the meeting.

Sweetheart Dance VALENTINE DANCE CROWN SWEETHEART

Theme for the annual Y-teens, Hi-Y Sweetheart Dance which was held the 15th of February, was "Let Me Call You Sweetheart."

Highlighting the affair was the crowning of the Sweetheart. Accepting the royal crown was Bonnie Burtless chosen from 13 candidates. Her court consisted of Kathleen Barr as Junior Princess, and Heather Andrews as Sophomore Princess.

Decorations of red and white added to the festivities of the dance held in the school cafeteria.

Music was provided by the Headliners. On the entertainment program were Lou Ann Polic, Wesley Calvin, Linda Shipley, Barbara Sellers, Loretta Rompot, Sandy Weiland, Julia Sever, and Jim Nelson.

Refreshments were served to those who worked up an appetite during the evening.

Forensic League Debates M. Beach For Foreign Aid

By Jim Richland

National Forensic League members of Hialeah High School participated in a County-Wide Debate at Miami Beach Senior High School. The group debated the subject or resolution "Resolved, that foreign aid should be increased."

Those members of the Debating Team from Hialeah on the Affirmative side were Arlene Cuter, Gary Chamberlain, and for the negative side Wayne Arnold and Paul Donaldson.

"Being a member of the Negative Team on this resolution it is my firm belief that the American Government today has executed detrimental policies which have affected our relations with other countries. Believing as I do about the Status Quo on Foreign aid I certainly do not agree that we should increase Foreign Aid, thus placing ourselves in a disastrous position," comments former president of the Debating Society, Wayne Arnold.

Honorla Sells Stationery

Honorla has devised a letterhead paper for those who enjoy writing letters to send some school spirit with them.

The stationery features a copy of H.H.S.'s school seal in the upper left-hand corner. The fine-textured paper comes in white and pale blue. The stationery was manufactured in the school's print shop, keeping it on the Thorobred level.

Boxes of this attractive stationery will go on sale for \$1.00. Orders may be placed with Mrs. Mary Watts or an Honorla member.

Y-TEENS BUSY ON SALE

Students will once again be munching and crunching on potato chips as Y-teen conduct their annual potato chip sale. The potato chips, made by the Gordon Company, sell for 25 cents a bag.

Y-TEENS ON TV

Y-teens of Miami will be featured on Station WPST at 2:00 Tuesday, February 18 on Molly Turner's program, "The Talk of the Town." A representative from Hialeah will be in attendance.

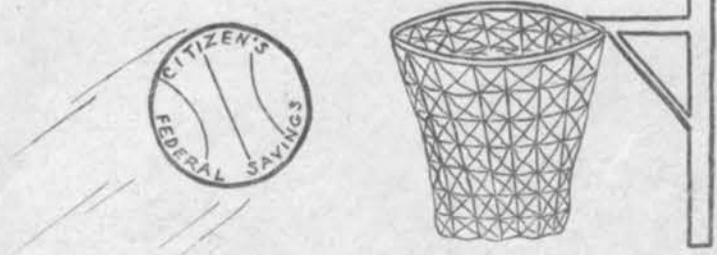

FASHION SHOW TO COME

Nelda Munier will be Hialeah model for the Y-teen Easter Fashion Show to be held on Saturday afternoon, March 29, at 3:00 Richard's Department Store.

"THE TRYOUTS WERE VERY GOOD," said Mr. Joe White for "The Curious Savage," the senior class play. The above trying out for parts in the play are Patsy Bain, Douglas Plumley, Marcia Newton, Barbara Cate, Dennis Grady, Bonnie Clark, and Wesley Calvin. The play will be presented on March 21 and 22, in the school auditorium. "The Curious Savage" is a cast of seniors only and is a three-act comedy.

Bandroom Equipped for Broadcasting

The bandroom has recently been wired for sound. The setup which includes: amplifier, electrical wiring and microphones will enable the orchestra or band to broadcast musical programs from on-the-spot, to the rest of the school. A special microphone, which is worn around the neck supplies Mr. S. Conn or Mr. L. Turrentine with voice volume needed during re-

hearsals, as the sound of a voice does not penetrate the music.

Another microphone such as the TV stage crews use, hangs from the ceiling over the middle of the rehearsal area. Hanging in this spot during a broadcast, the microphone will be able to pick up the music on an even level basis, thus no section will drown the others out.

This set up which has been needed for sometime has relieved a lot of previous problems.

Dee Holds Editorship

With the beginning of the new semester, RECORD members re-elected a new staff. Deanne Fincher was easily victorious in the race for editor.

When informed of her victory Dee stated, "I am extremely proud to be re-elected by my fellow-journalists and hope that I can do a job that will reward the confidence that they have placed in me."

A run-off was necessary to determine the associate editorship with Tish Groover and Wayne Arnold vying for the position. The final results, however, clinched the office for Tish.

The remainder of the staff is as follows: Business manager, Marcia Newton; exchange editor, Marlene Petratus; feature editor, Dixie Averill; girls' sports, Brenda Wooten; boys' sports, Mike Powell; and advertising manager, Jim Coppinger.

Photographic Contest Wears March Deadline

The Kodak High School Photographic Contest formerly the National High School Photographic Awards Contest, sponsored by Eastman Kodak Company, is now in full swing.

Photographs taken from April 1, 1957, may be used so long as they are postmarked no later than midnight, March 31, 1958, which is the deadline.

All pictures must be unmounted black and white and up to 8x10 inches in size. Prints must be made from original negatives available upon request and may be taken with any camera and film.

The contest is divided into four classes; people, school activities, animals and pets and pictorials. Twelve awards decorate each class with a grand award of 300 dollars in each twelve prizes.

Effective Living Classes Start Work on New Projects 'Houses'

Mr. James Reynolds' busy effective living classes are now in the midst of undertaking another big project which will be building a house.

This class has just finished their unit on problems of the family. First, they are to draw a scale of the home they are living in and then later draw a scale and floor plan of the home they would like to own someday.

First of all they must have an idea of the income they will have in the future, and to plan the house according to their annual income. After the floor plan is drawn up, they will proceed to furnish the inside of the house taking into consideration the price of fixtures and furniture. They will then finish the outside of the house.

During their unit on housebuilding the students will be studying a vocabulary a different parts of a house so they will be able to understand what they are doing as they go along.

The unit will close with all the students turning in a written report or notebook including problems in building a home and everything about houses they have studied during this project.

Mr. Reynolds says, "This project should make the students realize that there is much more to building or buying a house than just the down payment or a few immaterial items. This should help the students considerably when they are older and want homes of their own."

Wilcox Discusses Banking Films

The Assistant Vice-President, Mr. Wilcox, from the Curtiss National Bank of Miami Springs, was at Hialeah High School on February 4 and Thursday, February 6 to show a series of films on banking and answer any questions the students or teachers may have asked.

The classes that attended were the business education, social stu-

dies and mathematics classes of which the teachers expressed last October that they would like for their classes to see the films.

The banking films on Tuesday were: "Pay to the Order of (checks), Using Bank Credit" (loans), and "How to Use Your Bank" (services). On the Thursday the films were: "Money Talks" having to do with money management, "A Future to Bank On" (careers), and "Future Unlimited" (careers).

After having seen these films the students wrote on small slips of paper any questions they wished to have answered by Mr. Wilcox.

CANDY TO BE SOLD AT GAME

The Student Council is forty dollars in debt and will start a new project of raising money. This project will be the selling of sweets at the last basketball game of the season.

Bill Wyler's Show To Continue On TV

Bill Wyler and his TEN'S BANDSTAND is back with the area's most popular teen-age program starting February 15. Ever since Channel 10 was forced to discontinue the TEN'S TOPS SHOW in October due to the audience hazard created by the construction of the new studios, persistent fan mail and phone calls have come in from local teen-agers demanding their own local show.

Now in the modern studios of Channel 10, WPST-TV's new building at 21st Street and Biscayne Boulevard, teeners will have a "real swinging" program. Bill Wyler is again lining up top record and show world celebrities, good dance music, and outstanding local student teen queens, scholars and athletes familiar to everyone.

In an effort to have as many schools represented at one time each week, representatives have been appointed in each school to handle invitations. Due to the great demand for tickets which will be limited, admission will be by invitation only. For information concerning invitation contact your student activities director.

Projects Displayed In Salek's English Class

Hard work, time and patience have all gone into the projects being displayed by Mr. Jerry Salek's English II classes. Each chart presented by committees had a distinct originality. These charts were graded for accuracy of dates, spelling, neatness, variation of color, as well as the work that went into it.

Calendars and newspapers are their biggest project as yet. One committee from the class will work on the calendar. It will consist of all the literary dates, school activities and any other important data that comes up, for a period of six weeks. Original newspapers with current class and school news will be handled by two of the committees from each class.

These projects enable the students to become more acquainted with responsibility, as well as learning to work and co-operate with others.

DEAN'S LIST

- (Continued from Page 1)
- ginia Coleman, Shirley Cordeiro, Thomas Phillips, and Evelyn Smith;
 - 12-3, Janice Beaucage and Jeanne Miller;
 - 12-4, Bill Dunstall, Benjie Lebow, Betsy Stoinoff, Robert Hungler, Marilyn Jones, and Louis Pease.
 - 12-6, Janice Vogles, Dick Chambers, Anita Bartlett, and Madeline Janelle;
 - 12-7, Loretta Rompot;
 - 12-8, Carolyn Collins, Larry Deets, and Deanne Fincher;
 - 12-9, Ken Knollman;
 - 12-11, Ed Beechler, Ed Baxter, and Carl Simmons;
 - 12-12, Carol Todd, Phyllis Fogle, Sylvia Buck, and Tony Davis.

Music Dept. Tours Junior High Schools

The Music Department of Hialeah Senior High School will make a four-day concert tour to four junior high schools in the Hialeah-Miami Springs area, during the week of March 10.

Members of the orchestra, concert band and the choral ensemble, under the direction of Mr. Sherman Conn, Mr. Logan Turrentine, and Mr. Bill Inglis will present two performances of musical entertainment at each school.

Miami Springs, Palm Springs, West View and Henry Filer are the junior highs that are to be visited by the H.H.S. Music Department.

Mr. Turrentine, Chairman of the Music Department, stated: I have received wonderful cooperation from the junior high principals and music teachers."

Mr. E. G. Pease, Principal of Hialeah High, is most interested in the success of this tour, in that the community will hear through the students of the fine music program in the public school system.

The desire of the Music Faculty of Hialeah High is to present to the younger students a varied and interesting musical concert, with the type of music that is not normally heard on TV or radio.

Keister In Charge Of Assembly For Students

Mr. Edward Keister, director of the University of Florida's choir was in charge of an assembly held for the seniors and Music students last Friday, February 7.

"In Mirtha and in Gladness," "Holy Radiant Light," "Glorias in Excess," and "Lover" were but a few of the numbers in their program.

The assembly lasted one hour, in which time there were four acts and one intermission.

The president of the choir is Ray Anderson, accompanist, Ruth Stevenson, business manager, Denver Sherry, (resident of Hialeah) and manager and Organist James Carter.

Hialeah Girls Twice Champions

THE GIRLS who made up Hialeah's championship A Basketball team are: Back row: Sherry Dunn, Nancy Smith, Carol Todd, Evelyn Roudenbush. Front row: Pat DeVito, Diane Linguard, Pat Burns, and Carol Curry. The tournament was played in Edison's gym Friday, February 7.

Hialeah High seems to lean toward the sport of basketball. Not only does the boys varsity team run up a winning record, the girls' varsity team captured the first place plaque.

Every year there are high school sports days and a school invites four senior highs to come, to take part. Hialeah was invited to the Edison High sports day along with Jackson and Gables.

Hialeah was pitted against the three schools and came out victorious. The "A" team came through after defeating Jackson, Edison and Gables respectively. The hardest game seemed to be with Edison. The "A" team coached by Miss Dolares Jordan consisted of Carol Todd, captain; Nancy Smith, co-captain; Carol Curry, Deane Linguard, Pat Burns, Louise Boughner, Evelyn Roudenbush, Elaine Lebow, Sherry Dunn, Virginia Van Kessel, Pat DeVito, Ruth Lowden and Mert Meeker. Gerry Noone was the manager.

The "B" team had large grins on

their faces also for they, too, brought home the first place plaque. The team coached by Miss Quinn Kelley, played Gables, Edison and Jackson.

The game with Jackson was one of the closest games. The score was 7-5 favor of Jackson in the last quarter, when the ruling of playing only eight quarters came into effect. Hialeah put in Sonny Hayes who made a basket, tying the score and Susan Kraft who made a foul shot making the score 8-7 Hialeah leading as the game ended.

This victory insured the plaque for the "B" team. Those on the winning team were: Carol Rollinson, captain; Carol Albury, Gloria Killingsworth, Kay Granther, Pat Jettner, Carolyn Pritchard, Francis Maxwell, Susan Kraft, Diane Craft, Jean Gypp and Sandy Powell. Janet Armstrong was the manager. Official scorers for Hialeah were Charlotte Keyes and Elsie Scott.

Reach for the Sky Say Phys. Ed. Teachers

If you are a Junior or Sophomore, you know what to do when you hear a Physical Education teacher say, "reach for the sky." No robbery or felony is being committed (although some of the girls think it is a crime to put their muscles through such strain). The teachers are only telling the girls to stretch higher. The reason for stretching higher is to limber up the girls' muscles for modern dancing. And if you don't believe that the exercises stretch them, just ask any girl who has done them. Or better still try them yourself.

In an introduction to the sec-

tion given by Miss Alliene Swain, she said, "If you have too much it will take it off and if you don't have any it will harden what you have so it looks as if you have more." This applies only if you do the exercises properly. It should come as good news to many girls, that is if they are willing to do them.

The exercises done for modern dancing are classified in two classes, axial and locomotion. Axial exercises are done in one place or position; in locomotion the person moves from place to place.

In this course the girls are taught focus, location, and level. All this combines to give the girls good coordination. The girls are required to become choreographers and make up two original dances. One dance, the first, will be done with a group of about ten girls, but the second dance only consist of two girls.

GIRLS' GAB

By Kay Coomer

REMINDER!

For all girls who are interested in playing softball, don't forget that tryouts for intramurals are under way. They began February 10. The first week of training was for the girls interested in becoming softball officials. Also the girls who tried out for teams were out playing. If you are interested, look into it today.

GOOD LUCK?

The day of the basketball tournament at Edison's gym there was a telegram posted on the bulletin board in the vestibule of the girls' locker room. It read: "Good Luck and Best Wishes. Your rooters at F.S.U." I don't know if this brought all the luck or if the girls were just good players but it was a nice gesture anyway.

Is Love Her Fault, Or A Foot Fault?

"Love," double fault, "foot fault" and "add in or out" are some terms that are frequently heard around tennis courts. These are not terms of endearment or of hate, but are on the sporty side.

For instance "Love" means nothing. It is the way for saying "you lose" politely. "Double Fault" and "foot fault" are fouls and naturally count against you. But if you get "add in", that is the signal that you are ahead by one point and should go like crazy to get the other. However, if the add is out, the advantage is on the opposite side.

These terms are for the game of tennis and are the basic sayings of every game. If you know these terms, you can talk like an old pro at the game even if you don't know the ball from the racket.

At this time of the year, these words can be heard expertly tossed back and forth by members of Hialeah's tennis team. The lady members are Susan Charles, Linda Lott, Beverly Jones, Nancy Smith, Ruth Larder, and Janet Armstrong.

The men who toss the ball across the net are Lyle Charles, Danny Harbolt, Bob William, John Stevens, William Van Duzle, Jimmy Smith, Charles Maggion, Richard Thigpen, James Maszuerk, and Jimmy Cadepppe.

CONFUSION RULES AS SKY DROOLS

"Bring extra long socks and warm sweaters to class," stated Physical Education teachers of Hialeah High. They have assured the students that there will be little or no days missed this semester because of poor weather conditions. Rain, wind and cold have caused a great deal of confusion in the different classes.

Each sport is assigned to a teacher for a certain part of the year, as well as for a limited time. Thus, when the weather is not up to par, time is taken from that which is usually required to teach that sport. This means that either the students will be lacking the complete information on the sport or they will have to use their own time to learn what was missed.

Although there is an indoor gym, it must be shared by all the Physical Education classes, boys, as well as girls. And it is just too small to hold enormous amount of students. So it appears that for the time being, the H.H.S. students will have to struggle through Florida's unusual weather and as good showmen always say, "The show will go on!"

Girls Active During Freeze

By Pat Curtis

The scene was the gym with a bevy of laughing girls somewhat hysterically performing confused antics. The girls were of the second period Physical Education classes and were trying to square dance with one girl acting as the boy. Although the dancing itself wouldn't be approved by the "Grand Old Opry", it accomplished its purpose — to keep the girls warm.

With the arrival of Sunny Florida's cold spell, Girl's Physical Education classes had to withdraw to the locker room or the gym. This, however, didn't send the cold-blooded girls into corners huddling. Instead, the teachers devised rollicking activities to prevent them from turning into human icicles.

One is the revival of running relays. Another, and perhaps the most popular, is co-ed volleyball. This means that the boys play boy's rules while the girls play girl's rules.

Though this may seem unfair, the females of the species still felt at a disadvantage when the boys kept making points against them. Nevertheless, all who participated in those "keep warm activities" soon peeled off their coats and spirits were thawed.

H.H.S. Gymnasts Tell Schedule For '58 Season

Coach Joe Regna, of the gymnastics team, and Assistant Coach, Mr. Bob Delaney, have announced a tentative schedule for gymnastic meets.

- Feb. 15—Fla. AAU, 9 a.m.—here
- Feb. 26—S. Broward 7 p.m.—here
- Mch. 6—S'west, 3:30 p.m.—here
- Mch. 13—N. Miami, 7 p.m.—away
- Mch. 20—Riverside M.A., 7 p.m.—here
- Mch. 29—C. Gables, 7 p.m.—away
- April 3—open
- April 10—N. Miami-Miami, 7 p.m.—here
- April 17—Southwest, 3:30 p.m.—away
- April 24—Dade County Champ, 7 p.m.—away
- May 2—C. Gables, 7 p.m.—here

FIRST IN COUNTY

The Hialeah High School team is one of five in the county. Last year the H.H.S. Gym team won first place in the Dade County competition, finishing with an undefeated season. Other teams include, Miami Senior, Coral Gables, Southwest, North Miami.

Coach Regna placed third in the AAU (Amateur Athletic Union) in 1952 and was runner up in the National Collegiate Athletic Association in flying rings in 1953.

NEW ASSOCIATION FORMED

The Dade County High School Gymnastic Association has just been organized to include all the high schools in the county who offer gymnastic to include all the high schools in the county who offer gymnastics to the students. Mr. Joe Regna, Hialeah Coach, is the president of this new group.

Hialeah members of the gymnastic team are J. Chester, and R. Whittaker, co-captains; A. Sullivan, J. Godfrey, E. Gilbert, D. Grady, M. Barnes, J. Devlen, A. Corrigan, F. Wiley, B. B. Stark, S. Wojas, T. Barnes, W. DeBerry, P. Beau-doin.

CAPTAIN CHSETER NAMED "ALL-ROUND"

Captain Jerry Chester, a senior, has been a member of the team for three years. He has been named "most valuable member" since he is considered the best all-around performer. He specializes in side horse, parallel bars, free exercise, long horse, horizontal bars and still rings.

He won the senior men's all-around championship at the West Palm Beach AAU meet in 57.

Press Box Quips

By Mike Powell

Each semester the Hialeah High Record elects a new staff. It was my honor to be elected Sports Editor for the coming semester. In my column I hope to present sports facts, a lot of info, a little horse play or should I say Thorobred Play.

Any and all criticisms will be welcomed and appreciated.

I would like to extend an invitation to anyone to bring to my attention some sporting event which I might be too busy to cover.

INTRAMURALS TO START

Now to work. It seems that under the new intramural program, each school in the area will have a team and these teams will be named after the clubs in it. The team which sponsors named after the club will receive \$25 to its treasury and the team that places second will be given \$15 for its club treasury.

The boys to participate in this program are the 9th and 10th graders, from all the junior highs in the area plus the Freshmen and Sophomores from Hialeah Senior High.

AWARDS TO BE GIVEN

The annual football awards assembly will be held the 19th of February in the Auditorium. This year there are three boys who have received varsity letters for the fourth time. They are: Charles Adams, Jerry Askowitz, and Charles Chastain. These boys are seniors and with one exception will be the last four-letter men to graduate from Hialeah High. Benjie Lebow, captain and senior, is receiving his third varsity letter while Paul Donaldson the exception, I was speaking of, receives his third letter as a junior.

FIRST YEAR MEN

First year letter men are as follows:

Bill Stafford, Jim Richardson, Bill McIver, Louis Moran, Chris Wright, Richard Krtausch, Douglas Plumley, James Palow, Robert Tafel, Michael Little, Doyle Peterson, Tom Campbell, Tom Novack, Glen Saucier, Randall Harper, Larry Worley, Erick Box, Alton Strickland, Robert Ludwig, George Cox, Bill Warf, Gerald Sullivan, Robert Hooten, Lanny Russ, and Joe Santoro.

OTHER VARSITY PLAYERS

Hialeah Knocks Wind Out of Beach Typhoons

By Mike Powell

Hialeah's Cagers displaying skill and precision blasted Miami Beach's first undefeated season into limbo by a score of 63-61 in a hard fought battle in the Hialeah Gym Tuesday night.

The Typhoons were ahead at the end of only one quarter, that being the third.

BUTTS' STELLAR PLAY SPARKS SQUAD

Bernie Butts was Hialeah's big gun as his precision passing and hustle inspired an already peppy Hialeah squad. While Bernie himself hit for 18, Lyle Charles and Bob Ellis were tied at 16 for second honors.

The Typhoons' tremendous height was offset by Ellis' and Kratausch's stellar work under the nets.

SPRUCE FILLS IN

Bill Spruce filling in for the absent Jerry Askowitz, played a fine game at guard, aiding the Hialeah cause by some sharp passing and play making.

During the first half of the Beach Cagers were never ahead as the packed stands witnessed an exhibition of basketball skills seldom seen outside of college circles.

This game was won as a result of the spirit and physical condition of the Hialeah squad which surpassed that of the Beach Typhoons.

T-BREDS TO FACE BEACH AGAIN

Hialeah has not faced the Typhoons for the last time though, for the state tourney promises to give a rematch of this game, one of the most exciting in Hialeah's young history.

The flu crippled Hialeah's Basketball Team, leaving out of the Ft. Myers game four of the Hialeah's ace players.

Coach Brawner said, Askowitz, Futrull, Ellis, and Cocoa will be out of the Ft. Myers game. Askowitz did not take part in the Beach game since he came down with the flu just before hand. Hialeah defeated Ft. Myers with a badly crippled team as just previous to the trip Lyle Charles injured his foot.

Askowitz remarked, that he was glad to be back in shape now that he has rid himself of the flu. He

Runners Ready

The cross-country team, which won 4th place in the State championship meet at the University of Florida in Gainesville, has elected Art Baker captain of this year's team and Tom Wallace captain of next year's team. Tom placed 5th in this year's state meet with over a hundred of the state's best runners entered.

The schedule for this year's track and field team is as follows:

- Southwest—Feb. 13—Moore Park
- Ft. Lauderdale—Feb. 21—M. Park
- North Miami—Feb. 28—Moore Park
- Miami Senior—Feb. 28—M. Park
- Southwest—March 3—Moore Park
- Fort Lauderdale—Mch. 3—M. Park
- Jackson—March 3—Moore Park
- Miami Sr.—March 3—Moore Park
- Miami Hi Relays—Mch. 14—M. Park
- U. of M. Relays—Mch 21—U. of M.
- U. of F. Relays—Mch. 29—U. of Fla.
- Coral Gables
- Invitational—Apr. 3—U. of Miami
- Ft. Lauderdale—Apr. 18—S. Br'w'd
- S. Broward—Apr. 18—S. Broward
- N. Miami—Apr. 18—South Broward
- Stranahan—April 18—S. Broward
- W. Palm Beach—Apr. 18—S. Br'w'd
- N. Miami—April 25—Moore Park
- Group Meet AA—May 2—M. Park
- State Meet AA—May 10—U. of Fla.

Optimist Sponsors Football Intramurals

Under the direction of Fred King assisted by Hialeah Varsity football players the '58 Intramural football season starts to roll. Coach Lannon and his staff will lend all the assistance possible under the new Gold Coast conference rules.

Their first meeting of the prospective players was held Monday, 10 of February where Coach Harold Lannon gave the boys a very interesting talk on the program planned for them. Equipment was issued by teams starting the 12th of February.

At the time of this writing the participants in the first game are not decided however it is dated for the week beginning the 17th of February.

The uniforms will consist of regulation helmets, shoulder pads, hip pads, thigh pads, knee pads, pants jerseys and tennis shoes.

The boys will have to furnish their shoes and socks. Other than that the equipment will be lent by the Hialeah High Athletic Association.

The clubs expected to sponsor teams are Key, Wheel, Barbell, Spanish, H-Club, Tri-M, and Hi-Y.

All the local junior highs were represented such as Henry Filer, Palm Springs, Madison, Westview, and Miami Springs.

John Denton, Dwight Barnes, John Clark, Doyal Peterson, Randy Miller, Ray Jaworski, Bill Stafford, Randall Harper and Mike Powell are expected coaches. Dwight Barn's squad was the champion in last year's intramural league.

Play Ball! Batter Up,

Ah, spring is in the air, and the robins are singing. What does a boy's fancy turn to? Why baseball, of course. His eagerness to belt the old horsehide is exceeded only by his hectic dashes to the kitchen before, during and after meals.

At Hialeah High Coach Wychunas' cheery voice is heard over the P.A. system calling for all candidates to report to the field soon after school. Before the echoes of the bell have left the halls, the balls are flying and the gloves popping.

Last year Hialeah High had it's most successful season going all the way to the finals before being defeated. Losing only a few players this year seems to be the year

Ft. Myers Bows To T-Breds 54-49

The T-Bred cagers downed the Ft. Myers cage squads 54-49 in a very close battle in Ft. Myers.

Hialeah actually won the game at the foul line hitting 58% of their free throws. With a good percentage of 42% on their field goals the Hialeah squad added another to their string of victories. Hialeah's record stands 17-2 to date.

Bernie Butts was again the big man with 25 important points to his credit. The fast moving guard drove and fought to bring victory to Hialeah once again. Bob Ellis, the T-Bred Center, was next man with 10 points.

The colt cagers went down to defeat 30-28 in the fast moving J.V. game.
